CALIFORNIA LEGISLATURE— 2021–2022 REGULAR SESSION

ASSEMBLY BILL**NO. 115****Introduced by Assembly Member Bloom****December 18, 2020**

An act to add and repeal Section 65583.7 of the Government Code, relating to land use.

LEGISLATIVE COUNSEL'S DIGEST

AB 115, as introduced, Bloom. Planning and zoning: commercial zoning: housing development.

Existing law, the Planning and Zoning Law, requires that the legislative body of each county and each city adopt a comprehensive, long-term general plan for the physical development of the county and city, and specified land outside its boundaries, that includes, among other mandatory elements, a housing element. Existing law authorizes the legislative body of any county or city, pursuant to specified procedures, to adopt ordinances that, among other things, regulate the use of buildings, structures, and land as between industry, business, residences, open space, and other purposes.

This bill, notwithstanding any inconsistent provision of a city's or county's general plan, specific plan, zoning ordinance, or regulation, would require that a housing development be an authorized use on a site designated in any local agency's zoning code or maps for commercial uses if certain conditions apply. Among these conditions, the bill would require that the housing development be subject to a recorded deed restriction requiring that at least 20% of the units have an affordable housing cost or affordable rent for lower income households, as those terms are defined, and located on a site that satisfies specified criteria.

The bill would require the city or county to apply certain height, density, and floor area ratio standards to a housing development that meets these criteria. The bill would deem a housing development consistent, compliant, and in conformity with local development standards, zoning codes or maps, and general plan if it meets the requirements of the bill. The bill would require a jurisdiction to comply with these requirements only until it has completed the rezoning, required as described above, for the 6th revision of its housing element. The bill would repeal these provisions as of January 1, 2031.

The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.

By adding to the duties of local planning officials, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: yes

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 65583.7 is added to the Government Code, to read:

65583.7. (a) Notwithstanding any inconsistent provision of a city's or county's general plan, specific plan, zoning ordinance, or regulation, and subject to subdivision (c), a housing development shall be an authorized use on a site designated in any local agency's zoning code or maps for commercial uses if all of the following apply:

(1) The housing development is subject to a recorded deed restriction requiring that at least 20 percent of the units have an affordable housing cost or affordable rent for lower income households.

(2) The site of the housing development satisfies both of the following:

(A) The site of the housing development is not adjacent to any site that is an industrial use.

(B) At least 75 percent of the perimeter of the site adjoins parcels that are developed with urban uses. For purposes of this subparagraph, parcels that are only separated by a street or highway shall be considered to be adjoined.

(b) (1) A city or county shall apply the following development standards to a housing development that meets the criteria in subdivision (a), unless existing applicable zoning standards of the city or county are less restrictive:

(A) The height limit applicable to the housing development shall be the greatest of the following:

(i) The highest allowed height for the site of the housing development.

(ii) The highest allowed height for a commercial or residential use within one-half mile of the site of the housing development.

(iii) Thirty-six feet.

(B) The maximum allowable floor area ratio of the housing development shall be not less than 0.6 times the number of stories that complies with the height limit under clause (i) of subdivision (A).

(C) The density limit applicable to the housing development shall be the greater of the following:

(i) The greatest allowed density for a mixed use or residential use within one-half mile of the site of the housing development.

(ii) The applicable density deemed appropriate to accommodate housing for lower income households identified in subparagraph (B) of paragraph (3) of subdivision (c) of Section 65583.2.

(2) In addition, the housing development shall comply with any applicable design standards of the city or county to the extent that those design standards do not prohibit the maximum height limit, density, or floor area ratio allowed under this section.

(3) Notwithstanding any other provision of this section, a developer of a housing development allowed in accordance with this section may apply for a density bonus pursuant to Section 65915.

(4) A housing development shall be deemed consistent, compliant, and in conformity with local development standards, zoning codes or maps, and the general plan if it meets the requirements of this section.

(c) For purposes of this section:

(1) "Affordable housing cost" has the same meaning as defined in Section 50052.5 of the Health and Safety Code.

(2) "Affordable rent" has the same meaning as defined in Section 50053 of the Health and Safety Code.

(3) "Greatest allowed density" means the maximum allowable gross residential density, including any density that requires conditional approval, allowable under local zoning, including the zoning ordinances and any specific plan adopted by the applicable city or county that apply to the site of the housing development.

(4) "Highest allowable height" means the tallest height, including any height that requires conditional approval, allowable under local zoning, including the zoning ordinances and any specific plan adopted by the applicable city or county that apply to the site of the housing development.

(5) "Industrial use" includes, but is not limited to, utilities, manufacturing, wholesale trade, transportation, and warehousing.

(6) "Lower income households" has the same meaning as defined in Section 50079.5 of the Health and Safety Code.

(d) A jurisdiction shall only be subject to this section until it has completed the rezoning required by Section 65583 for the 6th revision of its housing element pursuant to this article.

(e) The Legislature finds and declares that ensuring the adequate production of affordable housing is a matter of statewide concern and is not a municipal affair as that term is used in Section 5 of Article XI of the California Constitution. Therefore, this section applies to all cities, including charter cities.

(f) This section shall remain in effect only until January 1, 2031, and as of that date is repealed.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.

SENATE BILL NO. 9
LEGISLATIVE COUNSEL'S DIGEST AND BILL TEXT

**SB-9 Housing development: approvals.** (2021-2022)

Date Published: 12/07/2020 09:00 PM

CALIFORNIA LEGISLATURE— 2021–2022 REGULAR SESSION

SENATE BILL**NO. 9**

**Introduced by Senators Atkins, Caballero, Rubio, and Wiener
(Coauthors: Senators Gonzalez and McGuire)
(Coauthor: Assembly Member Robert Rivas)**

December 07, 2020

An act to amend Section 66452.6 of, and to add Sections 65852.21 and 66411.7 to, the Government Code, relating to land use.

LEGISLATIVE COUNSEL'S DIGEST

SB 9, as introduced, Atkins. Housing development: approvals.

The Planning and Zoning Law provides for the creation of accessory dwelling units by local ordinance, or, if a local agency has not adopted an ordinance, by ministerial approval, in accordance with specified standards and conditions.

This bill, among other things, would require a proposed housing development containing 2 residential units within a single-family residential zone to be considered ministerially, without discretionary review or hearing, if the proposed housing development meets certain requirements, including, but not limited to, that the proposed housing development would not require demolition or alteration of housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income, that the proposed housing development does not allow for the demolition of more than 25% of the existing exterior structural walls, except as provided, and that the development is not located within a historic district, is not included on the State Historic Resources Inventory, or is not within a site that is legally designated or listed as a city or county landmark or historic property or district.

The bill would set forth what a local agency can and cannot require in approving the construction of 2 residential units, including, but not limited to, authorizing a city or county to impose objective zoning standards, objective subdivision standards, and objective design standards, as defined, unless those standards would have the effect of physically precluding the construction of up to 2 units, prohibiting the imposition of setback requirements under certain circumstances, and setting maximum setback requirements under all other circumstances.

The Subdivision Map Act vests the authority to regulate and control the design and improvement of subdivisions in the legislative body of a local agency and sets forth procedures governing the local agency's processing,

approval, conditional approval or disapproval, and filing of tentative, final, and parcel maps, and the modification of those maps. Under the Subdivision Map Act, an approved or conditionally approved tentative map expires 24 months after its approval or conditional approval or after any additional period of time as prescribed by local ordinance, not to exceed an additional 12 months, except as provided.

This bill, among other things, would require a city or county to ministerially approve a parcel map or tentative and final map for an urban lot split that meets certain requirements, including, but not limited to, that the urban lot split would not require the demolition or alteration of housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income, that the parcel is located within a residential zone, and that the parcel is not located within a historic district, is not included on the State Historic Resources Inventory, or is not within a site that is legally designated or listed as a city or county landmark or historic property or district.

The bill would set forth what a local agency can and cannot require in approving an urban lot split, including, but not limited to, authorizing a city or county to impose objective zoning standards, objective subdivision standards, and objective design standards, as defined, unless those standards would have the effect of physically precluding the construction of 2 units on either of the resulting parcels, prohibiting the imposition of setback requirements under certain circumstances, and setting maximum setback requirements under all other circumstances.

The bill would also extend the limit on the additional period that may be provided by ordinance, as described above, from 12 months to 24 months and would make other conforming or nonsubstantive changes.

The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment. CEQA does not apply to the approval of ministerial projects.

This bill, by establishing the ministerial review processes described above, would thereby exempt the approval of projects subject to those processes from CEQA.

The California Coastal Act of 1976 provides for the planning and regulation of development, under a coastal development permit process, within the coastal zone, as defined, that shall be based on various coastal resources planning and management policies set forth in the act.

This bill would exempt a local government from being required to hold public hearings for coastal development permit applications for housing developments and urban lot splits pursuant to the above provisions.

By increasing the duties of local agencies with respect to land use regulations, the bill would impose a state-mandated local program.

The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: yes

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 65852.21 is added to the Government Code, to read:

65852.21. (a) A proposed housing development containing two residential units within a single-family residential zone shall be considered ministerially, without discretionary review or a hearing, if the proposed housing development meets all of the following requirements:

(1) The parcel subject to the proposed housing development is located within a city the boundaries of which include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau, or, for unincorporated areas, a legal parcel wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

(2) The parcel satisfies the requirements specified in subparagraphs (B) to (K), inclusive, of paragraph (6) of subdivision (a) of Section 65913.4.

(3) Notwithstanding any provision of this section or any local law, the proposed housing development would not require demolition or alteration of any of the following types of housing:

(A) Housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income.

(B) Housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power.

(C) Housing that has been occupied by a tenant in the last three years.

(4) The parcel subject to the proposed housing development is not a parcel on which an owner of residential real property has exercised the owner's rights under Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1 to withdraw accommodations from rent or lease within 15 years before the date that the development proponent submits an application.

(5) The proposed housing development does not allow the demolition of more than 25 percent of the existing exterior structural walls, unless the housing development meets at least one of the following conditions:

(A) If a local ordinance so allows.

(B) The site has not been occupied by a tenant in the last three years.

(6) The development is not located within a historic district or property included on the State Historic Resources Inventory, as defined in Section 5020.1 of the Public Resources Code, or within a site that is designated or listed as a city or county landmark or historic property or district pursuant to a city or county ordinance.

(b) (1) Notwithstanding any local law and except as provided in paragraph (2), a city or county may impose objective zoning standards, objective subdivision standards, and objective design review standards that do not conflict with this section.

(2) (A) The city or county shall not impose objective zoning standards, objective subdivision standards, and objective design standards that would have the effect of physically precluding the construction of up to two units.

(B) (i) Notwithstanding subparagraph (A), no setback shall be required for an existing structure or a structure constructed in the same location and to the same dimensions as an existing structure.

(ii) Notwithstanding subparagraph (A), in all other circumstances not described in clause (i), a local government may require a setback of up to four feet from the side and rear lot lines.

(c) In addition to any conditions established in accordance with subdivision (b), a local agency may require any of the following conditions when considering an application for two residential units as provided for in this section:

(1) Off-street parking of up to one space per unit, except that a local agency shall not impose parking requirements in either of the following instances:

(A) The parcel is located within one-half mile walking distance of either a high-quality transit corridor, as defined in subdivision (b) of Section 21155 of the Public Resources Code, or a major transit stop, as defined in Section 21064.3 of the Public Resources Code.

(B) There is a car share vehicle located within one block of the parcel.

(2) For residential units connected to an onsite wastewater treatment system, a percolation test completed within the last five years, or, if the percolation test has been recertified, within the last 10 years.

(d) A local agency shall require that a rental of any unit created pursuant to this section be for a term longer than 30 days.

(e) Notwithstanding Section 65852.2, a local agency shall not be required to permit an accessory dwelling unit on parcels that use both the authority contained within this section and the authority contained in Section 66411.7.

(f) Notwithstanding subparagraph (B) of paragraph (2) of subdivision (b), an application shall not be rejected solely because it proposes adjacent or connected structures provided that the structures meet building code safety standards and are sufficient to allow separate conveyance.

(g) Local agencies shall include units constructed pursuant to this section in the annual housing element report as required by subparagraph (I) of paragraph (2) of subdivision (a) of Section 65400.

(h) For purposes of this section, all of the following apply:

(1) A housing development contains two residential units if the development proposes two new units or if it proposes to add one new unit to an existing unit.

(2) The terms "objective zoning standards," "objective subdivision standards," and "objective design review standards" mean standards that involve no personal or subjective judgment by a public official and are uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official prior to submittal. These standards may be embodied in alternative objective land use specifications adopted by a city or county, and may include, but are not limited to, housing overlay zones, specific plans, inclusionary zoning ordinances, and density bonus ordinances.

(i) A local agency may adopt an ordinance to implement the provisions of this section. An ordinance adopted to implement this section shall not be considered a project under Division 13 (commencing with Section 21000) of the Public Resources Code.

(j) Nothing in this section shall be construed to supersede or in any way alter or lessen the effect or application of the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code), except that the local government shall not be required to hold public hearings for coastal development permit applications for a housing development pursuant to this section.

SEC. 2. Section 66411.7 is added to the Government Code, to read:

66411.7. (a) Notwithstanding any other provision of this division and any local law, a city or county shall ministerially approve, as set forth in this section, a parcel map or tentative and final map for an urban lot split that meets all the following requirements:

(1) The parcel map or tentative and final map subdivides an existing parcel to create two new parcels of equal size.

(2) (A) Except as provided in subparagraph (B), both newly created parcels are no smaller than 1,200 square feet.

(B) A local agency may by ordinance adopt a smaller minimum lot size subject to ministerial approval under this subdivision.

(3) The parcel being subdivided meets all the following requirements:

(A) The parcel is located within a residential zone.

(B) The parcel subject to the proposed urban lot split is located within a city the boundaries of which include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau, or, for unincorporated areas, a legal parcel wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

(C) The parcel satisfies the requirements specified in subparagraphs (B) to (K), inclusive, of paragraph (6) of subdivision (a) of Section 65913.4.

(D) The proposed urban lot split would not require demolition or alteration of any of the following types of housing:

(i) Housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income.

(ii) Housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power.

(iii) A parcel or parcels on which an owner of residential real property has exercised the owner's rights under Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1 to withdraw accommodations from rent or lease within 15 years before the date that the development proponent submits an application.

(iv) Housing that has been occupied by a tenant in the last three years.

(E) The parcel is not located within a historic district or property included on the State Historic Resources Inventory, as defined in Section 5020.1 of the Public Resources Code, or within a site that is designated or listed as a city or county landmark or historic property or district pursuant to a city or county ordinance.

(F) The parcel has not been established through prior exercise of an urban lot split as provided for in this section.

(G) Neither the owner of the parcel being subdivided nor any person acting in concert with the owner has previously subdivided an adjacent parcel using an urban lot split as provided for in this section.

(b) An application for an urban lot split shall be approved in accordance with the following requirements:

(1) A local agency shall approve or deny an application for an urban lot split ministerially without discretionary review.

(2) A local agency shall approve an urban lot split only if it conforms to all applicable objective requirements of the Subdivision Map Act (Division 2 (commencing with Section 66410)), except as otherwise expressly provided in this section.

(3) Notwithstanding Section 66411.1, a local agency shall not impose regulations that require dedications of rights-of-way or the construction of offsite improvements for the parcels being created as a condition of issuing a parcel map or tentative and final map for an urban lot split.

(c) (1) Except as provided in paragraph (2), notwithstanding any local law, a city or county may impose objective zoning standards, objective subdivision standards, and objective design review standards applicable to a parcel created by an urban lot split that do not conflict with this section.

(2) A local agency shall not impose objective zoning standards, objective subdivision standards, and objective design review standards that would have the effect of physically precluding the construction of two units on either of the resulting parcels.

(3) (A) Notwithstanding paragraph (2), no setback shall be required for an existing structure or a structure constructed in the same location and to the same dimensions as an existing structure.

(B) Notwithstanding paragraph (2), in all other circumstances not described in subparagraph (A), a local government may require a setback of up to four feet from the side and rear lot lines.

(d) In addition to any conditions established in accordance with subdivision (c), a local agency may require any of the following conditions when considering an application for an urban lot split:

(1) Easements required for the provision of public services and facilities.

(2) A requirement that the parcels have access to, provide access to, or adjoin the public right-of-way.

(3) Off-street parking of up to one space per unit, except that a local agency shall not impose parking requirements in either of the following instances:

(A) The parcel is located within one-half mile walking distance of either a high-quality transit corridor as defined in subdivision (b) of Section 21155 of the Public Resources Code, or a major transit stop as defined in Section 21064.3 of the Public Resources Code.

(B) There is a car share vehicle located within one block of the parcel.

(e) A local agency shall require that the uses allowed on a lot created by this section be limited to residential uses.

(f) A local agency shall require that a rental of any unit created pursuant to this section be for a term longer than 30 days.

(g) A local agency shall not require, as a condition for ministerial approval of a permit application for the creation of an urban lot split, the correction of nonconforming zoning conditions.

(h) Notwithstanding Section 65852.2, a local agency shall not be required to permit an accessory dwelling unit on parcels that use both the authority contained within this section and the authority contained in Section 65852.21.

(i) Notwithstanding paragraph (3) of subdivision (c), an application shall not be rejected solely because it proposes adjacent or connected structures provided that the structures meet building code safety standards and are sufficient to allow separate conveyance.

(j) Local agencies shall include the number of applications for urban lot splits pursuant to this section in the annual housing element report as required by subparagraph (I) of paragraph (2) of subdivision (a) of Section 65400.

(k) For purposes of this section, the terms "objective zoning standards," "objective subdivision standards," and "objective design review standards" mean standards that involve no personal or subjective judgment by a public official and are uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official prior to submittal. These standards may be embodied in alternative objective land use specifications adopted by a city or county, and may include, but are not limited to, housing overlay zones, specific plans, inclusionary zoning ordinances, and density bonus ordinances.

(l) A local agency may adopt an ordinance to implement the provisions of this section. An ordinance adopted to implement this section shall not be considered a project under Division 13 (commencing with Section 21000) of the Public Resources Code.

(m) Nothing in this section shall be construed to supersede or in any way alter or lessen the effect or application of the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code), except that the local government shall not be required to hold public hearings for coastal development permit applications for urban lot splits pursuant to this section.

