Calabasas Joins California Cities Requiring Masks When Outside

The City of Calabasas has issued Executive Order 2020-7 which requires that residents must wear a face covering any time they are outside and cannot stay six feet away from people not from their household. A face covering can include bandanas, scarves, or cloth masks that cover both the mouth and nose.

If Calabasas residents are in a car, they do not need a face covering unless they roll down the window. If residents are walking or exercising outdoors, they must carry a face covering with them in case they encounter someone who's not from their household.

Everyone who works at a grocery store, restaurant, or other essential business in Calabasas must wear a face covering at all times when they are working.
