Site No.: LA03XC198 Mureau (Sprint 2.5 Upgrade Project)

Location: 24900 Calabasas Road, Calabasas, CA 91302

RE: Exhibit 3.03

Section 6409(a) Eligible Facilities Request Justification

The proposal for the modification to the existing Wireless Communication Facility (WCF) qualifies as an "eligible facilities" request for a removal or replacement of new transmission equipment on an existing cell towers and/or base stations under Section 6409(a) of the Middle Class Tax Relief and Job Creation Act of 2012 as the proposed work does not constitute a "substantial change in the physical dimensions" of the subject WCF.

There will be no increase to the height of the facility, there will be no increase in the number of equipment cabinets, there will be no increase in the footprint of the lease area or size of the shelter, no new antennas will extend more that 20'-0" horizontally from the tower, and no excavation is required outside of the current project site.

Please contact me at 562-485-8012 or aaron.anderson@sequoia-ds.com if there are any questions regarding this application.

Thank you,

Aaron M. Anderson