SEC. 3. Section 66452.6 of the Government Code is amended to read:

66452.6. (a) (1) An approved or conditionally approved tentative map shall expire 24 months after its approval or conditional approval, or after any additional period of time as may be prescribed by local ordinance, not to exceed an additional ~~12~~ 24 months. However, if the subdivider is required to expend two hundred thirty-six thousand seven hundred ninety dollars (\$236,790) or more to construct, improve, or finance the construction or improvement of public improvements outside the property boundaries of the tentative map, excluding improvements of public rights-of-way ~~which~~ *that* about the boundary of the property to be subdivided and ~~which~~ *that* are reasonably related to the development of that property, each filing of a final map authorized by Section 66456.1 shall extend the expiration of the approved or conditionally approved tentative map by ~~36~~ 48 months from the date of its expiration, as provided in this section, or the date of the previously filed final map, whichever is later. The extensions shall not extend the tentative map more than 10 years from its approval or conditional approval. However, a tentative map on property subject to a development agreement authorized by Article 2.5 (commencing with Section 65864) of Chapter 4 of Division 1 may be extended for the period of time provided for in the agreement, but not beyond the duration of the agreement. The number of phased final maps that may be filed shall be determined by the advisory agency at the time of the approval or conditional approval of the tentative map.

(2) Commencing January 1, 2012, and each calendar year thereafter, the amount of two hundred thirty-six thousand seven hundred ninety dollars (\$236,790) shall be annually increased by operation of law according to the adjustment for inflation set forth in the statewide cost index for class B construction, as determined by the State Allocation Board at its January meeting. The effective date of each annual adjustment shall be March 1. The adjusted amount shall apply to tentative and vesting tentative maps whose applications were received after the effective date of the adjustment.

(3) "Public improvements," as used in this subdivision, include traffic controls, streets, roads, highways, freeways, bridges, overcrossings, street interchanges, flood control or storm drain facilities, sewer facilities, water facilities, and lighting facilities.

(b) (1) The period of time specified in subdivision (a), including any extension thereof granted pursuant to subdivision (e), shall not include any period of time during which a development moratorium, imposed after approval of the tentative map, is in existence. However, the length of the moratorium shall not exceed five years.

(2) The length of time specified in paragraph (1) shall be extended for up to three years, but in no event beyond January 1, 1992, during the pendency of any lawsuit in which the subdivider asserts, and the local agency ~~which~~ *that* approved or conditionally approved the tentative map denies, the existence or application of a development moratorium to the tentative map.

(3) Once a development moratorium is terminated, the map shall be valid for the same period of time as was left to run on the map at the time that the moratorium was imposed. However, if the remaining time is less than 120 days, the map shall be valid for 120 days following the termination of the moratorium.

(c) The period of time specified in subdivision (a), including any extension thereof granted pursuant to subdivision (e), shall not include the period of time during which a lawsuit involving the approval or conditional approval of the tentative map is or was pending in a court of competent jurisdiction, if the stay of the time period is approved by the local agency pursuant to this section. After service of the initial petition or complaint in the lawsuit upon the local agency, the subdivider may apply to the local agency for a stay pursuant to the local agency's adopted procedures. Within 40 days after receiving the application, the local agency shall either stay the time period for up to five years or deny the requested stay. The local agency may, by ordinance, establish procedures for reviewing the requests, including, but not limited to, notice and hearing requirements, appeal procedures, and other administrative requirements.

(d) The expiration of the approved or conditionally approved tentative map shall terminate all proceedings and no final map or parcel map of all or any portion of the real property included within the tentative map shall be filed with the legislative body without first processing a new tentative map. Once a timely filing is made, subsequent actions of the local agency, including, but not limited to, processing, approving, and recording, may lawfully occur after the date of expiration of the tentative map. Delivery to the county surveyor or city engineer shall be deemed a timely filing for purposes of this section.

(e) Upon application of the subdivider filed ~~prior to~~ *before* the expiration of the approved or conditionally approved tentative map, the time at which the map expires pursuant to subdivision (a) may be extended by the legislative body or by an advisory agency authorized to approve or conditionally approve tentative maps for a period or periods not exceeding a total of six years. The period of extension specified in this subdivision shall be in addition to the period of time provided by subdivision (a). ~~Prior to~~ *Before* the expiration of an approved or conditionally approved tentative map, upon an application by the subdivider to extend that map, the map shall automatically be extended for 60 days or until the application for the extension is approved, conditionally approved, or denied, whichever occurs first. If the advisory agency denies a subdivider's application for an extension, the subdivider may appeal to the legislative body within 15 days after the advisory agency has denied the extension.

(f) For purposes of this section, a development moratorium includes a water or sewer moratorium, or a water and sewer moratorium, as well as other actions of public agencies ~~which~~ *that* regulate land use, development, or the provision of services to the land, including the public agency with the authority to approve or conditionally approve the tentative map, which thereafter prevents, prohibits, or delays the approval of a final or parcel map. A development moratorium shall also be deemed to exist for purposes of this section for any period of time during which a condition imposed by the city or county could not be satisfied because of either of the following:

(1) The condition was one that, by its nature, necessitated action by the city or county, and the city or county either did not take the necessary action or by its own action or inaction was prevented or delayed in taking the necessary action ~~prior to~~ *before* expiration of the tentative map.

(2) The condition necessitates acquisition of real property or any interest in real property from a public agency, other than the city or county that approved or conditionally approved the tentative map, and that other public agency fails or refuses to convey the property interest necessary to satisfy the condition. However, nothing in this subdivision shall be construed to require any public agency to convey any interest in real property owned by it. A development moratorium specified in this paragraph shall be deemed to have been imposed either on the date of approval or conditional approval of the tentative map, if evidence was included in the public record that the public agency ~~which~~ *that* owns or controls the real property or any interest therein may refuse to convey that property or interest, or on the date that the public agency ~~which~~ *that* owns or controls the real property or any interest therein receives an offer by the subdivider to purchase that property or interest for fair market value, whichever is later. A development moratorium specified in this paragraph shall extend the tentative map up to the maximum period as set forth in subdivision (b), but not later than January 1, 1992, so long as the public agency ~~which~~ *that* owns or controls the real property or any interest therein fails or refuses to convey the necessary property interest, regardless of the reason for the failure or refusal, except that the development moratorium shall be deemed to terminate 60 days after the public agency has officially made, and communicated

to the subdivider, a written offer or commitment binding on the agency to convey the necessary property interest for a fair market value, paid in a reasonable time and manner.

SEC. 4. The Legislature finds and declares that ensuring access to affordable housing is a matter of statewide concern and not a municipal affair as that term is used in Section 5 of Article XI of the California Constitution. Therefore, Sections 1 and 2 of this act adding Sections 65852.21 and 66411.7 to the Government Code and Section 3 of this act amending Section 66452.6 of the Government Code apply to all cities, including charter cities.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.

SENATE BILL NO. 10
LEGISLATIVE COUNSEL'S DIGEST AND BILL TEXT

SB-10 Planning and zoning: housing development: density. (2021-2022)

SHARE THIS:

Date Published: 02/24/2021 09:00 PM

AMENDED IN SENATE FEBRUARY 24, 2021

CALIFORNIA LEGISLATURE— 2021–2022 REGULAR SESSION

SENATE BILL

NO. 10

Introduced by Senator Wiener
(Principal coauthors: Senators Atkins and Caballero)
(Principal coauthor: Assembly Member Robert Rivas)

December 07, 2020

An act to add Section 65913.5 to the Government Code, relating to land use.

LEGISLATIVE COUNSEL'S DIGEST

SB 10, as amended, Wiener. Planning and zoning: housing development: density.

The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries that includes, among other things, a housing element. Existing law requires an attached housing development to be a permitted use, not subject to a conditional use permit, on any parcel zoned for multifamily housing if at least certain percentages of the units are available at affordable housing costs to very low income, lower income, and moderate-income households for at least 30 years and if the project meets specified conditions relating to location and being subject to a discretionary decision other than a conditional use permit. Existing law provides for various incentives intended to facilitate and expedite the construction of affordable housing.

This bill would, notwithstanding any local restrictions on adopting zoning ordinances, authorize a local government to pass an ordinance to zone any parcel for up to 10 units of residential density per parcel, at a height specified in the ordinance, if the parcel is located in a transit-rich area, a jobs-rich area, or an urban infill site, as those terms are defined. In this regard, the bill would require the Department of Housing and Community Development, in consultation with the Office of Planning and Research, to determine jobs-rich areas and publish a map of those areas every 5 years, commencing January 1, ~~2022~~, 2023, based on specified criteria. The bill would specify that an ordinance adopted under these ~~provisions~~ *provisions, and any resolution adopted to amend the jurisdiction's General Plan to be consistent with that ordinance*, is not a project for purposes of the California Environmental Quality Act. The bill would prohibit a residential or mixed-use residential project consisting of 10 or more units that is located on a parcel rezoned pursuant to these provisions from being approved ministerially or by right.

This bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: no

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 65913.5 is added to the Government Code, to read:

65913.5. (a) (1) Notwithstanding any local restrictions on adopting zoning ordinances enacted by the jurisdiction, including restrictions enacted by a local voter initiative, that limit the legislative body's ability to adopt zoning ordinances, a local government may pass an ordinance to zone a parcel for up to 10 units of residential density per parcel, at a height specified by the local government in the ordinance, if the parcel is located in one of the following:

(A) A transit-rich area.

(B) A jobs-rich area.

(C) An urban infill site.

(2) An ordinance adopted in accordance with this ~~subdivision~~ *subdivision, and any resolution adopted to amend the jurisdiction's General Plan to be consistent with that zoning ordinance*, shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code.

(3) Paragraph (1) shall not apply to parcels located within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Section 51178, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code. This paragraph does not apply to parcels excluded from the specified hazard zones by a local agency pursuant to subdivision (b) of Section 51179, or sites that have adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development.

(b) (1) Notwithstanding any other law, a residential or mixed-use residential project consisting of more than 10 new residential units on one or more parcels that have been zoned to permit residential development pursuant to this section shall not be approved ministerially or by right, and shall not be exempt from Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) Paragraph (1) shall not apply to a project to create no more than two accessory dwelling units and no more than two junior accessory dwelling units per parcel pursuant to Sections 65852.2 and 65852.22 of the Government Code.

(3) A project may not be divided into smaller projects in order to exclude the project from the prohibition in this subdivision.

(c) For purposes of this section:

(1) "High-quality bus corridor" means a corridor with fixed route bus service that meets all of the following criteria:

(A) It has average service intervals of no more than 15 minutes during the three peak hours between 6 a.m. to 10 a.m., inclusive, and the three peak hours between 3 p.m. and 7 p.m., inclusive, on Monday through Friday.

(B) It has average service intervals of no more than 20 minutes during the hours of 6 a.m. to 10 a.m., inclusive, on Monday through Friday.

(C) It has average intervals of no more than 30 minutes during the hours of 8 a.m. to 10 p.m., inclusive, on Saturday and Sunday.

(2) (A) "Jobs-rich area" means an area identified by the Department of Housing and Community Development in consultation with the Office of Planning and Research *and other necessary stakeholders* that is high opportunity and either is jobs rich or would enable shorter commute distances based on whether, in a regional analysis, the tract meets both of the following:

(i) The tract is high opportunity, meaning its characteristics are associated with positive educational and economic outcomes for households of all income levels residing in the tract.

(ii) The tract meets either of the following criteria:

(I) New housing sited in the tract would enable residents to live near more jobs than is typical for tracts in the region.

(II) New housing sited in the tract would enable shorter commute distances for residents, relative to existing commute patterns and jobs-housing fit.

(B) The Department of Housing and Community Development shall, commencing on January 1, ~~2022~~, 2023, publish and update, every five years thereafter, a map of the state showing the areas identified by the department as "jobs-rich areas." *The department shall begin with the most current version of the Department of Housing and Community Development and California Tax Credit Allocation Committee Opportunity Maps and update the methodology as it determines is appropriate to advance the goals of subparagraph (A).*

(3) "Transit-rich area" means a parcel within one-half mile of a major transit stop, as defined in Section 21064.3 of the Public Resources Code, or a parcel on a high-quality bus corridor.

(4) "Urban infill site" means a site that satisfies all of the following:

(A) A site that is a legal parcel or parcels located in a city if, and only if, the city boundaries include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau, or, for unincorporated areas, a legal parcel or parcels wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

(B) A site in which at least 75 percent of the perimeter of the site adjoins parcels that are developed with urban uses. For the purposes of this section, parcels that are only separated by a street or highway shall be considered to be adjoined.

(C) A site that is zoned for residential use or residential mixed-use development, or has a general plan designation that allows residential use or a mix of residential and nonresidential uses, with at least two-thirds of the square footage of the development designated for residential use.

(d) The Legislature finds and declares that ensuring the adequate production of affordable housing is a matter of statewide concern and is not a municipal affair as that term is used in Section 5 of Article XI of the California Constitution. Therefore, this section applies to all cities, including charter cities.

SENATE BILL NO. 12

Date Published: 12/07/2020 09:00 PM

CALIFORNIA LEGISLATURE— 2021–2022 REGULAR SESSION

SENATE BILL**NO. 12**

**Introduced by Senator McGuire
(Coauthors: Senators Atkins, Caballero, and Dodd)**

December 07, 2020

An act to amend Sections 65007, 65302, 65584, 65584.04, and 65584.06 of, and to add Sections 65011, 65012, 65013, 65040.18, 65302.11, 65860.2, 65865.6, 65962.3, and 66474.03 to, the Government Code, to amend Section 13132.7 of the Health and Safety Code, and to amend Section 4290 of, and to add Section 4123.6 to, the Public Resources Code, relating to local government.

LEGISLATIVE COUNSEL'S DIGEST

SB 12, as introduced, McGuire. Local government: planning and zoning: wildfires.

(1) The Planning and Zoning Law requires the legislative body of a city or county to adopt a comprehensive, long-term general plan that includes various elements, including, among others, a housing element and a safety element for the protection of the community from unreasonable risks associated with the effects of various geologic and seismic hazards, flooding, and wildland and urban fires. Existing law requires the housing element to be revised according to a specific schedule. Existing law requires the planning agency to review and, if necessary, revise the safety element upon each revision of the housing element or local hazard mitigation plan, but not less than once every 8 years to identify new information relating to flood and fire hazards and climate adaptation and resiliency strategies applicable to the city or county that was not available during the previous revision of the safety element.

Existing law requires that the Office of Planning and Research, among other things, coordinate with appropriate entities, including state, regional, or local agencies, to establish a clearinghouse for climate adaptation information for use by state, regional, and local entities, as provided.

This bill would require the safety element, upon the next revision of the housing element or the hazard mitigation plan, on or after July 1, 2024, whichever occurs first, to be reviewed and updated as necessary to include a comprehensive retrofit strategy to reduce the risk of property loss and damage during wildfires, as specified, and would require the planning agency to submit the adopted strategy to the Office of Planning and Research for inclusion into the above-described clearinghouse. The bill would also require the planning agency to review and, if necessary, revise the safety element upon each revision of the housing element or local hazard

mitigation plan, but not less than once every 8 years, to identify new information relating to retrofit updates applicable to the city or county that was not available during the previous revision of the safety element. By increasing the duties of local officials, this bill would create a state-mandated local program.

(2) Existing law requires the general plan to include a land use element that designates the proposed general distribution and general location and extent of the uses of the land for, among other purposes, housing, business, and industry. Existing law additionally requires the general plan to include a housing element and requires each local government to review and revise its housing element, as specified.

This bill would require a city or county that contains a very high fire risk area, as defined, upon each revision of the housing element on or after July 1, 2024, to amend the land use element of its general plan to contain, among other things, the locations of all very high fire risk areas within the city or county and feasible implementation measures designed to carry out specified goals, objectives, and policies relating to the protection of lives and property from unreasonable risk of wildfire. The bill would require the city or county to complete a review of, and make findings related to, wildfire risk reduction standards, as defined, upon each subsequent revision of the housing element, as provided. The bill would require the State Board of Forestry and Fire Protection to review the findings and make recommendations, as provided.

The bill would additionally require the Office of the State Fire Marshal, in consultation with the Office of Planning and Research and the Board of Forestry and Fire Protection, by January 1, 2023, to adopt wildfire risk reduction standards that meet certain requirements and reasonable standards for third-party inspection and certifications for a specified enforcement program. The bill would also require the Office of the State Fire Marshal to, by January 1, 2024, update the maps of the very high fire hazard severity zones, as specified. The bill would require the Office of the State Fire Marshal to convene a working group of stakeholders, as specified, to assist in this effort and to consider specified national standards.

Existing law requires county or city zoning ordinances to be consistent with the general plan of the county or city, as specified.

This bill would require a city or county that contains a very high fire risk area, within 12 months following the amendment of the city or county's land use element, to adopt a very high fire risk overlay zone or otherwise amend its zoning ordinance so that it is consistent with the general plan, as specified.

This bill would additionally prohibit the legislative body of a city or county that contains a very high fire risk area, upon the effective date of the revision of the city or county's land use element, from entering into a development agreement for property that is located within a very high fire risk area, approving specified discretionary permits or other discretionary entitlements for projects located within a very high fire risk area, or approving a tentative map or a parcel map for which a tentative map was not required for a subdivision that is located within a very high fire risk area, unless the city or county makes specified findings based on substantial evidence in the record.

By increasing the duties of local officials, this bill would impose a state-mandated local program.

(3) Existing law requires the Department of Housing and Community Development, in consultation with each council of governments, to determine each region's existing and projected housing need, as provided. Existing law requires each council of governments, or the department for cities and counties without a council of governments, to adopt a final regional housing need plan that allocates a share of the regional housing need to each city, county, or city and county and that furthers specified objectives.

This bill would require the regional housing needs allocation plan to additionally further the objective of reducing development pressure within very high fire risk areas.

(4) Existing law requires the council of governments, or delegate subregion, as applicable, to develop a proposed methodology for distributing the existing and projected regional housing need and, to the extent that sufficient data is available as provided, to include specified factors to develop the methodology that allocates regional housing needs, including, among other factors, the rate of overcrowding.

This bill would additionally require the council of governments, or delegate subregion, as applicable, to include within those factors for the seventh and subsequent revisions of the housing element, the amount of land in each member jurisdiction that is within a very high fire risk area by allocating a lower proportion of housing if the council of governments or delegate subregion determines, based on specified factors, that it is likely that the jurisdiction would otherwise need to identify lands within a very high fire risk area as adequate sites in order to meet its housing need allocation.

