Rondell Hotel Development

Good Evening Ladies and Gentlemen.

My name is Jennifer Miller, and I am the Salon Manager of Salon Nuuvo, the Calabasas Chamber of Commerce Business of the Year 2015. I will read this letter to support the Rondell Hotel Development Project on behalf of Salon Nuuvo.

As a company active in the community, Salon Nuuvo has spent time researching this project, and believes there are significant benefits to the community if Rondell Hotel is given the go ahead.

Salon Nuuvo spends significant marketing dollars each month advertising our services to the community. For Salon Nuuvo to survive, we need a mixture of repeat clientele along with transient walk through traffic, who occasionally try and use our services. The visiting hotel guest perfectly fits our transient description, so we wholeheartedly support this initiative.

As a passionate fitness enthusiast, I was personally excited to read that access to the historic De Anza Trail will be significantly improved. Along with signage improvements to the trailhead, there will be dedicated parking for hikers and cyclists, a hitching post for equestrian use, watering station for hikers and their pets, with shaded seating along the trail, so I look forward to hopefully walking the trail with my team if successful.

It has been said...change is constant; change is inevitable...while respecting the historic beauty of the scenic corridor that is Calabasas, we hope the City finds favor to approve the project, embracing this change to enhance and uplift the business community, and return significant tax dollars to the city's residents for community programs.

Thank you for your time.

Sincerely,

Jennifer Miller

Salon Manager
