INCORPORATED

CIVIL ENGINEERS SURVEYORS AND LAND PLANNERS

Ms. Maureen Tamuri, Director of Community Development  
City of Calabasas

---

SUBJECT: PROPOSAL FOR ENGINEERING WORK TO ADD UTILITIES IN THE  
STREETS AS REQUESTED.

Att: Maureen Tamuri,

W. R. Lind, Inc. is pleased to have this opportunity to submit the following proposal to perform engineering work as follows:

W. R. Lind, Inc., has been asked by Mehdi Heydari of Vanir to gather the plans for the utilities in the various streets within the scope of this Project.

The Streets involved are:

1. Calabasas Rd between Park Granada and Parkway Calabasas
2. Parkway Granada between Calabasas Rd and Park Granada
3. Park Granada between Calabasas Rd and Parkway Calabasas
4. Park Center
5. Park Sorrento between Parkway Calabasas and Park Granada

Our Office has purchased copies of all of the plans except for the cable television which we are in the process of acquiring. Copies of these plans have been sent to your Architects and Engineer at the direction of Mr. Heydari of Vanir and we are proceeding with this work as there is apparently some urgency to complete this information and get it to your consultants.

The estimated cost of transferring all of the above material onto the survey base sheets is \$9000.00 plus any added costs for reproductions and mailing.

Thank you for this opportunity to be of service to the City of Calabasas. Should you have any questions relative to this proposal please contact Arlette Lind.

Sincerely,

Arlette Lind

C: Mehdi Heydari @ Vanir