For cities and counties without a council of governments, existing law requires the Department of Housing and Community Development to determine and distribute the existing and projected housing need, unless that responsibility is delegated as provided to cities and counties, based upon available data and in consultation with the cities and counties, taking into consideration, among other things, the availability of suitable sites and public facilities.

This bill would also require the department, for the seventh and subsequent revisions of the housing element, to take into consideration the amount of land in each city and each county that is within a very high fire risk area, as defined, by allocating a lower proportion of housing if the department determines, based on specified factors, that it is likely that the jurisdiction would otherwise need to identify lands within a very high fire risk area as adequate sites in order to meet its housing need allocation.

By increasing the duties of local officials, this bill would impose a state-mandated local program.

(5) Existing law requires the Office of Planning and Research to implement various long-range planning and research policies and goals that are intended to, among other things, encourage the formation and proper functioning of local entities and, in connection with those responsibilities, to adopt guidelines for the preparation and content of the mandatory elements required in city and county general plans.

This bill would require the Office of Planning and Research, on or before January 1, 2023, in collaboration with cities and counties, to identify local ordinances, policies, and best practices relating to land use planning in very high fire risk areas, wildfire risk reduction, and wildfire preparedness and publish these resources on the above-described clearinghouse, as specified.

(6) Existing law requires, until the 2023–24 fiscal year, the amount of \$165,000,000 to be appropriated from the Greenhouse Gas Reduction Fund to the Department of Forestry and Fire Protection for healthy forest and fire prevention programs and projects that improve forest health and reduce greenhouse gas emissions caused by uncontrolled wildfires.

This bill would establish the Wildfire Risk Reduction Planning Support Grants Program, administered by the Department of Forestry and Fire Protection, for the purpose of providing small jurisdictions, as defined, containing very high fire hazard risk areas with grants for specified planning activities to enable those jurisdictions to meet the requirements set forth in the bill, as described above. Upon appropriation, the bill would require the department to distribute grant funds under the program via a noncompetitive, over-the-counter process, as provided, to small jurisdictions. The bill would require a recipient small jurisdiction to use the allocation solely for wildfire risk reduction planning activities, as specified. The bill would authorize the department to set aside up to 5% of any amount appropriated for these purposes for program administration.

(7) Existing law requires the State Board of Forestry and Fire Protection to adopt regulations implementing minimum fire safety standards that are applicable to lands classified and designated as very high fire hazard severity zones, and requires the regulations to apply to the perimeters and access to all residential, commercial, and industrial building construction within lands classified and designated as very high fire hazard severity zones, as defined, after July 1, 2021.

This bill would specify that the above-described regulations apply to the perimeters and access from the perimeters to all residential, commercial, and industrial building construction within lands classified and designated as very high fire hazard severity zones. The bill would also require the regulations to conform as nearly as practicable with specified existing regulations adopted by the State Fire Marshal.

(8) Existing law requires a common interest development within a very high fire severity zone to allow an owner to install or repair a roof with at least one type of fire retardant roof covering material that meets specified requirements.

This bill would require the one type of fire retardant roof covering material to additionally meet, at a minimum, class B standards, as specified in the International Building Code.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: yes

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 65007 of the Government Code is amended to read:

65007. As used in this title, Sections 65302.9, 65860.1, 65865.5, 65962, and 66474.5, the following terms have the following meanings, unless the context requires otherwise:

(a) "Adequate progress" means all of the following:

(1) The total project scope, schedule, and cost of the completed flood protection system have been developed to meet the appropriate standard of protection.

(2) (A) Revenues that are sufficient to fund each year of the project schedule developed in paragraph (1) have been identified and, in any given year and consistent with that schedule, at least 90 percent of the revenues scheduled to be received by that year have been appropriated and are currently being expended.

(B) Notwithstanding subparagraph (A), for any year in which state funding is not appropriated consistent with an agreement between a state agency and a local flood management agency, the Central Valley Flood Protection Board may find that the local flood management agency is making adequate progress in working toward the completion of the flood protection system.

(3) Critical features of the flood protection system are under construction, and each critical feature is progressing as indicated by the actual expenditure of the construction budget funds.

(4) The city or county has not been responsible for a significant delay in the completion of the system.

(5) The local flood management agency shall provide the Department of Water Resources and the Central Valley Flood Protection Board with the information specified in this subdivision sufficient to determine substantial completion of the required flood protection. The local flood management agency shall annually report to the Central Valley Flood Protection Board on the efforts in working toward completion of the flood protection system.

(b) "Central Valley Flood Protection Plan" has the same meaning as that set forth in Section 9612 of the Water Code.

(c) "Developed area" has the same meaning as that set forth in Section 59.1 of Title 44 of the Code of Federal Regulations.

(d) "Flood hazard zone" means an area subject to flooding that is delineated as either a special hazard area or an area of moderate hazard on an official flood insurance rate map issued by the Federal Emergency Management Agency (*FEMA*). The identification of flood hazard zones does not imply that areas outside the flood hazard zones, or uses permitted within flood hazard zones, will be free from flooding or flood damage.

(e) "National Federal Emergency Management Agency standard of flood protection" means the level of flood protection that is necessary to withstand flooding that has a 1-in-100 chance of occurring in any given year using criteria developed by the Federal Emergency Management Agency *FEMA* for application in the National Flood Insurance Program.

(f) "Nonurbanized area" means a developed area or an area outside a developed area in which there are fewer than 10,000 residents that is not an urbanizing area.

(g) "Project levee" means any levee that is part of the facilities of the State Plan of Flood Control.

(h) "Sacramento-San Joaquin Valley" means lands in the bed or along or near the banks of the Sacramento River or San Joaquin River, or their tributaries or connected therewith, or upon any land adjacent thereto, or within the overflow basins thereof, or upon land susceptible to overflow therefrom. The Sacramento-San Joaquin Valley does not include lands lying within the Tulare Lake basin, including the Kings River.

(i) "State Plan of Flood Control" has the same meaning as that set forth in subdivision (j) of Section 5096.805 of the Public Resources Code.

(j) "Tulare Lake basin" means the Tulare Lake Hydrologic Region as defined in the California Water Plan Update 2009, prepared by the Department of Water Resources pursuant to Chapter 1 (commencing with Section 10004) of Part 1.5 of Division 6 of the Water Code.

(k) "Undetermined risk area" means an urban or urbanizing area within a moderate flood hazard zone, as delineated on an official flood insurance rate map issued by ~~the Federal Emergency Management Agency; FEMA,~~ which has not been determined to have an urban level of protection.

(l) "Urban area" means a developed area in which there are 10,000 residents or more.

(m) "Urbanizing area" means a developed area or an area outside a developed area that is planned or anticipated to have 10,000 residents or more within the next 10 years.

(n) "Urban level of flood protection" means the level of protection that is necessary to withstand flooding that has a 1-in-200 chance of occurring in any given year using criteria consistent with, or developed by, the Department of Water Resources. "Urban level of flood protection" shall not mean shallow flooding or flooding from local drainage that meets the criteria of the national ~~Federal Emergency Management Agency FEMA~~ standard of flood protection.

(o) "Very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 2. Section 65011 is added to the Government Code, to read:

65011. For the purposes of Sections 65302.11, 65860.2, 65865.6, 65962.3, and 66474.03, unless the context requires otherwise, the following terms have the following meanings:

(a) "Adequate progress" means the city or county is taking concrete steps reasonably calculated to achieve funding and implementation of the applicable standard with the timeframe specified in subdivision (b) of Section 65012.

(b) "Very high fire risk area" means any lands located within a very high fire hazard severity zone, as designated pursuant to subdivisions (a) and (b) of Section 51179, or as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code.

SEC. 3. Section 65012 is added to the Government Code, to read:

65012. (a) For the purposes of Sections 65302.11, 65860.2, 65865.6 65962.3, and 66474.03, "wildfire risk reduction standard" means the following:

(1) For a development of any size:

(A) The regulations adopted by the State Board of Forestry and Fire Protection, the State Fire Marshal, and the California Building Standards Commission regarding defensible space, vegetation management, fuel modification, and materials and construction methods for exterior wildfire exposure, including, but not limited to, all of the following, or the successor provisions:

(i) Chapter 7A of the California Building Code.

(ii) Chapter 49 of the California Fire Code.

(iii) Section R337 of the California Residential Code.

(iv) Chapter 12-7A of the California Referenced Standards Code.

(v) Subchapter 2 (commencing with Section 1270) of Chapter 7 of Division 1.5 of Title 14 of the California Code of Regulations.

(vi) Article 3 (commencing with Section 1299.01) of Subchapter 3 of Chapter 7 of Division 1.5 of Title 14 of the California Code of Regulations.

(B) A wildland fire hazard assessment and wildfire hazard mitigation plan approved by the enforcing agency in accordance with standards adopted by the State Fire Marshal pursuant to Section 65013.

(C) An enforcement program established, funded, and implemented to verify ongoing compliance of the defensible space, vegetation management, and fuel modification requirements of the regulations described in subparagraph (A), and with any continuing obligations imposed under a fire protection plan or wildfire hazard mitigation plan established for the project. The enforcing agency may charge a fee sufficient to cover the costs of administering the program and providing any inspections conducted by the enforcing agency. The program shall ensure that compliance is documented for each affected property or structure at least once every three years.

Acceptable methods of compliance inspection and documentation shall be determined by the enforcing agency and may include any of the following:

(i) The local, state, or federal fire authority or designee authorized to enforce vegetation management requirements.

(ii) The enforcing agency.

(iii) Third-party inspection and certification authorized in accordance with the regulations adopted by the State Fire Marshal pursuant to Section 65013.

(D) The regulations relating to the organization and deployment of fire suppression operations, fire protection infrastructure, water supplies for fire fighting, and reducing ignition hazards from wildland fire adopted by the State Fire Marshal pursuant to Section 65013.

(2) For a development of nine units or more:

(A) All of the standards set forth in paragraph (1).

(B) A fire protection plan setting forth reasonable site-specific safety measures to ensure that the development as a whole is planned and constructed to resist the encroachment of uncontrolled fire. The fire protection plan may be combined with the wildfire hazard mitigation plan prepared for the development in accordance with subparagraph (B) of paragraph (1). The plan shall include, but not be limited to, all of the following:

(i) A development layout that reduces wildfire risk to the greatest extent practicable, through measures that may include, but are not limited to, clustering of structures in the lowest risk areas on the property, while still requiring all structures to be separated by a safe distance to avoid the spread of fires from structure to structure, the use of natural and manmade features as fire breaks, and the establishment of community protection fire breaks on the perimeter of the property.

(ii) Identification of a low-risk fire safety area where community members can evacuate to and wait until emergency service providers can reach them.

(iii) Mechanisms, including funding, to maintain common areas and open spaces within the development so that ground fuels do not promote the spread of wildfire and aerial fuels do not allow the spread of a fire through the tree canopy.

(C) A condition on the development that all parcels within the development containing structures are subject to an ongoing, permanent fee, tax, or assessment, an assessment through a homeowners' association, or a similar funding mechanism sufficient to ensure that defensible space and vegetation management maintenance is funded and occurs on a schedule so as to comply with subparagraph (C) of paragraph (1), and other requirements for maintaining defensible space and vegetation management under law, including, but not limited to, Section 4291 of the Public Resources Code.

(D) The development shall not be approved unless the city or county finds, based on substantial evidence in the record, that the development can be reasonably accessed and served in the case of a wildfire, with adequate ingress and egress, including, but not limited to, primary and secondary routes and capacity for evacuation and emergency response at the same time.

(3) For any development subject to this subdivision that includes 100 or more residential dwelling units:

(A) All of the standards set forth in paragraphs (1) and (2).

(B) Additional wildfire risk reduction standards adopted by the State Fire Marshal pursuant to clause (ii) of subparagraph (A) of paragraph (1) of subdivision (a) of Section 65013, or conditions imposed by the city or county that provide the same practical effect as the standards and are at least the equivalent of the standards in reducing the risk to life and property from catastrophic wildfire.

(b) For a period of five years following adoption of the zoning ordinance amendment pursuant to Section 65860.2, a development shall be deemed in compliance with the wildfire risk reduction standards set forth in subparagraphs (C) and (D) of paragraph (1) of subdivision (a) if the city or county finds, based on substantial evidence in the record, that the responsible state and local agencies have made adequate progress toward providing protection from wildfire risk to the level set forth in those standards, or wildfire protection standards adopted by the city or county that meet or exceed those standards.

(c) Nothing in this section shall be construed to limit the existing authority of the State Fire Marshal or any other public agency under any other law from adopting standards that are more protective of life and property from the risk of wildfire.

SEC. 4. Section 65013 is added to the Government Code, to read:

65013. (a) By January 1, 2023, the Office of the State Fire Marshal, in consultation with the Office of Planning and Research and the State Board of Forestry and Fire Protection, shall do all of the following:

(1) Adopt wildfire risk reduction standards that meet all of the following requirements:

(A) (i) Account for differences in the size of proposed developments, consistent with the categories set forth in Section 65012.

(ii) When adopting standards for developments that include 100 or more residential dwelling units, the Office of the State Fire Marshal shall incorporate all applicable recommendations included in the Office of Planning and Research's most recent publication of "Fire Hazard Planning-General Plan Technical Advice Series."

(B) Include standards for organization and development of fire suppression operations, fire protection infrastructure, water supplies for fire fighting, and reducing structure ignition hazards from wildland fire.

(C) Include any additional requirements for fire hardening or similar building standards applicable to structures located in areas without a secondary egress route that are identified in accordance with subdivision (a) of Section 4290.5 of the Public Resources Code.

(D) Establish community-scale risk reduction measures, including, but not limited to, both of the following:

(i) Community design and layout.

(ii) Location and construction of infrastructure to reduce ignition potential and ensure availability of water supplies essential for fire suppression during a wildfire.

(E) Are designed to reduce the risk of catastrophic loss due to wildfire based upon a risk model that uses current wildfire hazard severity information known for the very high fire risk areas. The Office of the State Fire Marshal shall utilize a risk model that meets both of the following requirements:

(i) The risk model is able to quantify the risk for a community or parcel in a very high fire risk area through the input of mitigating factors into the model.

(ii) The model uses the best available science and objective scientific methodologies.

(F) Are directly applicable to, and account for, California's climate, weather, topography, and development patterns.

(2) Adopt standards for third-party inspection and certification conducted pursuant to subparagraph (C) of paragraph (1) of subdivision (a) of Section 65012.

(b) (1) By January 1, 2024, the Office of the State Fire Marshal shall update the maps of the very high fire hazard severity zones pursuant to Section 51178.

(2) In updating the maps pursuant to subparagraph (A), the State Fire Marshal shall identify areas within very high fire hazard severity zones where new residential development poses exceptional risk to future occupants of the development and to fire personnel and other public safety personnel that must access the development during a wildfire.

(c) Standards adopted pursuant to this section, regulations and rules of general applicability adopted pursuant to Section 65012, and regulations and rules of general applicability adopted by state or local agencies as necessary to implement those standards, shall be reasonable, and shall be feasible and achievable for the majority of developments in each category set forth in subdivision (a) of Section 65012.

(d) In developing the standards required by this section, the Office of the State Fire Marshal shall do both of the following:

(1) Convene a working group of stakeholders, including representatives of urban, suburban, and rural counties and cities to assist in this effort.

(2) Consider national standards, including, but not limited to, the following:

(A) The ICC International Wildland-Urban Interface Code.

(B) NFPA 1141: Standard for Fire Protection Infrastructure for Land Development and Wildland, Rural, and Suburban Areas.

(C) NFPA 1142: Standard on Water Supplies for Suburban and Rural Fire Fighting.

(D) NFPA 1144: Standard for Reducing Structure Ignition Hazards from Wildland Fire.

(E) NFPA 1720: Standards for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations and Special Operations, to the Public by Volunteer Fire Departments.

(e) The Office of the State Fire Marshal may incorporate some or all of the wildfire risk reduction standards adopted pursuant to this section into the building standards developed pursuant to Section 13108.5 of the Health and Safety Code or the regulations adopted pursuant to Section 4290 of the Public Resources Code.

(f) Standards adopted pursuant to this section shall be adopted pursuant to the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2).

(g) Nothing in this section shall be construed to limit the existing authority of the State Fire Marshal or any other state or local public agency under any other law from adopting standards that are more protective of life and property from the risk of wildfire.

(h) "Very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 5. Section 65040.18 is added to the Government Code, to read:

65040.18. By January 1, 2023, the Office of Planning and Research, in collaboration with cities and counties, shall identify local ordinances, policies, and best practices relating to land use planning in very high fire risk areas, wildfire risk reduction, and wildfire preparedness and publish these resources on the clearinghouse established pursuant to Section 71360 of the Public Resources Code. The office shall include in the clearinghouse any comprehensive retrofit strategies submitted pursuant to subparagraph (E) of paragraph (6) of subdivision (g) of Section 65302. The office shall regularly update the clearinghouse materials made available pursuant to this section. For purposes of this section, "very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 6. Section 65302 of the Government Code, as amended by Section 169 of Chapter 370 of the Statutes of 2020, is amended to read:

65302. The general plan shall consist of a statement of development policies and shall include a diagram or diagrams and text setting forth objectives, principles, standards, and plan proposals. The plan shall include the following elements:

(a) A land use element that designates the proposed general distribution and general location and extent of the uses of the land for housing, business, industry, open space, including agriculture, natural resources, recreation, and enjoyment of scenic beauty, education, public buildings and grounds, solid and liquid waste disposal facilities, greenways, as defined in Section 816.52 of the Civil Code, and other categories of public and private uses of land. The location and designation of the extent of the uses of the land for public and private uses shall consider the identification of land and natural resources pursuant to paragraph (3) of subdivision (d). The land use element shall include a statement of the standards of population density and building intensity recommended for the various districts and other territory covered by the plan. The land use element shall identify and annually review those areas covered by the plan that are subject to flooding identified by flood plain mapping prepared by the Federal Emergency Management Agency (FEMA) or the Department of Water Resources. The land use element shall also do both of the following:

(1) Designate in a land use category that provides for timber production those parcels of real property zoned for timberland production pursuant to the California Timberland Productivity Act of 1982 (Chapter 6.7 (commencing with Section 51100) of Part 1 of Division 1 of Title 5).

(2) Consider the impact of new growth on military readiness activities carried out on military bases, installations, and operating and training areas, when proposing zoning ordinances or designating land uses covered by the

general plan for land, or other territory adjacent to military facilities, or underlying designated military aviation routes and airspace.

