

Mango Languages

Mango is an interactive online language learning program. You must have a City of Calabasas Library card in good standing. If you were a Mango user in the past with the Calabasas Library your email and password will continue to work. If you don't remember your password, reset your password.

If you are a new user to Mango with a Calabasas Library, then to sign up with your library card, go to <https://connect.mangolanguages.com/calabasaslibrary/start> and click "sign up." Add an email address, your library card number, and choose a password.

You can use the program with a browser or download the Mango app from Google Play or the App Store by searching "Mango Languages: Personalized Language Learning."

You can download chapters through the app so you can use it without wifi. You can put it on autoplay to listen hands free.

If you have any questions, please email Karilyn Steward, Librarian at ksteward@calabasaslibrary.org
