

## Calabasas Library Summer Reading Program 2020

### Create Your Space

- Draw and color a few of your favorite people, places, and things to showcase your ideal world.

### Gather Your Supplies

- You'll need a **pen or pencil** for drawing; a **crayon or marker** for coloring; and **a few sheets of blank paper**.

### Warm-Up

- Let's get your hands moving! Spend a few minutes making a series of loose scribbles on your paper.

### Let's Create Your Space!

- Who and what make up your favorite place? Start by making a list of a few people, places, and things that mean a lot to you. Your list could include a friend, a favorite place to visit, or a really enjoyable book.
- Choose one person, one place, and one thing from your list to draw.
- Combine and build on basic shapes like circles and squares to draw each item from your list.
- If you need more space, use a separate piece of paper for each drawing.
- Write the name of each person, place, and thing next to each related drawing.
- Highlight features that you like or admire about each of your drawings with color.
- Color in the remaining parts of each drawing with another color.
- Add a border to your illustration to frame it!

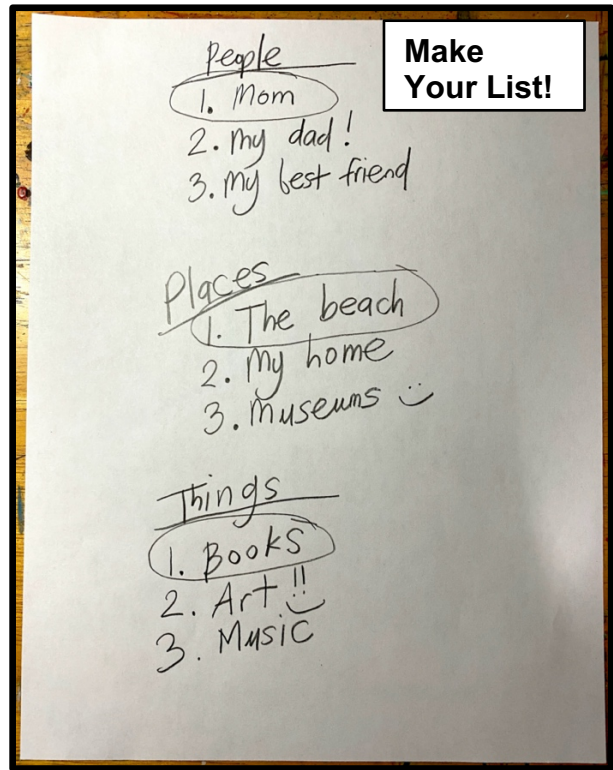

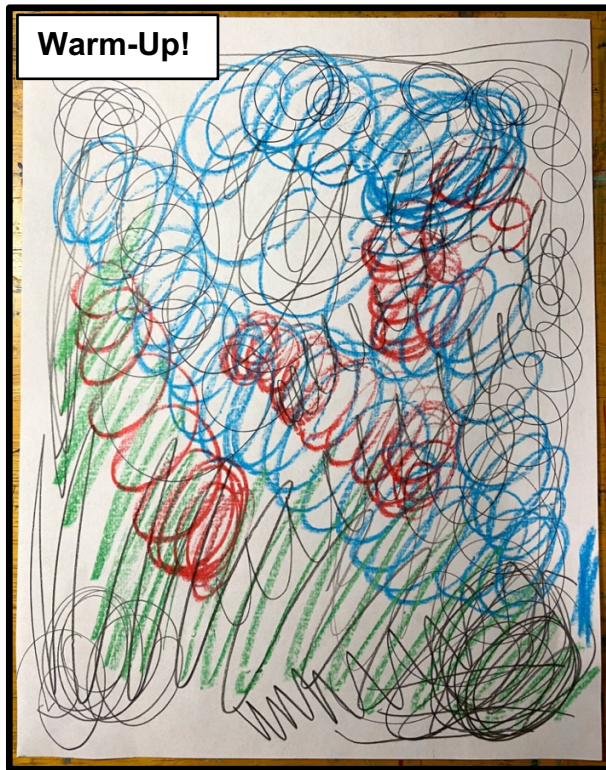

### What Did You Discover?

- Who and what things made it into your final illustration(s)? Why are they so meaningful to you?

### Share It!

- Use the **#CalabasasLibSRP20** hashtag to tag and share your art on social media!