(A) In determining the impact of new growth on military readiness activities, information provided by military facilities shall be considered. Cities and counties shall address military impacts based on information from the military and other sources.

(B) The following definitions govern this paragraph:

(i) "Military readiness activities" mean all of the following:

(I) Training, support, and operations that prepare the members of the military for combat.

(II) Operation, maintenance, and security of any military installation.

(III) Testing of military equipment, vehicles, weapons, and sensors for proper operation or suitability for combat use.

(ii) "Military installation" means a base, camp, post, station, yard, center, homeport facility for any ship, or other activity under the jurisdiction of the United States Department of Defense as defined in paragraph (1) of subsection (g) of Section 2687 of Title 10 of the United States Code.

(b) (1) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, any military airports and ports, and other local public utilities and facilities, all correlated with the land use element of the plan.

(2) (A) Commencing January 1, 2011, upon any substantive revision of the circulation element, the legislative body shall modify the circulation element to plan for a balanced, multimodal transportation network that meets the needs of all users of streets, roads, and highways for safe and convenient travel in a manner that is suitable to the rural, suburban, or urban context of the general plan.

(B) For purposes of this paragraph, "users of streets, roads, and highways" mean bicyclists, children, persons with disabilities, motorists, movers of commercial goods, pedestrians, users of public transportation, and seniors.

(c) A housing element as provided in Article 10.6 (commencing with Section 65580).

(d) (1) A conservation element for the conservation, development, and utilization of natural resources, including water and its hydraulic force, forests, soils, rivers and other waters, harbors, fisheries, wildlife, minerals, and other natural resources. The conservation element shall consider the effect of development within the jurisdiction, as described in the land use element, on natural resources located on public lands, including military installations. That portion of the conservation element including waters shall be developed in coordination with any countywide water agency and with all district and city agencies, including flood management, water conservation, or groundwater agencies that have developed, served, controlled, managed, or conserved water of any type for any purpose in the county or city for which the plan is prepared. Coordination shall include the discussion and evaluation of any water supply and demand information described in Section 65352.5, if that information has been submitted by the water agency to the city or county.

(2) The conservation element may also cover all of the following:

(A) The reclamation of land and waters.

(B) Prevention and control of the pollution of streams and other waters.

(C) Regulation of the use of land in stream channels and other areas required for the accomplishment of the conservation plan.

(D) Prevention, control, and correction of the erosion of soils, beaches, and shores.

(E) Protection of watersheds.

(F) The location, quantity, and quality of the rock, sand, and gravel resources.

(3) Upon the next revision of the housing element on or after January 1, 2009, the conservation element shall identify rivers, creeks, streams, flood corridors, riparian habitats, and land that may accommodate floodwater for purposes of groundwater recharge and stormwater management.

(e) An open-space element as provided in Article 10.5 (commencing with Section 65560).

(f) (1) A noise element that shall identify and appraise noise problems in the community. The noise element shall analyze and quantify, to the extent practicable, as determined by the legislative body, current and projected noise levels for all of the following sources:

(A) Highways and freeways.

(B) Primary arterials and major local streets.

(C) Passenger and freight online railroad operations and ground rapid transit systems.

(D) Commercial, general aviation, heliport, helistop, and military airport operations, aircraft overflights, jet engine test stands, and all other ground facilities and maintenance functions related to airport operation.

(E) Local industrial plants, including, but not limited to, railroad classification yards.

(F) Other ground stationary noise sources, including, but not limited to, military installations, identified by local agencies as contributing to the community noise environment.

(2) Noise contours shall be shown for all of these sources and stated in terms of community noise equivalent level (CNEL) or day-night average sound level (Ldn). The noise contours shall be prepared on the basis of noise monitoring or following generally accepted noise modeling techniques for the various sources identified in paragraphs (1) to (6), inclusive: *subparagraphs (A) to (F), inclusive, of paragraph (1).*

(3) The noise contours shall be used as a guide for establishing a pattern of land uses in the land use element that minimizes the exposure of community residents to excessive noise.

(4) The noise element shall include implementation measures and possible solutions that address existing and foreseeable noise problems, if any. The adopted noise element shall serve as a guideline for compliance with the state's noise insulation standards.

(g) (1) A safety element for the protection of the community from any unreasonable risks associated with the effects of seismically induced surface rupture, ground shaking, ground failure, tsunami, seiche, and dam failure; slope instability leading to mudslides and landslides; subsidence; liquefaction; and other seismic hazards identified pursuant to Chapter 7.8 (commencing with Section 2690) of Division 2 of the Public Resources Code, and other geologic hazards known to the legislative body; flooding; and wildland and urban fires. The safety element shall include mapping of known seismic and other geologic hazards. It shall also address evacuation routes, military installations, peakload water supply requirements, and minimum road widths and clearances around structures, as those items relate to identified fire and geologic hazards.

(2) The safety element, upon the next revision of the housing element on or after January 1, 2009, shall also do the following:

(A) Identify information regarding flood hazards, including, but not limited to, the following:

(i) Flood hazard zones. As used in this subdivision, "flood hazard zone" means an area subject to flooding that is delineated as either a special hazard area or an area of moderate or minimal hazard on an official flood insurance rate map issued by FEMA. The identification of a flood hazard zone does not imply that areas outside the flood hazard zones or uses permitted within flood hazard zones will be free from flooding or flood damage.

(ii) National Flood Insurance Program maps published by FEMA.

(iii) Information about flood hazards that is available from the United States Army Corps of Engineers.

(iv) Designated floodway maps that are available from the Central Valley Flood Protection Board.

(v) Dam failure inundation maps prepared pursuant to Section 6161 of the Water Code that are available from the Department of Water Resources.

(vi) Awareness Floodplain Mapping Program maps and 200-year flood plain maps that are or may be available from, or accepted by, the Department of Water Resources.

(vii) Maps of levee protection zones.

(viii) Areas subject to inundation in the event of the failure of project or nonproject levees or floodwalls.

(ix) Historical data on flooding, including locally prepared maps of areas that are subject to flooding, areas that are vulnerable to flooding after wildfires, and sites that have been repeatedly damaged by flooding.

(x) Existing and planned development in flood hazard zones, including structures, roads, utilities, and essential public facilities.

(xi) Local, state, and federal agencies with responsibility for flood protection, including special districts and local offices of emergency services.

(B) Establish a set of comprehensive goals, policies, and objectives based on the information identified pursuant to subparagraph (A), for the protection of the community from the unreasonable risks of flooding, including, but not limited to:

(i) Avoiding or minimizing the risks of flooding to new development.

(ii) Evaluating whether new development should be located in flood hazard zones, and identifying construction methods or other methods to minimize damage if new development is located in flood hazard zones.

(iii) Maintaining the structural and operational integrity of essential public facilities during flooding.

(iv) Locating, when feasible, new essential public facilities outside of flood hazard zones, including hospitals and health care facilities, emergency shelters, fire stations, emergency command centers, and emergency communications facilities or identifying construction methods or other methods to minimize damage if these facilities are located in flood hazard zones.

(v) Establishing cooperative working relationships among public agencies with responsibility for flood protection.

(C) Establish a set of feasible implementation measures designed to carry out the goals, policies, and objectives established pursuant to subparagraph (B).

(3) Upon the next revision of the housing element on or after January 1, 2014, the safety element shall be reviewed and updated as necessary to address the risk of fire for land classified as state responsibility areas, as defined in Section 4102 of the Public Resources Code, and land classified as very high fire hazard severity zones, as defined in Section 51177. This review shall consider the advice included in the Office of Planning and Research's most recent publication of "Fire Hazard Planning, General Plan Technical Advice Series" and shall also include all of the following:

(A) Information regarding fire hazards, including, but not limited to, all of the following:

(i) Fire hazard severity zone maps available from the Department of Forestry and Fire Protection.

(ii) Any historical data on wildfires available from local agencies or a reference to where the data can be found.

(iii) Information about wildfire hazard areas that may be available from the United States Geological Survey.

(iv) General location and distribution of existing and planned uses of land in very high fire hazard severity zones and in state responsibility areas, including structures, roads, utilities, and essential public facilities. The location and distribution of planned uses of land shall not require defensible space compliance measures required by state law or local ordinance to occur on publicly owned lands or open space designations of homeowner associations.

(v) Local, state, and federal agencies with responsibility for fire protection, including special districts and local offices of emergency services.

(B) A set of goals, policies, and objectives based on the information identified pursuant to subparagraph (A) for the protection of the community from the unreasonable risk of wildfire.

(C) A set of feasible implementation measures designed to carry out the goals, policies, and objectives based on the information identified pursuant to subparagraph (B) including, but not limited to, all of the following:

(i) Avoiding or minimizing the wildfire hazards associated with new uses of land.

(ii) Locating, when feasible, new essential public facilities outside of high fire risk areas, including, but not limited to, hospitals and health care facilities, emergency shelters, emergency command centers, and emergency communications facilities, or identifying construction methods or other methods to minimize damage if these facilities are located in a state responsibility area or very high fire hazard severity zone.

(iii) Designing adequate infrastructure if a new development is located in a state responsibility area or in a very high fire hazard severity zone, including safe access for emergency response vehicles, visible street signs, and water supplies for structural fire suppression.

(iv) Working cooperatively with public agencies with responsibility for fire protection.

(D) If a city or county has adopted a fire safety plan or document separate from the general plan, an attachment of, or reference to, a city or county's adopted fire safety plan or document that fulfills commensurate goals and objectives and contains information required pursuant to this paragraph.

(4) Upon the next revision of a local hazard mitigation plan, adopted in accordance with the federal Disaster Mitigation Act of 2000 (Public Law 106-390), on or after January 1, 2017, or, if a local jurisdiction has not adopted a local hazard mitigation plan, beginning on or before January 1, 2022, the safety element shall be reviewed and updated as necessary to address climate adaptation and resiliency strategies applicable to the city or county. This review shall consider advice provided in the Office of Planning and Research's General Plan Guidelines and shall include all of the following:

(A) (i) A vulnerability assessment that identifies the risks that climate change poses to the local jurisdiction and the geographic areas at risk from climate change impacts, including, but not limited to, an assessment of how climate change may affect the risks addressed pursuant to paragraphs (2) and (3).

(ii) Information that may be available from federal, state, regional, and local agencies that will assist in developing the vulnerability assessment and the adaptation policies and strategies required pursuant to subparagraph (B), including, but not limited to, all of the following:

(I) Information from the internet-based Cal-Adapt tool.

(II) Information from the most recent version of the California Adaptation Planning Guide.

(III) Information from local agencies on the types of assets, resources, and populations that will be sensitive to various climate change exposures.

(IV) Information from local agencies on their current ability to deal with the impacts of climate change.

(V) Historical data on natural events and hazards, including locally prepared maps of areas subject to previous risk, areas that are vulnerable, and sites that have been repeatedly damaged.

(VI) Existing and planned development in identified at-risk areas, including structures, roads, utilities, and essential public facilities.

(VII) Federal, state, regional, and local agencies with responsibility for the protection of public health and safety and the environment, including special districts and local offices of emergency services.

(B) A set of adaptation and resilience goals, policies, and objectives based on the information specified in subparagraph (A) for the protection of the community.

(C) A set of feasible implementation measures designed to carry out the goals, policies, and objectives identified pursuant to subparagraph (B) including, but not limited to, all of the following:

(i) Feasible methods to avoid or minimize climate change impacts associated with new uses of land.

(ii) The location, when feasible, of new essential public facilities outside of at-risk areas, including, but not limited to, hospitals and health care facilities, emergency shelters, emergency command centers, and emergency communications facilities, or identifying construction methods or other methods to minimize damage if these facilities are located in at-risk areas.

(iii) The designation of adequate and feasible infrastructure located in an at-risk area.

(iv) Guidelines for working cooperatively with relevant local, regional, state, and federal agencies.

(v) The identification of natural infrastructure that may be used in adaptation projects, where feasible. Where feasible, the plan shall use existing natural features and ecosystem processes, or the restoration of natural features and ecosystem processes, when developing alternatives for consideration. For purposes of this clause, "natural infrastructure" means using natural ecological systems or processes to reduce vulnerability to climate change related hazards, or other related climate change effects, while increasing the long-term adaptive capacity of coastal and inland areas by perpetuating or restoring ecosystem services. This includes, but is not limited to,

the conservation, preservation, or sustainable management of any form of aquatic or terrestrial vegetated open space, such as beaches, dunes, tidal marshes, reefs, seagrass, parks, rain gardens, and urban tree canopies. It also includes systems and practices that use or mimic natural processes, such as permeable pavements, bioswales, and other engineered systems, such as levees that are combined with restored natural systems, to provide clean water, conserve ecosystem values and functions, and provide a wide array of benefits to people and wildlife.

(D) (i) If a city or county has adopted the local hazard mitigation plan, or other climate adaptation plan or document that fulfills commensurate goals and objectives and contains the information required pursuant to this paragraph, separate from the general plan, an attachment of, or reference to, the local hazard mitigation plan or other climate adaptation plan or document.

(ii) Cities or counties that have an adopted hazard mitigation plan, or other climate adaptation plan or document that substantially complies with this section, or have substantially equivalent provisions to this subdivision in their general plans, may use that information in the safety element to comply with this subdivision, and shall summarize and incorporate by reference into the safety element the other general plan provisions, climate adaptation plan or document, specifically showing how each requirement of this subdivision has been met.

(5) Upon the next revision of the housing element on or after January 1, 2020, the safety element shall be reviewed and updated as necessary to identify residential developments in any hazard area identified in the safety element that do not have at least two emergency evacuation routes.

(6) Upon the next revision of the housing element or the hazard mitigation plan, after July 1, 2024, whichever occurs first, the safety element shall be reviewed and updated as necessary to include a comprehensive retrofit strategy to reduce the risk of property loss and damage during wildfires. The comprehensive retrofit strategy shall include, but is not limited to, all of the following:

(A) A list of the types of retrofits needed in an area based on fire risk.

(B) A process for identifying and inventorying structures in need of retrofit for fire hardening. The strategy shall prioritize the identification and inventorying of residential structures in very high fire risk areas.

(C) Goals and milestones for completing needed retrofit work.

(D) Potential funding sources and financing strategies to pay for needed retrofits on public and private property.

(E) Once adopted, the planning agency shall submit the adopted comprehensive retrofit strategy to the Office of Planning and Research for inclusion in the clearinghouse established pursuant to Section 71360 of the Public Resources Code.

~~(6)~~

(7) After the initial revision of the safety element pursuant to paragraphs (2), (3), (4), ~~and (5)~~, (5), and (6), the planning agency shall review and, if necessary, revise the safety element upon each revision of the housing element or local hazard mitigation plan, but not less than once every eight years, to identify new information relating to flood and fire ~~hazards and hazards~~, climate adaptation and resiliency ~~strategies strategies, and retrofit updates~~ applicable to the city or county that was not available during the previous revision of the safety element.

~~(7)~~

(8) Cities and counties that have flood plain management ordinances that have been approved by FEMA that substantially comply with this section, or have substantially equivalent provisions to this subdivision in their general plans, may use that information in the safety element to comply with this subdivision, and shall summarize and incorporate by reference into the safety element the other general plan provisions or the flood plain ordinance, specifically showing how each requirement of this subdivision has been met.

~~(8)~~

(9) Before the periodic review of its general plan and before preparing or revising its safety element, each city and county shall consult the California Geological Survey of the Department of Conservation, the Central Valley Flood Protection Board, if the city or county is located within the boundaries of the Sacramento and San Joaquin Drainage District, as set forth in Section 8501 of the Water Code, and the Office of Emergency Services for the purpose of including information known by and available to the department, the agency, and the board required by this subdivision.

(9)

(10) To the extent that a county's safety element is sufficiently detailed and contains appropriate policies and programs for adoption by a city, a city may adopt that portion of the county's safety element that pertains to the city's planning area in satisfaction of the requirement imposed by this subdivision.

(h) (1) An environmental justice element, or related goals, policies, and objectives integrated in other elements, that identifies disadvantaged communities within the area covered by the general plan of the city, county, or city and county, if the city, county, or city and county has a disadvantaged community. The environmental justice element, or related environmental justice goals, policies, and objectives integrated in other elements, shall do all of the following:

(A) Identify objectives and policies to reduce the unique or compounded health risks in disadvantaged communities by means that include, but are not limited to, the reduction of pollution exposure, including the improvement of air quality, and the promotion of public facilities, food access, safe and sanitary homes, and physical activity.

(B) Identify objectives and policies to promote civic engagement in the public decisionmaking process.

(C) Identify objectives and policies that prioritize improvements and programs that address the needs of disadvantaged communities.

(2) A city, county, or city and county subject to this subdivision shall adopt or review the environmental justice element, or the environmental justice goals, policies, and objectives in other elements, upon the adoption or next revision of two or more elements concurrently on or after January 1, 2018.

(3) By adding this subdivision, the Legislature does not intend to require a city, county, or city and county to take any action prohibited by the United States Constitution or the California Constitution.

(4) For purposes of this subdivision, the following terms shall apply:

(A) "Disadvantaged communities" means an area identified by the California Environmental Protection Agency pursuant to Section 39711 of the Health and Safety Code or an area that is a low-income area that is disproportionately affected by environmental pollution and other hazards that can lead to negative health effects, exposure, or environmental degradation.

(B) "Public facilities" includes public improvements, public services, and community amenities, as defined in subdivision (d) of Section 66000.

(C) "Low-income area" means an area with household incomes at or below 80 percent of the statewide median income or with household incomes at or below the threshold designated as low income by the Department of Housing and Community Development's list of state income limits adopted pursuant to Section 50093 of the Health and Safety Code.

SEC. 7. Section 65302.11 is added to the Government Code, to read:

65302.11. (a) Upon each revision of the housing element on or after July 1, 2024, each city or county that contains a very high fire risk area shall amend the land use element of its general plan to contain all of the following with respect to lands located within a very high fire risk area:

(1) (A) The goals contained in the most recent Strategic Fire Plan for California prepared by the Department of Forestry and Fire Protection.

(B) The locations of all very high fire risk areas within the city or county.

(C) The data and analysis described in the Office of Planning and Research's most recent publication of "Fire Hazard Planning—General Plan Technical Advice Series."

(D) The goals of any local hazard mitigation plan, community wildfire protection plan, and climate adaptation plan that has been adopted by the governing body of the city or county.

