

Calabasas Library Summer Reading Program 2020

Zines! Part 2

- Learn several tips for how to decorate your zine with your art, journaling, poetry – you name it!

Gather Your Supplies

- The supplies that you use to decorate your zine can range from pencil or pen, to marker or paint – it's up to you!
- For this program, I'll be using my stapled zine that I created in the "Zines! Part 1" program, as well as a **pen, pencil, and marker** to create my zine's content.
- A few suggested supplies include: a **pen or pencil** for drawing and writing; **marker or pencil** for coloring; **magazine clippings** for collage; **glue or tape** for an adhesive.

Adding Content

- Fill your zine with content that's meaningful to you! Drawings, doodles, poetry, photography, writings, etc. The content that you choose to add can have a theme; or your zine can serve as a collective of different types of your work.

Share It!

- Use the **#CalabasasLibSRP20** hashtag to tag and share your zines on social media!