(2) Objectives and policies, based on the goals, data, and analysis identified pursuant to paragraph (1), for the protection of lives and property from unreasonable risk of wildfire. These objectives and policies shall take into consideration, and be consistent with, the information, goals, policies, objectives, and implementation measures included in the safety element in accordance with paragraph (3) of subdivision (g) of Section 65302.

(3) Feasible implementation measures designed to carry out the goals, objectives, and policies established pursuant to this subdivision.

(b) (1) After the initial amendment of the land use element pursuant to subdivision (a), the governing body of the city or county shall review all of the following upon each subsequent revision of the housing element, but not less than once every eight years:

(A) The implementation of the wildfire risk reduction standards, as defined in Section 65012, within the jurisdiction. The governing body shall make written findings, based upon substantial evidence, regarding whether the city or county has implemented the wildfire risk reduction standards during the preceding planning period, or made adequate progress toward implementing the wildfire risk reduction standards as provided in subdivision (b) of Section 65012.

(B) The designation of lands within the jurisdiction as very high fire hazard severity zones pursuant to subdivision (b) of Section 51179. The governing body shall make written findings, based upon substantial evidence, supporting the determinations made in accordance with that subdivision.

(2) The draft findings required under this subdivision shall be submitted to the State Board of Forestry and Fire Protection and to every local agency that provides fire protection to territory in the city or county at least 90 days prior to adoption by the governing body.

(A) The State Board of Forestry and Fire Protection shall, and a local agency may, review the draft findings and recommend changes to the city or county within 60 days of its receipt regarding both of the following:

(i) Whether the city or county has implemented the wildfire risk reduction standards during the preceding planning period, or made adequate progress toward implementing the wildfire risk reduction standards as provided in subdivision (b) of Section 65012.

(ii) Whether the designation of lands within the jurisdiction as very high fire hazard severity zones is appropriate.

(B) (i) Prior to the adoption of its draft findings, the governing body shall consider the recommendations, if any, made by the State Board of Forestry and Fire Protection and any local agency that provides fire protection to territory in the city or county. If the governing body determines not to accept all or some of the recommendations, if any, made by the State Board of Forestry and Fire Protection or the local agency, the governing body shall communicate in writing to the State Board of Forestry and Fire Protection or the local agency, its reasons for not accepting the recommendations.

(ii) If the governing body proposes not to adopt the State Board of Forestry and Fire Protection's recommendations concerning its draft findings, the State Board of Forestry and Fire Protection, within 15 days of receipt of the governing body's written response, may request in writing a consultation with the governing body to discuss the State Board of Forestry and Fire Protection's recommendations and the governing body's response. The consultation may be conducted in person, electronically, or telephonically. If the State Board of Forestry and Fire Protection requests a consultation pursuant to this subparagraph, the governing body shall not approve the draft element or draft amendment until after consulting with the State Board of Forestry and Fire Protection. The consultation shall occur within 30 days after the State Board of Forestry and Fire Protection's request.

(C) The State Board of Forestry and Fire Protection shall notify the city or county and may notify the Office of the Attorney General that the city or county is in violation of state law if the State Board of Forestry and Fire Protection finds that the written findings do not substantially comply with this section, or that the city or county has otherwise failed to substantially comply with this section or with Section 65860.2.

(3) Any interested person may bring an action to compel compliance with the requirements of this subdivision. The action shall be brought pursuant to Section 1085 of the Code of Civil Procedure.

(c) For purposes of this section, "very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 8. Section 65584 of the Government Code is amended to read:

65584. (a) (1) For the fourth and subsequent revisions of the housing element pursuant to Section 65588, the department shall determine the existing and projected need for housing for each region pursuant to this article. For purposes of subdivision (a) of Section 65583, the share of a city or county of the regional housing need shall include that share of the housing need of persons at all income levels within the area significantly affected by the general plan of the city or county.

(2) It is the intent of the Legislature that cities, counties, and cities and counties should undertake all necessary actions to encourage, promote, and facilitate the development of housing to accommodate the entire regional housing need, and reasonable actions should be taken by local and regional governments to ensure that future housing production meets, at a minimum, the regional housing need established for planning purposes. These actions shall include applicable reforms and incentives in Section 65582.1.

(3) The Legislature finds and declares that insufficient housing in job centers hinders the state's environmental quality and runs counter to the state's environmental goals. In particular, when Californians seeking affordable housing are forced to drive longer distances to work, an increased amount of greenhouse gases and other pollutants is released and puts in jeopardy the achievement of the state's climate goals, as established pursuant to Section 38566 of the Health and Safety Code, and clean air goals.

(b) The department, in consultation with each council of governments, shall determine each region's existing and projected housing need pursuant to Section 65584.01 at least two years prior to the scheduled revision required pursuant to Section 65588. The appropriate council of governments, or for cities and counties without a council of governments, the department, shall adopt a final regional housing need plan that allocates a share of the regional housing need to each city, county, or city and county at least one year prior to the scheduled revision for the region required by Section 65588. The allocation plan prepared by a council of governments shall be prepared pursuant to Sections 65584.04 and 65584.05.

(c) Notwithstanding any other provision of law, the due dates for the determinations of the department or for the council of governments, respectively, regarding the regional housing need may be extended by the department by not more than 60 days if the extension will enable access to more recent critical population or housing data from a pending or recent release of the United States Census Bureau or the Department of Finance. If the due date for the determination of the department or the council of governments is extended for this reason, the department shall extend the corresponding housing element revision deadline pursuant to Section 65588 by not more than 60 days.

(d) The regional housing needs allocation plan shall further all of the following objectives:

(1) Increasing the housing supply and the mix of housing types, tenure, and affordability in all cities and counties within the region in an equitable manner, which shall result in each jurisdiction receiving an allocation of units for low- and very low income households.

(2) Promoting infill development and socioeconomic equity, the protection of environmental and agricultural resources, the encouragement of efficient development patterns, and the achievement of the region's greenhouse gas reductions targets provided by the State Air Resources Board pursuant to Section 65080.

(3) Promoting an improved intraregional relationship between jobs and housing, including an improved balance between the number of low-wage jobs and the number of housing units affordable to low-wage workers in each jurisdiction.

(4) Allocating a lower proportion of housing need to an income category when a jurisdiction already has a disproportionately high share of households in that income category, as compared to the countywide distribution of households in that category from the most recent American Community Survey.

(5) Affirmatively furthering fair housing.

(6) *Promoting resilient communities. Furthering this objective shall include reducing development pressure within very high fire risk areas. This paragraph shall apply only to the regional housing needs allocation plan for the seventh and subsequent revisions of the housing element.*

(e) For purposes of this section, "affirmatively furthering fair housing" means taking meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. Specifically, affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws.

(f) For purposes of this section, "household income levels" are as determined by the department as of the most recent American Community Survey pursuant to the following code sections:

(1) Very low incomes incomes, as defined by Section 50105 of the Health and Safety Code.

- (2) Lower incomes, as defined by Section 50079.5 of the Health and Safety Code.
- (3) Moderate incomes, as defined by Section 50093 of the Health and Safety Code.
- (4) Above moderate incomes are those exceeding the moderate-income level of Section 50093 of the Health and Safety Code.
- (g) Notwithstanding any other provision of law, determinations made by the department, a council of governments, or a city or county pursuant to this section or Section 65584.01, 65584.02, 65584.03, 65584.04, 65584.05, 65584.06, 65584.07, or 65584.08 are exempt from the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

SEC. 9. Section 65584.04 of the Government Code is amended to read:

65584.04. (a) At least two years ~~before~~ *prior to* a scheduled revision required by Section 65588, each council of governments, or delegate subregion as applicable, shall develop, in consultation with the department, a proposed methodology for distributing the existing and projected regional housing need to cities, counties, and cities and counties within the region or within the subregion, where applicable pursuant to this section. The methodology shall further the objectives listed in subdivision (d) of Section 65584.

(b) (1) No more than six months before the development of a proposed methodology for distributing the existing and projected housing need, each council of governments shall survey each of its member jurisdictions to request, at a minimum, information regarding the factors listed in subdivision (e) that will allow the development of a methodology based upon the factors established in subdivision (e).

(2) With respect to the objective in paragraph (5) of subdivision (d) of Section 65584, the survey shall review and compile information that will allow the development of a methodology based upon the issues, strategies, and actions that are included, as available, in an Analysis of Impediments to Fair Housing Choice or an Assessment of Fair Housing completed by any city or county or the department that covers communities within the area served by the council of governments, and in housing elements adopted pursuant to this article by cities and counties within the area served by the council of governments.

(3) The council of governments shall seek to obtain the information in a manner and format that is comparable throughout the region and utilize readily available data to the extent possible.

(4) The information provided by a local government pursuant to this section shall be used, to the extent possible, by the council of governments, or delegate subregion as applicable, as source information for the methodology developed pursuant to this section. The survey shall state that none of the information received may be used as a basis for reducing the total housing need established for the region pursuant to Section 65584.01.

(5) If the council of governments fails to conduct a survey pursuant to this subdivision, a city, county, or city and county may submit information related to the items listed in subdivision (e) before the public comment period provided for in subdivision (d).

(c) The council of governments shall electronically report the results of the survey of fair housing issues, strategies, and actions compiled pursuant to paragraph (2) of subdivision (b). The report shall describe common themes and effective strategies employed by cities and counties within the area served by the council of governments, including common themes and effective strategies around avoiding the displacement of lower income households. The council of governments shall also identify significant barriers to affirmatively furthering fair housing at the regional level and may recommend strategies or actions to overcome those barriers. A council of governments or metropolitan planning organization, as appropriate, may use this information for any other purpose, including publication within a regional transportation plan adopted pursuant to Section 65080 or to inform the land use assumptions that are applied in the development of a regional transportation plan.

(d) Public participation and access shall be required in the development of the methodology and in the process of drafting and adoption of the allocation of the regional housing needs. Participation by organizations other than local jurisdictions and councils of governments shall be solicited in a diligent effort to achieve public participation of all economic segments of the community as well as members of protected classes under Section 12955. The proposed methodology, along with any relevant underlying data and assumptions, an explanation of how information about local government conditions gathered pursuant to subdivision (b) has been used to develop the proposed methodology, how each of the factors listed in subdivision (e) is incorporated into the methodology, and how the proposed methodology furthers the objectives listed in subdivision (e) of Section 65584, shall be

distributed to all cities, counties, any subregions, and members of the public who have made a written or electronic request for the proposed methodology and published on the council of governments', or delegate subregion's, internet website. The council of governments, or delegate subregion, as applicable, shall conduct at least one public hearing to receive oral and written comments on the proposed methodology.

(e) To the extent that sufficient data is available from local governments pursuant to subdivision (b) or other sources, each council of governments, or delegate subregion as applicable, shall include the following factors to develop the methodology that allocates regional housing needs:

(1) Each member jurisdiction's existing and projected jobs and housing relationship. This shall include an estimate based on readily available data on the number of low-wage jobs within the jurisdiction and how many housing units within the jurisdiction are affordable to low-wage workers as well as an estimate based on readily available data, of projected job growth and projected household growth by income level within each member jurisdiction during the planning period.

(2) The opportunities and constraints to development of additional housing in each member jurisdiction, including all of the following:

(A) Lack of capacity for sewer or water service due to federal or state laws, regulations or regulatory actions, or supply and distribution decisions made by a sewer or water service provider other than the local jurisdiction that preclude the jurisdiction from providing necessary infrastructure for additional development during the planning period.

(B) The availability of land suitable for urban development or for conversion to residential use, the availability of underutilized land, and opportunities for infill development and increased residential densities. The council of governments may not limit its consideration of suitable housing sites or land suitable for urban development to existing zoning ordinances and land use restrictions of a locality, but shall consider the potential for increased residential development under alternative zoning ordinances and land use restrictions. The determination of available land suitable for urban development may exclude lands where the Federal Emergency Management Agency (FEMA) or the Department of Water Resources has determined that the flood management infrastructure designed to protect that land is not adequate to avoid the risk of flooding.

(C) Lands preserved or protected from urban development under existing federal or state programs, or both, designed to protect open space, farmland, environmental habitats, and natural resources on a long-term basis, including land zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of that jurisdiction that prohibits or restricts conversion to nonagricultural uses.

(D) County policies to preserve prime agricultural land, as defined pursuant to Section 56064, within an unincorporated area and land within an unincorporated area zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of that jurisdiction that prohibits or restricts its conversion to nonagricultural uses.

(3) The distribution of household growth assumed for purposes of a comparable period of regional transportation plans and opportunities to maximize the use of public transportation and existing transportation infrastructure.

(4) Agreements between a county and cities in a county to direct growth toward incorporated areas of the county and land within an unincorporated area zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of the jurisdiction that prohibits or restricts conversion to nonagricultural uses.

(5) The loss of units contained in assisted housing developments, as defined in paragraph (9) of subdivision (a) of Section 65583, that changed to non-low-income use through mortgage prepayment, subsidy contract expirations, or termination of use restrictions.

(6) The percentage of existing households at each of the income levels listed in subdivision ~~(e)~~ (f) of Section 65584 that are paying more than 30 percent and more than 50 percent of their income in rent.

(7) The rate of overcrowding.

(8) The housing needs of farmworkers.

(9) The housing needs generated by the presence of a private university or a campus of the California State University or the University of California within any member jurisdiction.

(10) The housing needs of individuals and families experiencing homelessness. If a council of governments has surveyed each of its member jurisdictions pursuant to subdivision (b) on or before January 1, 2020, this paragraph shall apply only to the development of methodologies for the seventh and subsequent revisions of the housing element.

(11) The loss of units during a state of emergency that was declared by the Governor pursuant to the California Emergency Services Act (Chapter 7 (commencing with Section 8550) of Division 1 of Title 2), during the planning period immediately preceding the relevant revision pursuant to Section 65588 that have yet to be rebuilt or replaced at the time of the analysis.

(12) The region's greenhouse gas emissions targets provided by the State Air Resources Board pursuant to Section 65080.

(13) *The amount of land in each member jurisdiction that is within a very high fire risk area, by allocating a lower proportion of housing to a jurisdiction if it is likely that the jurisdiction would otherwise need to identify lands within a very high fire risk area as adequate sites pursuant to Section 65583 in order to meet its housing need allocation. In determining whether it is likely the jurisdiction would otherwise need to identify lands within a very high fire risk area as adequate sites pursuant to Section 65583 in order to meet its housing need allocation, the council of governments, or delegate subregion as applicable, shall consider factors that include, but are not limited to, the following:*

(A) (i) *The percentage of land described in subparagraph (B) of paragraph (2) within the jurisdiction that includes a very high fire risk area.*

(ii) *Whether suitable alternative sites exist outside the jurisdiction, but within the region, to accommodate the remaining regional housing need.*

(B) *Any determination by a council of governments, or delegate subregions, as applicable, to establish, or not establish, a lower allocation under this paragraph for a jurisdiction containing a very high fire risk area shall be supported by a data-driven analysis demonstrating that the reduced allocation is, or is not, appropriate, including evidence-based consideration of the factors set forth in clauses (i) and (ii) of subparagraph (A).*

(C) *This paragraph shall apply only to the development of methodologies for the seventh and subsequent revisions of the housing element.*

(D) *For the purposes of this paragraph, "very high fire risk area" has the same meaning as defined in Section 65011.*

~~(13)~~

(14) *Any other factors adopted by the council of governments, that further the objectives listed in subdivision (d) of Section 65584, provided that the council of governments specifies which of the objectives each additional factor is necessary to further. The council of governments may include additional factors unrelated to furthering the objectives listed in subdivision (d) of Section 65584 so long as the additional factors do not undermine the objectives listed in subdivision (d) of Section 65584 and are applied equally across all household income levels as described in subdivision (f) of Section 65584 and the council of governments makes a finding that the factor is necessary to address significant health and safety conditions.*

(f) *The council of governments, or delegate subregion, as applicable, shall explain in writing how each of the factors described in subdivision (e) was incorporated into the methodology and how the methodology furthers the objectives listed in subdivision (d) of Section 65584. The methodology may include numerical weighting. This information, and any other supporting materials used in determining the methodology, shall be posted on the council of governments', or delegate subregion's, internet website.*

(g) *The following criteria shall not be a justification for a determination or a reduction in a jurisdiction's share of the regional housing need:*

(1) *Any ordinance, policy, voter-approved measure, or standard of a city or county that directly or indirectly limits the number of residential building permits issued by a city or county.*

(2) *Prior underproduction of housing in a city or county from the previous regional housing need allocation, as determined by each jurisdiction's annual production report submitted pursuant to subparagraph (H) of paragraph (2) of subdivision (a) of Section 65400.*

(3) Stable population numbers in a city or county from the previous regional housing needs cycle.

(h) Following the conclusion of the public comment period described in subdivision (d) on the proposed allocation methodology, and after making any revisions deemed appropriate by the council of governments, or delegate subregion, as applicable, as a result of comments received during the public comment period, and as a result of consultation with the department, each council of governments, or delegate subregion, as applicable, shall publish a draft allocation methodology on its internet website and submit the draft allocation methodology, along with the information required pursuant to subdivision (e), to the department.

(i) Within 60 days, the department shall review the draft allocation methodology and report its written findings to the council of governments, or delegate subregion, as applicable. In its written findings the department shall determine whether the methodology furthers the objectives listed in subdivision (d) of Section 65584. If the department determines that the methodology is not consistent with subdivision (d) of Section 65584, the council of governments, or delegate subregion, as applicable, shall take one of the following actions:

(1) Revise the methodology to further the objectives listed in subdivision (d) of Section 65584 and adopt a final regional, or subregional, housing need allocation methodology.

(2) Adopt the regional, or subregional, housing need allocation methodology without revisions and include within its resolution of adoption findings, supported by substantial evidence, as to why the council of governments, or delegate subregion, believes that the methodology furthers the objectives listed in subdivision (d) of Section 65584 despite the findings of the department.

(j) If the department's findings are not available within the time limits set by subdivision (i), the council of governments, or delegate subregion, may act without them.

(k) Upon either action pursuant to subdivision (i), the council of governments, or delegate subregion, shall provide notice of the adoption of the methodology to the jurisdictions within the region, or delegate subregion, as applicable, and to the department, and shall publish the adopted allocation methodology, along with its resolution and any adopted written findings, on its internet website.

(l) The department may, within 90 days, review the adopted methodology and report its findings to the council of governments, or delegate subregion.

(m) (1) It is the intent of the Legislature that housing planning be coordinated and integrated with the regional transportation plan. To achieve this goal, the allocation plan shall allocate housing units within the region consistent with the development pattern included in the sustainable communities strategy.

(2) The final allocation plan shall ensure that the total regional housing need, by income category, as determined under Section 65584, is maintained, and that each jurisdiction in the region receive an allocation of units for low- and very low income households.

(3) The resolution approving the final housing need allocation plan shall demonstrate that the plan is consistent with the sustainable communities strategy in the regional transportation plan and furthers the objectives listed in subdivision (d) of Section 65584.

SEC. 10. Section 65584.06 of the Government Code is amended to read:

65584.06. (a) For cities and counties without a council of governments, the department shall determine and distribute the existing and projected housing need, in accordance with Section 65584 and this section. If the department determines that a county or counties, supported by a resolution adopted by the board or boards of supervisors, and a majority of cities within the county or counties representing a majority of the population of the county or counties, possess the capability and resources and has agreed to accept the responsibility, with respect to its jurisdiction, for the distribution of the regional housing need, the department shall delegate this responsibility to the cities and county or counties.

(b) The distribution of regional housing need shall, based upon available data and in consultation with the cities and counties, take into consideration market demand for housing, the distribution of household growth within the county assumed in the regional transportation plan where applicable, employment opportunities and commuting patterns, the availability of suitable sites and public facilities, the needs of individuals and families experiencing homelessness, agreements between a county and cities in a county to direct growth toward incorporated areas of the county, or other considerations as may be requested by the affected cities or counties and agreed to by the department. As part of the allocation of the regional housing need, the department shall provide each city and

county with data describing the assumptions and methodology used in calculating its share of the regional housing need. Consideration of suitable housing sites or land suitable for urban development is not limited to existing zoning ordinances and land use restrictions of a locality, but shall include consideration of the potential for increased residential development under alternative zoning ordinances and land use restrictions. The determination of available land suitable for urban development may exclude lands where the Federal Emergency Management Agency (FEMA) or the Department of Water Resources has determined that the flood management infrastructure designed to protect that land is not adequate to avoid the risk of flooding.

(c) (1) The distribution of regional housing need pursuant to this section shall also take into consideration the amount of land in each city and each county that is within a very high fire risk area, by allocating a lower proportion of housing to a jurisdiction if it is likely that the jurisdiction would otherwise need to identify lands within a very high fire risk area as adequate sites pursuant to Section 65583 in order to meet its housing need allocation. In determining whether it is likely the jurisdiction would otherwise need to identify lands within a very high fire risk area as adequate sites pursuant to Section 65583 in order to meet its housing need allocation, the department shall consider factors that include, but are not limited to, the following:

(A) The percentage of land described in subparagraph (B) of paragraph (2) of subdivision (e) of Section 65584.04 within the jurisdiction that includes a very high fire risk area.

(B) Whether suitable alternative sites exist outside the jurisdiction, but within the region, to accommodate the remaining regional housing need.

(2) Any determination to establish, or not establish, a lower allocation under this paragraph for a jurisdiction containing a very high fire risk area shall be supported by a data-driven analysis demonstrating that the reduced allocation is, or is not, appropriate, including evidence-based consideration of the factors set forth in paragraph (1).

(3) This paragraph shall apply only to the development of methodologies for the seventh and subsequent revisions of the housing element.

(e)

(d) Within 90 days following the department's determination of a draft distribution of the regional housing need to the cities and the county, a city or county may propose to revise the determination of its share of the regional housing need in accordance with criteria set forth in the draft distribution. The proposed revised share shall be based upon comparable data available for all affected jurisdictions, and accepted planning methodology, and shall be supported by adequate documentation.

(d)

(e) (1) Within 60 days after the end of the 90-day time period for the revision by the cities or county, the department shall accept the proposed revision, modify its earlier determination, or indicate why the proposed revision is inconsistent with the regional housing need.

(2) If the department does not accept the proposed revision, then, within 30 days, the city or county may request a public hearing to review the determination.

(3) The city or county shall be notified within 30 days by certified mail, return receipt requested, of at least one public hearing regarding the determination.

(4) The date of the hearing shall be at least 10 but not more than 15 days from the date of the notification.

(5) Before making its final determination, the department shall consider all comments received and shall include a written response to each request for revision received from a city or county.

(e)

(f) If the department accepts the proposed revision or modifies its earlier determination, the city or county shall use that share. If the department grants a revised allocation pursuant to subdivision (d), the department shall ensure that the total regional housing need is maintained. The department's final determination shall be in writing and shall include information explaining how its action is consistent with this section. If the department indicates that the proposed revision is inconsistent with the regional housing need, the city or county shall use the share that was originally determined by the department. The department, within its final determination, may adjust the allocation of a city or county that was not the subject of a request for revision of the draft distribution.

(f)

(g) The department shall issue a final regional housing need allocation for all cities and counties within 45 days of the completion of the local review period.

(g)

(h) Statutory changes enacted after the date the department issued a final determination pursuant to this section shall not be a basis for a revision of the final determination.

(i) For purposes of this section, "very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 11. Section 65860.2 is added to the Government Code, to read:

65860.2. (a) Not more than 12 months following the amendment of the land use element of a city's or county's general plan pursuant to Section 65302.11, each city or county that contains a very high fire risk area, as defined in Section 65011, shall adopt a very high fire risk overlay zone or otherwise amend its zoning ordinance so that it is consistent with the general plan, as amended.

(b) Notwithstanding any other law, the minimum requirements set forth in this section shall apply to all cities, including charter cities, and counties that contain a very high fire risk area. The Legislature finds and declares that establishment of minimum requirements for wildfire protection in very high fire risk areas is a matter of statewide concern and not a municipal affair as that term is used in Section 5 of Article XI of the California Constitution. Except as expressly stated, it is not the intent of the Legislature to limit the ordinances, rules, or regulations that a city or county may otherwise adopt and enforce beyond the minimum requirements outlined in this section.

SEC. 12. Section 65865.6 is added to the Government Code, to read:

65865.6. (a) Notwithstanding any other law and subject to subdivision (b), after the amendments to the land use element of the city's or county's general plan and zoning ordinances required by Sections 65302.11 and 65860.2 have become effective, the legislative body of a city or county that contains a very high fire risk area, as defined in Section 65011, shall not enter into a development agreement for property that is located within such a very high fire risk area unless the city or county finds, based on substantial evidence in the record that the project and all structures within the project are protected from wildfire risk in accordance with the wildfire risk reduction standards in effect at the time that the development agreement is entered into, or wildfire protection standards adopted by the city or county that meet or exceed the wildfire risk reduction standards in effect at the time that the development agreement is entered into.

(b) Subdivision (a) shall apply only to a development agreement entered into on or after the date upon which the statutes of limitation specified in subdivision (c) of Section 65009 have run with respect to the amendments to a city's or county's general plan and zoning ordinances required by Sections 65302.11 and 65860.2 or, if the amendments and any associated environmental documents are challenged in court, the validity of the amendments and any associated environmental documents has been upheld in a final decision.

(c) For purposes of this section, "wildfire risk reduction standards" means the wildfire risk reduction standards set forth in Section 65012 that are adopted pursuant to Section 65013 or implemented by the city or county pursuant to subparagraph (B) or (C) of paragraph (1) or subparagraph (B), (C), or (D) of paragraph (2) of subdivision (a) of Section 65012.

(d) This section shall not be interpreted to change or diminish the requirements of any other law or ordinance relating to fire protection. In the event of conflict among the wildfire risk reduction standards, or between the wildfire risk reduction standards and the requirements of any other law relating to fire protection, such conflicts shall be resolved in a manner which on balance is most protective against potential loss from wildfire exposure. Nothing in this section shall be construed to limit the existing authority of a city or county under any other law from adopting ordinances, rules, or regulations beyond the minimum requirements outlined in this section.

(e) For purposes of this section, "very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 13. Section 65962.3 is added to the Government Code, to read:

65962.3. (a) Notwithstanding any other law, and subject to subdivision (b), after the amendments to the land use element of the city's or county's general plan and zoning ordinances required by Sections 65302.11 and 65860.2 have become effective, a city or county that contains a very high fire risk area, as defined in Section 65011, shall not approve a discretionary permit or other discretionary entitlement that would result in the construction of a new building or construction that would result in an increase in allowed occupancy for an existing building, or a ministerial permit that would result in the construction of a new residence, for a project that is located within such a very high fire risk area unless the city or county finds, based on substantial evidence in the record that the project and all structures within the project are protected from wildfire risk in accordance with the wildfire risk reduction standards defined in Section 65012, or wildfire protection standards in effect at the time the application for the permit or entitlement is deemed complete, adopted by the city or county that meet or exceed the wildfire risk reduction standards in effect at the time the application for the permit or entitlement is deemed complete. Approval of a final map or parcel map that conforms to a previously approved tentative map pursuant to Section 66458 shall not constitute approval of a ministerial permit for purposes of this section.

(b) Subdivision (a) shall only apply to a discretionary permit, discretionary entitlement, or ministerial permit issued on or after the date upon which the statutes of limitation specified in subdivision (c) of Section 65009 have run with respect to the amendments to a city's or a county's general plan and zoning ordinances required by Sections 65302.11 and 65860.2 or, if the amendments and any associated environmental documents are challenged in court, the validity of the amendments and any associated environmental documents has been upheld in a final decision.

(c) This section shall not be interpreted to waive or reduce a city or county's obligation pursuant to Section 65863 to ensure that its housing element inventory accommodates, at all times throughout the housing element planning period, its remaining share of its regional housing need.

(d) This section shall not be interpreted to change or diminish the requirements of any other law or ordinance relating to fire protection. In the event of conflict among the wildfire risk reduction standards, or between the wildfire risk reduction standards and the requirements of any other law relating to fire protection, such conflicts shall be resolved in a manner which on balance is most protective against potential loss from wildfire exposure. Nothing in this section shall be construed to limit the existing authority of a city or county under any other law from adopting ordinances, rules, or regulations beyond the minimum requirements outlined in this section.

(e) For purposes of this section, "wildfire risk reduction standards" means those wildfire risk reduction standards set forth in Section 65012 that are adopted pursuant to Section 65013 or implemented by the city or county pursuant to subparagraph (B) or (C) of paragraph (1) of or subparagraph (B), (C), or (D) of paragraph (2) of subdivision (a) of Section 65012.

(f) For purposes of this section, "very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 14. Section 66474.03 is added to the Government Code, to read:

66474.03. (a) Notwithstanding any other law and subject to subdivision (b), after the amendments to the land use element of the city's or county's general plan and zoning ordinances required by Sections 65302.11 and 65860.2 have become effective, each city and each county that contains a very high fire risk area, as defined in Section 65011, shall deny approval of a tentative map, or a parcel map for which a tentative map was not required, for a subdivision that is located within such a very high fire risk area unless, in addition to any findings required under Section 66474.02, the city or county finds, based on substantial evidence in the record that the project and all structures within the project are protected from wildfire risk in accordance with the wildfire risk reduction standards in effect at the time the application for the tentative map or parcel map is deemed complete, or wildfire protection standards adopted by the city or county that meet or exceed the wildfire risk reduction standards in effect at the time the application for the tentative map or parcel map is deemed complete.

(b) Subdivision (a) shall only apply to an approval of a tentative map, or a parcel map for which a tentative map was not required, on or after the date upon which the statutes of limitation specified in subdivision (c) of Section 65009 have run with respect to the amendments to the land use element of the city's or county's general plan and zoning ordinances required by Sections 65302.11 and 65860.2 or, if the amendments and any associated environmental documents are challenged in court, the validity of the amendments and any associated environmental documents has been upheld in a final decision.

(c) For purposes of this section, "wildfire risk reduction standards" means those wildfire risk reduction standards set forth in Section 65012 that are adopted pursuant to Section 65013 or implemented by the city or county

pursuant to subparagraph (B) or (C) of paragraph (1) or subparagraph (B), (C), or (D) of paragraph (2) of subdivision (a) of Section 65012.

(d) This section shall not be interpreted to change or diminish the requirements of any other law or ordinance relating to fire protection. In the event of conflict among the wildfire risk reduction standards, or between the wildfire risk reduction standards and the requirements of any other law relating to fire protection, such conflicts shall be resolved in a manner which on balance is most protective against potential loss from wildfire exposure. Nothing in this section shall be construed to limit the existing authority of a city or county under any other law from adopting ordinances, rules, or regulations beyond the minimum requirements outlined in this section.

SEC. 15. Section 13132.7 of the Health and Safety Code is amended to read:

13132.7. (a) Within a very high fire hazard severity zone designated by the Director of Forestry and Fire Protection pursuant to Article 9 (commencing with Section 4201) of Chapter 1 of Part 2 of Division 4 of the Public Resources Code and within a very high *fire* hazard severity zone designated by a local agency pursuant to Chapter 6.8 (commencing with Section 51175) of Part 1 of Division 1 of Title 5 of the Government Code, the entire roof covering of every existing structure where more than 50 percent of the total roof area is replaced within any one-year period, every new structure, and any roof covering applied in the alteration, repair, or replacement of the roof of every existing structure, shall be a fire retardant roof covering that is at least class B as defined in the Uniform Building Code, as adopted and amended by the State Building Standards Commission.

(b) In all other areas, the entire roof covering of every existing structure where more than 50 percent of the total roof area is replaced within any one-year period, every new structure, and any roof covering applied in the alteration, repair, or replacement of the roof of every existing structure, shall be a fire retardant roof covering that is at least class C as defined in the Uniform Building Code, as adopted and amended by the State Building Standards Commission.

(c) Notwithstanding subdivision (b), within state responsibility areas classified by the State Board of Forestry and Fire Protection pursuant to Article 3 (commencing with Section 4125) of Chapter 1 of Part 2 of Division 4 of the Public Resources Code, except for those state responsibility areas designated as moderate fire hazard responsibility zones, the entire roof covering of every existing structure where more than 50 percent of the total roof area is replaced within any one-year period, every new structure, and any roof covering applied in the alteration, repair, or replacement of the roof of every existing structure, shall be a fire retardant roof covering that is at least class B as defined in the Uniform Building Code, as adopted and amended by the State Building Standards Commission.

(d) (1) Notwithstanding subdivision (a), (b), or (c), within very high fire hazard severity zones designated by the Director of Forestry and Fire Protection pursuant to Article 9 (commencing with Section 4201) of Chapter 1 of Part 2 of Division 4 of the Public Resources Code or by a local agency pursuant to Chapter 6.8 (commencing with Section 51175) of Part 1 of Division 1 of Title 5 of the Government Code, the entire roof covering of every existing structure where more than 50 percent of the total roof area is replaced within any one-year period, every new structure, and any roof covering applied in the alteration, repair, or replacement of the roof of every existing structure, shall be a fire retardant roof covering that is at least class A as defined in the Uniform Building Code, as adopted and amended by the State Building Standards Commission.

(2) Paragraph (1) does not apply to any jurisdiction containing a very high fire hazard severity zone if the jurisdiction fulfills both of the following requirements:

(A) Adopts the model ordinance approved by the State Fire Marshal pursuant to Section 51189 of the Government Code or an ordinance that substantially conforms to the model ordinance of the State Fire Marshal.

(B) Transmits, upon adoption, a copy of the ordinance to the State Fire Marshal.

(e) The State Building Standards Commission shall incorporate the requirements set forth in subdivisions (a), (b), and (c) by publishing them as an amendment to the California Building Standards Code in accordance with Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13.

(f) Nothing in this section shall limit the authority of a city, county, city and county, or fire protection district in establishing more restrictive requirements, in accordance with current law, than those specified in this section.

(g) This section shall not affect the validity of an ordinance, adopted prior to the effective date for the relevant roofing standard specified in subdivisions (a) and (b), by a city, county, city and county, or fire protection district, unless the ordinance mandates a standard that is less stringent than the standards set forth in subdivision (a), in

which case the ordinance shall not be valid on or after the effective date for the relevant roofing standard specified in subdivisions (a) and (b).

(h) Any qualified historical building or structure as defined in Section 18955 may, on a case-by-case basis, utilize alternative roof constructions as provided by the State Historical Building Code.

(i) The installer of the roof covering shall provide certification of the roof covering classification, as provided by the manufacturer or supplier, to the building owner and, when requested, to the agency responsible for enforcement of this part. The installer shall also install the roof covering in accordance with the manufacturer's listing.

(j) No wood roof covering materials shall be sold or applied in this state unless both of the following conditions are met:

(1) The materials have been approved and listed by the State Fire Marshal as complying with the requirements of this section.

(2) The materials have passed at least 5 years of the 10-year natural weathering test. The 10-year natural weathering test required by this subdivision shall be conducted in accordance with standard 15-2 of the 1994 edition of the Uniform Building Code at a testing facility recognized by the State Fire Marshal.

(k) The Insurance Commissioner shall accept the use of fire retardant wood roof covering material that complies with the requirements of this section, used in the partial repair or replacement of nonfire retardant wood roof covering material, as complying with the requirement in Section 2695.9 of Title 10 of the California Code of Regulations relative to matching replacement items in quality, color, and size.

(l) No common interest development, as defined in Section 4100 or 6534 of the Civil Code, may require an owner to install or repair a roof in a manner that is in violation of this section. The governing documents, as defined in Section 4150 or 6552 of the Civil Code, of a common interest development within a very high fire severity zone shall allow for at least one type of fire retardant roof covering material that meets the requirements of this ~~section~~ *section and that is, at a minimum, class B, as defined in the International Building Code.*

SEC. 16. Section 4123.6 is added to the Public Resources Code, to read:

4123.6. (a) For purposes of this section:

(1) "Department" means the Department of Forestry and Fire Protection.

(2) "Program" means the Wildfire Risk Reduction Planning Support Grants Program established by this section.

(3) "Small jurisdiction" means either of the following:

(A) A county that had a population of less than 250,000 as of January 1, 2019.

(B) A city located within a county described in subparagraph (A) that contains a very high fire risk area.

(b) (1) The Wildfire Risk Reduction Planning Support Grants Program is hereby established for the purpose of providing small jurisdictions that contain very high fire risk areas with grants for planning activities to enable those jurisdictions to meet the requirements set forth in the act adding this section.

(2) Upon appropriation by the Legislature for purposes of this section, the department shall distribute grant funds under the program, in accordance with subdivision (e).

(c) The department shall administer the program and, consistent with the requirements of this section, provide grants to jurisdictions for the purposes described in paragraph (1) of subdivision (b).

(d) A small jurisdiction that receives an allocation of grant funds pursuant to this section shall use that allocation solely for wildfire risk reduction planning activities, including, but not limited to, one or more of the following:

(1) Updating planning documents and zoning ordinances, including general plans, community plans, specific plans, local hazard mitigation plans, community wildfire protection plans, climate adaptation plans, and local coastal programs to implement Sections 65302.11 and 65860.2 of the Government Code.

- (2) Developing and adopting a comprehensive retrofit strategy in accordance with paragraph (6) of subdivision (g) of Section 65302 of the Government Code.
 - (3) Reviewing and updating the local designation of lands within the jurisdiction as very high fire hazard severity zones pursuant to subdivision (b) of Section 51179 of the Government Code.
 - (4) Implementing the wildfire risk reduction standards set forth in Sections 65012 and 65013 of the Government Code or local wildfire protection standards that meet or exceed those wildfire risk reduction standards, including development and adoption of any appropriate local ordinances, rules, or regulations.
 - (5) Establishing and initial funding of an enforcement program in accordance with subparagraph (C) of paragraph (1) of subdivision (a) of Section 65012 of the Government Code.
 - (6) Performing infrastructure planning, including for access roads, water supplies providing fire protection, or other public facilities necessary to support the wildfire risk reduction standards set forth in Sections 65012 and 65013 of the Government Code.
 - (7) Partnering with other local entities to implement wildfire risk reduction.
 - (8) Updating local planning processes to otherwise support wildfire risk reduction.
 - (9) Completing any environmental review associated with the activities described in paragraphs (1) to (8), inclusive.
 - (10) Covering the costs of temporary staffing or consulting needs associated with the activities described in paragraphs (1) to (9), inclusive.
- (e) (1) The amount described in paragraph (2) of subdivision (b) shall be allocated in each year for which funding is made available for the program to small jurisdictions in accordance with this subdivision.
 - (2) The department shall administer a noncompetitive, over-the-counter application process for grants funded by the allocation specified in paragraph (1) for wildfire risk reduction planning activities, as described in subdivision (d), for small jurisdictions.
 - (3) The department shall award no more than three hundred fifty thousand dollars (\$350,000), and no less than two hundred fifty thousand dollars (\$250,000), to a qualifying small jurisdiction.
 - (4) Any qualifying small jurisdiction may submit an application for funding, in the form and manner prescribed by the department, in order to receive an allocation of funds pursuant to this subdivision. An application submitted pursuant to this paragraph shall include a description of the proposed uses of funds, in accordance with subdivision (d). The department shall verify whether each funding request meets the minimum criteria established by this subdivision and make awards on a continuous basis based on those criteria.
 - (f) Of any amount appropriated for purposes of this section, up to 5 percent of those funds may be set aside for program administration by the department.
 - (g) For purposes of this section, "very high fire risk area" has the same meaning as defined in Section 65011.

SEC. 17. Section 4290 of the Public Resources Code is amended to read:

4290. (a) The board shall adopt regulations implementing minimum fire safety standards related to defensible space that are applicable to state responsibility area lands under the authority of the department, and to lands classified and designated as very high fire hazard severity zones, as defined in subdivision (i) of Section 51177 of the Government Code. These regulations apply to the perimeters and access *from the perimeters* to all residential, commercial, and industrial building construction within state responsibility areas approved after January 1, 1991, and within lands classified and designated as very high fire hazard severity zones, as defined in subdivision (i) of Section 51177 of the Government Code after July 1, 2021. *The regulations shall conform as nearly as practicable with the regulations adopted by the State Fire Marshal pursuant to Section 65013.* The board may not adopt building standards, as defined in Section 18909 of the Health and Safety Code, under the authority of this section. As an integral part of fire safety standards, the State Fire Marshal has the authority to adopt regulations for roof coverings and openings into the attic areas of buildings specified in Section 13108.5 of the Health and Safety Code. The regulations apply to the placement of mobile homes as defined by National Fire Protection Association standards. These regulations do not apply where an application for a building permit was filed prior to January 1, 1991, or to parcel or tentative maps or other developments approved prior to January 1,

1991, if the final map for the tentative map is approved within the time prescribed by the local ordinance. The regulations shall include all of the following:

- (1) Road standards for fire equipment access.
- (2) Standards for signs identifying streets, roads, and buildings.
- (3) Minimum private water supply reserves for emergency fire use.
- (4) Fuel breaks and greenbelts.

(b) The board shall, on and after July 1, 2021, periodically update regulations for fuel breaks and greenbelts near communities to provide greater fire safety for the perimeters to all residential, commercial, and industrial building construction within state responsibility areas and lands classified and designated as very high fire hazard severity zones, as defined in subdivision (i) of Section 51177 of the Government Code, after July 1, 2021. These regulations shall include measures to preserve undeveloped ridgelines to reduce fire risk and improve fire protection. The board shall, by regulation, define "ridgeline" for purposes of this subdivision.

(c) These regulations do not supersede local regulations which equal or exceed minimum regulations adopted by the state.

(d) The board may enter into contracts with technical experts to meet the requirements of this section.

SEC. 18. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.

SB-765 Accessory dwelling units: setbacks. (2021-2022)

SHARE THIS:

Date Published: 02/20/2021 04:00 AM

CALIFORNIA LEGISLATURE— 2021–2022 REGULAR SESSION

SENATE BILL

NO. 765

**Introduced by Senator Stern
(Principal coauthor: Assembly Member Friedman)**

February 19, 2021

An act to amend Section 65852.2 of the Government Code, relating to land use.

LEGISLATIVE COUNSEL'S DIGEST

SB 765, as introduced, Stern. Accessory dwelling units: setbacks.

The Planning and Zoning Law, among other things, provides for the creation of accessory dwelling units by local ordinance, or, if a local agency has not adopted an ordinance, by ministerial approval, in accordance with specified standards and conditions. Existing law prohibits a local agency's accessory dwelling unit ordinance from imposing a setback requirement of more than 4 feet from the side and rear lot lines for an accessory dwelling unit that is not converted from an existing structure or a new structure constructed in the same location and to the same dimensions as an existing structure.

This bill would remove the above-described prohibition on a local agency's accessory dwelling unit ordinance, and would instead provide that the rear and side yard setback requirements for accessory dwelling units may be set by the local agency. The bill would authorize an accessory dwelling unit applicant to submit a request to the local agency for an alternative rear and side yard setback requirement if the local agency's setback requirements make the building of the accessory dwelling unit infeasible. The bill would prohibit any rear and side yard setback requirements established pursuant to these provisions from being greater than those in effect as of January 1, 2020. The bill would specify that if the local agency did not have an accessory dwelling unit ordinance as of January 1, 2020, the applicable rear and side yard setback requirement is 4 feet.

By requiring local agencies to review an applicant's request for an alternative rear and side yard setback requirement, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: yes

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 65852.2 of the Government Code, as amended by Section 3.5 of Chapter 198 of the Statutes of 2020, is amended to read:

65852.2. (a) (1) A local agency may, by ordinance, provide for the creation of accessory dwelling units in areas zoned to allow single-family or multifamily dwelling residential use. The ordinance shall do all of the following:

(A) Designate areas within the jurisdiction of the local agency where accessory dwelling units may be permitted. The designation of areas may be based on the adequacy of water and sewer services and the impact of accessory dwelling units on traffic flow and public safety. A local agency that does not provide water or sewer services shall consult with the local water or sewer service provider regarding the adequacy of water and sewer services before designating an area where accessory dwelling units may be permitted.

(B) (i) Impose standards on accessory dwelling units that include, but are not limited to, parking, height, setback, landscape, architectural review, maximum size of a unit, and standards that prevent adverse impacts on any real property that is listed in the California Register of Historic Resources. These standards shall not include requirements on minimum lot size.

(ii) Notwithstanding clause (i), a local agency may reduce or eliminate parking requirements for any accessory dwelling unit located within its jurisdiction.

(C) Provide that accessory dwelling units do not exceed the allowable density for the lot upon which the accessory dwelling unit is located, and that accessory dwelling units are a residential use that is consistent with the existing general plan and zoning designation for the lot.

(D) Require the accessory dwelling units to comply with all of the following:

(i) The accessory dwelling unit may be rented separate from the primary residence, but may not be sold or otherwise conveyed separate from the primary residence.

(ii) The lot is zoned to allow single-family or multifamily dwelling residential use and includes a proposed or existing dwelling.

(iii) The accessory dwelling unit is either attached to, or located within, the proposed or existing primary dwelling, including attached garages, storage areas or similar uses, or an accessory structure or detached from the proposed or existing primary dwelling and located on the same lot as the proposed or existing primary dwelling.

(iv) If there is an existing primary dwelling, the total floor area of an attached accessory dwelling unit shall not exceed 50 percent of the existing primary dwelling.

(v) The total floor area for a detached accessory dwelling unit shall not exceed 1,200 square feet.

(vi) No passageway shall be required in conjunction with the construction of an accessory dwelling unit.

(vii) No setback shall be required for an existing living area or accessory structure or a structure constructed in the same location and to the same dimensions as an existing structure that is converted to an accessory dwelling unit or to a portion of an accessory dwelling unit, and a setback of no more than four feet from the side and rear lot lines shall be required for an accessory dwelling unit that is not converted from an existing structure or a new structure constructed in the same location and to the same dimensions as an existing structure. unit.

(viii) (I) Rear and side yard setback requirements for accessory dwelling units shall be established by the local agency, except as otherwise provided in clause (vii) and this clause.

(II) An applicant for an accessory dwelling unit may submit a request to the local agency for an alternative rear and side yard setback requirement based upon specific site topographical conditions if the local agency's setback requirements make the building of the accessory dwelling unit infeasible. The local agency may approve the request upon making a finding that the alternative setback is necessary to make the building of the accessory dwelling unit feasible and the alternative setback requirement adjusts the setback requirement only to the extent necessary to accommodate the accessory dwelling unit.

(III) In no event shall the local agency's rear and side yard setback requirements be greater than those in effect as of January 1, 2020.

(IV) If the local agency did not have an accessory dwelling unit ordinance as of January 1, 2020, the rear and side yard setback requirement shall be four feet.

~~(viii)~~

(ix) Local building code requirements that apply to detached dwellings, as appropriate.

~~(ix)~~

(x) Approval by the local health officer where a private sewage disposal system is being used, if required.

~~(x)~~

(xi) (I) Parking requirements for accessory dwelling units shall not exceed one parking space per accessory dwelling unit or per bedroom, whichever is less. These spaces may be provided as tandem parking on a driveway.

(II) Offstreet parking shall be permitted in setback areas in locations determined by the local agency or through tandem parking, unless specific findings are made that parking in setback areas or tandem parking is not feasible based upon specific site or regional topographical or fire and life safety conditions.

(III) This clause shall not apply to an accessory dwelling unit that is described in subdivision (d).

~~(xi)~~

(xii) When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an accessory dwelling unit or converted to an accessory dwelling unit, the local agency shall not require that those offstreet parking spaces be replaced.

~~(xii)~~

(xiii) Accessory dwelling units shall not be required to provide fire sprinklers if they are not required for the primary residence.

(2) The ordinance shall not be considered in the application of any local ordinance, policy, or program to limit residential growth.

(3) A permit application for an accessory dwelling unit or a junior accessory dwelling unit shall be considered and approved ministerially without discretionary review or a hearing, notwithstanding Section 65901 or 65906 or any local ordinance regulating the issuance of variances or special use permits. The permitting agency shall act on the application to create an accessory dwelling unit or a junior accessory dwelling unit within 60 days from the date the local agency receives a completed application if there is an existing single-family or multifamily dwelling on the lot. If the permit application to create an accessory dwelling unit or a junior accessory dwelling unit is submitted with a permit application to create a new single-family dwelling on the lot, the permitting agency may delay acting on the permit application for the accessory dwelling unit or the junior accessory dwelling unit until the permitting agency acts on the permit application to create the new single-family dwelling, but the application to create the accessory dwelling unit or junior accessory dwelling unit shall be considered without discretionary review or hearing. If the applicant requests a delay, the 60-day time period shall be tolled for the period of the delay. If the local agency has not acted upon the completed application within 60 days, the application shall be deemed approved. A local agency may charge a fee to reimburse it for costs incurred to implement this paragraph, including the costs of adopting or amending any ordinance that provides for the creation of an accessory dwelling unit.

(4) An existing ordinance governing the creation of an accessory dwelling unit by a local agency or an accessory dwelling ordinance adopted by a local agency shall provide an approval process that includes only ministerial provisions for the approval of accessory dwelling units and shall not include any discretionary processes, provisions, or requirements for those units, except as otherwise provided in this subdivision. If a local agency has an existing accessory dwelling unit ordinance that fails to meet the requirements of this subdivision, that ordinance shall be null and void and that agency shall thereafter apply the standards established in this subdivision for the approval of accessory dwelling units, unless and until the agency adopts an ordinance that complies with this section.

(5) No other local ordinance, policy, or regulation shall be the basis for the delay or denial of a building permit or a use permit under this subdivision.

(6) This subdivision establishes the maximum standards that local agencies shall use to evaluate a proposed accessory dwelling unit on a lot that includes a proposed or existing single-family dwelling. No additional standards, other than those provided in this subdivision, shall be used or imposed, including any owner-occupant requirement, except that a local agency may require that the property be used for rentals of terms longer than 30 days.

(7) A local agency may amend its zoning ordinance or general plan to incorporate the policies, procedures, or other provisions applicable to the creation of an accessory dwelling unit if these provisions are consistent with the limitations of this subdivision.

(8) An accessory dwelling unit that conforms to this subdivision shall be deemed to be an accessory use or an accessory building and shall not be considered to exceed the allowable density for the lot upon which it is located, and shall be deemed to be a residential use that is consistent with the existing general plan and zoning designations for the lot. The accessory dwelling unit shall not be considered in the application of any local ordinance, policy, or program to limit residential growth.

(b) When a local agency that has not adopted an ordinance governing accessory dwelling units in accordance with subdivision (a) receives an application for a permit to create an accessory dwelling unit pursuant to this subdivision, the local agency shall approve or disapprove the application ministerially without discretionary review pursuant to subdivision (a). The permitting agency shall act on the application to create an accessory dwelling unit or a junior accessory dwelling unit within 60 days from the date the local agency receives a completed application if there is an existing single-family or multifamily dwelling on the lot. If the permit application to create an accessory dwelling unit or a junior accessory dwelling unit is submitted with a permit application to create a new single-family dwelling on the lot, the permitting agency may delay acting on the permit application for the accessory dwelling unit or the junior accessory dwelling unit until the permitting agency acts on the permit application to create the new single-family dwelling, but the application to create the accessory dwelling unit or junior accessory dwelling unit shall still be considered ministerially without discretionary review or a hearing. If the applicant requests a delay, the 60-day time period shall be tolled for the period of the delay. If the local agency has not acted upon the completed application within 60 days, the application shall be deemed approved.

(c) (1) Subject to paragraph (2), a local agency may establish minimum and maximum unit size requirements for both attached and detached accessory dwelling units.

(2) Notwithstanding paragraph (1), a local agency shall not establish by ordinance any of the following:

(A) A minimum square footage requirement for either an attached or detached accessory dwelling unit that prohibits an efficiency unit.

(B) A maximum square footage requirement for either an attached or detached accessory dwelling unit that is less than either of the following:

(i) 850 square feet.

(ii) 1,000 square feet for an accessory dwelling unit that provides more than one bedroom.

(C) Any other minimum or maximum size for an accessory dwelling unit, size based upon a percentage of the proposed or existing primary dwelling, or limits on lot coverage, floor area ratio, open space, and minimum lot size, for either attached or detached dwellings that does not permit at least an 800 square foot accessory dwelling unit that is at least 16 feet in height ~~with four-foot side and rear yard setbacks~~ to be constructed in compliance with all other local development standards.

(d) Notwithstanding any other law, a local agency, whether or not it has adopted an ordinance governing accessory dwelling units in accordance with subdivision (a), shall not impose parking standards for an accessory dwelling unit in any of the following instances:

(1) The accessory dwelling unit is located within one-half mile walking distance of public transit.

(2) The accessory dwelling unit is located within an architecturally and historically significant historic district.

(3) The accessory dwelling unit is part of the proposed or existing primary residence or an accessory structure.

(4) When on-street parking permits are required but not offered to the occupant of the accessory dwelling unit.

(5) When there is a car share vehicle located within one block of the accessory dwelling unit.

(e) (1) Notwithstanding subdivisions (a) to (d), inclusive, a local agency shall ministerially approve an application for a building permit within a residential or mixed-use zone to create any of the following:

(A) One accessory dwelling unit and one junior accessory dwelling unit per lot with a proposed or existing single-family dwelling if all of the following apply:

(i) The accessory dwelling unit or junior accessory dwelling unit is within the proposed space of a single-family dwelling or existing space of a single-family dwelling or accessory structure and may include an expansion of not more than 150 square feet beyond the same physical dimensions as the existing accessory structure. An expansion beyond the physical dimensions of the existing accessory structure shall be limited to accommodating ingress and egress.

(ii) The space has exterior access from the proposed or existing single-family dwelling.

(iii) The side and rear setbacks are sufficient for fire and safety.

(iv) The junior accessory dwelling unit complies with the requirements of Section 65852.22.

(B) One detached, new construction, accessory dwelling unit ~~that does not exceed four-foot side and rear yard setbacks~~ for a lot with a proposed or existing single-family dwelling. The accessory dwelling unit may be combined with a junior accessory dwelling unit described in subparagraph (A). A local agency may impose the following conditions on the accessory dwelling unit:

(i) A total floor area limitation of not more than 800 square feet.

(ii) A height limitation of 16 feet.

(C) (i) Multiple accessory dwelling units within the portions of existing multifamily dwelling structures that are not used as livable space, including, but not limited to, storage rooms, boiler rooms, passageways, attics, basements, or garages, if each unit complies with state building standards for dwellings.

(ii) A local agency shall allow at least one accessory dwelling unit within an existing multifamily dwelling and shall allow up to 25 percent of the existing multifamily dwelling units.

(D) Not more than two accessory dwelling units that are located on a lot that has an existing multifamily dwelling, but are detached from that multifamily dwelling and are subject to a height limit of 16 ~~feet and four-foot rear yard and side setbacks:~~ feet.

(2) A local agency shall not require, as a condition for ministerial approval of a permit application for the creation of an accessory dwelling unit or a junior accessory dwelling unit, the correction of nonconforming zoning conditions.

(3) The installation of fire sprinklers shall not be required in an accessory dwelling unit if sprinklers are not required for the primary residence.

(4) A local agency shall require that a rental of the accessory dwelling unit created pursuant to this subdivision be for a term longer than 30 days.

(5) A local agency may require, as part of the application for a permit to create an accessory dwelling unit connected to an onsite wastewater treatment system, a percolation test completed within the last five years, or, if the percolation test has been recertified, within the last 10 years.

(6) Notwithstanding subdivision (c) and paragraph (1) a local agency that has adopted an ordinance by July 1, 2018, providing for the approval of accessory dwelling units in multifamily dwelling structures shall ministerially consider a permit application to construct an accessory dwelling unit that is described in paragraph (1), and may impose standards including, but not limited to, design, development, and historic standards on said accessory dwelling units. These standards shall not include requirements on minimum lot size.

(f) (1) Fees charged for the construction of accessory dwelling units shall be determined in accordance with Chapter 5 (commencing with Section 66000) and Chapter 7 (commencing with Section 66012).

(2) An accessory dwelling unit shall not be considered by a local agency, special district, or water corporation to be a new residential use for purposes of calculating connection fees or capacity charges for utilities, including water and sewer service, unless the accessory dwelling unit was constructed with a new single-family dwelling.

(3) (A) A local agency, special district, or water corporation shall not impose any impact fee upon the development of an accessory dwelling unit less than 750 square feet. Any impact fees charged for an accessory dwelling unit of 750 square feet or more shall be charged proportionately in relation to the square footage of the primary dwelling unit.

(B) For purposes of this paragraph, "impact fee" has the same meaning as the term "fee" is defined in subdivision (b) of Section 66000, except that it also includes fees specified in Section 66477. "Impact fee" does not include any connection fee or capacity charge charged by a local agency, special district, or water corporation.

(4) For an accessory dwelling unit described in subparagraph (A) of paragraph (1) of subdivision (e), a local agency, special district, or water corporation shall not require the applicant to install a new or separate utility connection directly between the accessory dwelling unit and the utility or impose a related connection fee or capacity charge, unless the accessory dwelling unit was constructed with a new single-family home.

(5) For an accessory dwelling unit that is not described in subparagraph (A) of paragraph (1) of subdivision (e), a local agency, special district, or water corporation may require a new or separate utility connection directly between the accessory dwelling unit and the utility. Consistent with Section 66013, the connection may be subject to a connection fee or capacity charge that shall be proportionate to the burden of the proposed accessory dwelling unit, based upon either its square feet or the number of its drainage fixture unit (DFU) values, as defined in the Uniform Plumbing Code adopted and published by the International Association of Plumbing and Mechanical Officials, upon the water or sewer system. This fee or charge shall not exceed the reasonable cost of providing this service.

(g) This section does not limit the authority of local agencies to adopt less restrictive requirements for the creation of an accessory dwelling unit.

(h) (1) A local agency shall submit a copy of the ordinance adopted pursuant to subdivision (a) to the Department of Housing and Community Development within 60 days after adoption. After adoption of an ordinance, the department may submit written findings to the local agency as to whether the ordinance complies with this section.

(2) (A) If the department finds that the local agency's ordinance does not comply with this section, the department shall notify the local agency and shall provide the local agency with a reasonable time, no longer than 30 days, to respond to the findings before taking any other action authorized by this section.

(B) The local agency shall consider the findings made by the department pursuant to subparagraph (A) and shall do one of the following:

(i) Amend the ordinance to comply with this section.

(ii) Adopt the ordinance without changes. The local agency shall include findings in its resolution adopting the ordinance that explain the reasons the local agency believes that the ordinance complies with this section despite the findings of the department.

(3) (A) If the local agency does not amend its ordinance in response to the department's findings or does not adopt a resolution with findings explaining the reason the ordinance complies with this section and addressing the department's findings, the department shall notify the local agency and may notify the Attorney General that the local agency is in violation of state law.

(B) Before notifying the Attorney General that the local agency is in violation of state law, the department may consider whether a local agency adopted an ordinance in compliance with this section between January 1, 2017, and January 1, 2020.

(i) The department may review, adopt, amend, or repeal guidelines to implement uniform standards or criteria that supplement or clarify the terms, references, and standards set forth in this section. The guidelines adopted pursuant to this subdivision are not subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2.

(j) As used in this section, the following terms mean:

(1) "Accessory dwelling unit" means an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same

parcel as the single-family or multifamily dwelling is or will be situated. An accessory dwelling unit also includes the following:

- (A) An efficiency unit.
- (B) A manufactured home, as defined in Section 18007 of the Health and Safety Code.
- (2) "Accessory structure" means a structure that is accessory and incidental to a dwelling located on the same lot.
- (3) "Efficiency unit" has the same meaning as defined in Section 17958.1 of the Health and Safety Code.
- (4) "Living area" means the interior habitable area of a dwelling unit, including basements and attics, but does not include a garage or any accessory structure.
- (5) "Local agency" means a city, county, or city and county, whether general law or chartered.
- (6) "Nonconforming zoning condition" means a physical improvement on a property that does not conform with current zoning standards.
- (7) "Passageway" means a pathway that is unobstructed clear to the sky and extends from a street to one entrance of the accessory dwelling unit.
- (8) "Proposed dwelling" means a dwelling that is the subject of a permit application and that meets the requirements for permitting.
- (9) "Public transit" means a location, including, but not limited to, a bus stop or train station, where the public may access buses, trains, subways, and other forms of transportation that charge set fares, run on fixed routes, and are available to the public.
- (10) "Tandem parking" means that two or more automobiles are parked on a driveway or in any other location on a lot, lined up behind one another.
- (k) A local agency shall not issue a certificate of occupancy for an accessory dwelling unit before the local agency issues a certificate of occupancy for the primary dwelling.
- (l) Nothing in this section shall be construed to supersede or in any way alter or lessen the effect or application of the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code), except that the local government shall not be required to hold public hearings for coastal development permit applications for accessory dwelling units.
- (m) A local agency may count an accessory dwelling unit for purposes of identifying adequate sites for housing, as specified in subdivision (a) of Section 65583.1, subject to authorization by the department and compliance with this division.
- (n) In enforcing building standards pursuant to Article 1 (commencing with Section 17960) of Chapter 5 of Part 1.5 of Division 13 of the Health and Safety Code for an accessory dwelling unit described in paragraph (1) or (2) below, a local agency, upon request of an owner of an accessory dwelling unit for a delay in enforcement, shall delay enforcement of a building standard, subject to compliance with Section 17980.12 of the Health and Safety Code:
 - (1) The accessory dwelling unit was built before January 1, 2020.
 - (2) The accessory dwelling unit was built on or after January 1, 2020, in a local jurisdiction that, at the time the accessory dwelling unit was built, had a noncompliant accessory dwelling unit ordinance, but the ordinance is compliant at the time the request is made.
- (o) This section shall remain in effect only until January 1, 2025, and as of that date is repealed.

SEC. 2. Section 65852.2 of the Government Code, as amended by Section 4.5 of Chapter 198 of the Statutes of 2020, is amended to read:

65852.2. (a) (1) A local agency may, by ordinance, provide for the creation of accessory dwelling units in areas zoned to allow single-family or multifamily dwelling residential use. The ordinance shall do all of the following:

(A) Designate areas within the jurisdiction of the local agency where accessory dwelling units may be permitted. The designation of areas may be based on the adequacy of water and sewer services and the impact of accessory dwelling units on traffic flow and public safety. A local agency that does not provide water or sewer services shall consult with the local water or sewer service provider regarding the adequacy of water and sewer services before designating an area where accessory dwelling units may be permitted.

(B) (i) Impose standards on accessory dwelling units that include, but are not limited to, parking, height, setback, landscape, architectural review, maximum size of a unit, and standards that prevent adverse impacts on any real property that is listed in the California Register of Historic Resources. These standards shall not include requirements on minimum lot size.

(ii) Notwithstanding clause (i), a local agency may reduce or eliminate parking requirements for any accessory dwelling unit located within its jurisdiction.

(C) Provide that accessory dwelling units do not exceed the allowable density for the lot upon which the accessory dwelling unit is located, and that accessory dwelling units are a residential use that is consistent with the existing general plan and zoning designation for the lot.

(D) Require the accessory dwelling units to comply with all of the following:

(i) The accessory dwelling unit may be rented separate from the primary residence, but may not be sold or otherwise conveyed separate from the primary residence.

(ii) The lot is zoned to allow single-family or multifamily dwelling residential use and includes a proposed or existing dwelling.

(iii) The accessory dwelling unit is either attached to, or located within, the proposed or existing primary dwelling, including attached garages, storage areas or similar uses, or an accessory structure or detached from the proposed or existing primary dwelling and located on the same lot as the proposed or existing primary dwelling.

(iv) If there is an existing primary dwelling, the total floor area of an attached accessory dwelling unit shall not exceed 50 percent of the existing primary dwelling.

(v) The total floor area for a detached accessory dwelling unit shall not exceed 1,200 square feet.

(vi) No passageway shall be required in conjunction with the construction of an accessory dwelling unit.

(vii) No setback shall be required for an existing living area or accessory structure or a structure constructed in the same location and to the same dimensions as an existing structure that is converted to an accessory dwelling unit or to a portion of an accessory dwelling unit, and a setback of no more than four feet from the side and rear lot lines shall be required for an accessory dwelling unit that is not converted from an existing structure or a new structure constructed in the same location and to the same dimensions as an existing structure: unit.

(viii) (I) Rear and side yard setback requirements for accessory dwelling units shall be established by the local agency, except as otherwise provided in clause (vii) and this clause.

(II) An applicant for an accessory dwelling unit may submit a request to the local agency for an alternative rear and side yard setback requirement based upon specific site topographical conditions if the local agency's setback requirements make the building of the accessory dwelling unit infeasible. The local agency may approve the request upon making a finding that the alternative setback is necessary to make the building of the accessory dwelling unit feasible and the alternative setback requirement adjusts the setback requirement only to the extent necessary to accommodate the accessory dwelling unit.

(III) In no event shall the local agency's rear and side yard setback requirements be greater than those in effect as of January 1, 2020.

(IV) If the local agency did not have an accessory dwelling unit ordinance as of January 1, 2020, the rear and side yard setback requirement shall be four feet.

(viii)

(ix) Local building code requirements that apply to detached dwellings, as appropriate.

(ix)

(x) Approval by the local health officer where a private sewage disposal system is being used, if required.

~~(x)~~

(xi) (I) Parking requirements for accessory dwelling units shall not exceed one parking space per accessory dwelling unit or per bedroom, whichever is less. These spaces may be provided as tandem parking on a driveway.

(II) Offstreet parking shall be permitted in setback areas in locations determined by the local agency or through tandem parking, unless specific findings are made that parking in setback areas or tandem parking is not feasible based upon specific site or regional topographical or fire and life safety conditions.

(III) This clause shall not apply to an accessory dwelling unit that is described in subdivision (d).

~~(xi)~~

(xii) When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an accessory dwelling unit or converted to an accessory dwelling unit, the local agency shall not require that those offstreet parking spaces be replaced.

~~(xii)~~

(xiii) Accessory dwelling units shall not be required to provide fire sprinklers if they are not required for the primary residence.

(2) The ordinance shall not be considered in the application of any local ordinance, policy, or program to limit residential growth.

(3) A permit application for an accessory dwelling unit or a junior accessory dwelling unit shall be considered and approved ministerially without discretionary review or a hearing, notwithstanding Section 65901 or 65906 or any local ordinance regulating the issuance of variances or special use permits. The permitting agency shall act on the application to create an accessory dwelling unit or a junior accessory dwelling unit within 60 days from the date the local agency receives a completed application if there is an existing single-family or multifamily dwelling on the lot. If the permit application to create an accessory dwelling unit or a junior accessory dwelling unit is submitted with a permit application to create a new single-family dwelling on the lot, the permitting agency may delay acting on the permit application for the accessory dwelling unit or the junior accessory dwelling unit until the permitting agency acts on the permit application to create the new single-family dwelling, but the application to create the accessory dwelling unit or junior accessory dwelling unit shall be considered without discretionary review or hearing. If the applicant requests a delay, the 60-day time period shall be tolled for the period of the delay. If the local agency has not acted upon the completed application within 60 days, the application shall be deemed approved. A local agency may charge a fee to reimburse it for costs incurred to implement this paragraph, including the costs of adopting or amending any ordinance that provides for the creation of an accessory dwelling unit.

(4) An existing ordinance governing the creation of an accessory dwelling unit by a local agency or an accessory dwelling ordinance adopted by a local agency shall provide an approval process that includes only ministerial provisions for the approval of accessory dwelling units and shall not include any discretionary processes, provisions, or requirements for those units, except as otherwise provided in this subdivision. If a local agency has an existing accessory dwelling unit ordinance that fails to meet the requirements of this subdivision, that ordinance shall be null and void and that agency shall thereafter apply the standards established in this subdivision for the approval of accessory dwelling units, unless and until the agency adopts an ordinance that complies with this section.

(5) No other local ordinance, policy, or regulation shall be the basis for the delay or denial of a building permit or a use permit under this subdivision.

(6) (A) This subdivision establishes the maximum standards that local agencies shall use to evaluate a proposed accessory dwelling unit on a lot that includes a proposed or existing single-family dwelling. No additional standards, other than those provided in this subdivision, shall be used or imposed except that, subject to subparagraph (B), a local agency may require an applicant for a permit issued pursuant to this subdivision to be an owner-occupant or that the property be used for rentals of terms longer than 30 days.

(B) Notwithstanding subparagraph (A), a local agency shall not impose an owner-occupant requirement on an accessory dwelling unit permitted between January 1, 2020, to January 1, 2025, during which time the local

agency was prohibited from imposing an owner-occupant requirement.

(7) A local agency may amend its zoning ordinance or general plan to incorporate the policies, procedures, or other provisions applicable to the creation of an accessory dwelling unit if these provisions are consistent with the limitations of this subdivision.

(8) An accessory dwelling unit that conforms to this subdivision shall be deemed to be an accessory use or an accessory building and shall not be considered to exceed the allowable density for the lot upon which it is located, and shall be deemed to be a residential use that is consistent with the existing general plan and zoning designations for the lot. The accessory dwelling unit shall not be considered in the application of any local ordinance, policy, or program to limit residential growth.

(b) When a local agency that has not adopted an ordinance governing accessory dwelling units in accordance with subdivision (a) receives an application for a permit to create an accessory dwelling unit pursuant to this subdivision, the local agency shall approve or disapprove the application ministerially without discretionary review pursuant to subdivision (a). The permitting agency shall act on the application to create an accessory dwelling unit or a junior accessory dwelling unit within 60 days from the date the local agency receives a completed application if there is an existing single-family or multifamily dwelling on the lot. If the permit application to create an accessory dwelling unit or a junior accessory dwelling unit is submitted with a permit application to create a new single-family dwelling on the lot, the permitting agency may delay acting on the permit application for the accessory dwelling unit or the junior accessory dwelling unit until the permitting agency acts on the permit application to create the new single-family dwelling, but the application to create the accessory dwelling unit or junior accessory dwelling unit shall still be considered ministerially without discretionary review or a hearing. If the applicant requests a delay, the 60-day time period shall be tolled for the period of the delay. If the local agency has not acted upon the completed application within 60 days, the application shall be deemed approved.

(c) (1) Subject to paragraph (2), a local agency may establish minimum and maximum unit size requirements for both attached and detached accessory dwelling units.

(2) Notwithstanding paragraph (1), a local agency shall not establish by ordinance any of the following:

(A) A minimum square footage requirement for either an attached or detached accessory dwelling unit that prohibits an efficiency unit.

(B) A maximum square footage requirement for either an attached or detached accessory dwelling unit that is less than either of the following:

(i) 850 square feet.

(ii) 1,000 square feet for an accessory dwelling unit that provides more than one bedroom.

(C) Any other minimum or maximum size for an accessory dwelling unit, size based upon a percentage of the proposed or existing primary dwelling, or limits on lot coverage, floor area ratio, open space, and minimum lot size, for either attached or detached dwellings that does not permit at least an 800 square foot accessory dwelling unit that is at least 16 feet in height ~~with four-foot side and rear yard setbacks~~ to be constructed in compliance with all other local development standards.

(d) Notwithstanding any other law, a local agency, whether or not it has adopted an ordinance governing accessory dwelling units in accordance with subdivision (a), shall not impose parking standards for an accessory dwelling unit in any of the following instances:

(1) The accessory dwelling unit is located within one-half mile walking distance of public transit.

(2) The accessory dwelling unit is located within an architecturally and historically significant historic district.

(3) The accessory dwelling unit is part of the proposed or existing primary residence or an accessory structure.

(4) When on-street parking permits are required but not offered to the occupant of the accessory dwelling unit.

(5) When there is a car share vehicle located within one block of the accessory dwelling unit.

(e) (1) Notwithstanding subdivisions (a) to (d), inclusive, a local agency shall ministerially approve an application for a building permit within a residential or mixed-use zone to create any of the following:

(A) One accessory dwelling unit and one junior accessory dwelling unit per lot with a proposed or existing single-family dwelling if all of the following apply:

(i) The accessory dwelling unit or junior accessory dwelling unit is within the proposed space of a single-family dwelling or existing space of a single-family dwelling or accessory structure and may include an expansion of not more than 150 square feet beyond the same physical dimensions as the existing accessory structure. An expansion beyond the physical dimensions of the existing accessory structure shall be limited to accommodating ingress and egress.

(ii) The space has exterior access from the proposed or existing single-family dwelling.

(iii) The side and rear setbacks are sufficient for fire and safety.

(iv) The junior accessory dwelling unit complies with the requirements of Section 65852.22.

(B) One detached, new construction, accessory dwelling unit ~~that does not exceed four-foot side and rear yard setbacks~~ for a lot with a proposed or existing single-family dwelling. The accessory dwelling unit may be combined with a junior accessory dwelling unit described in subparagraph (A). A local agency may impose the following conditions on the accessory dwelling unit:

(i) A total floor area limitation of not more than 800 square feet.

(ii) A height limitation of 16 feet.

(C) (i) Multiple accessory dwelling units within the portions of existing multifamily dwelling structures that are not used as livable space, including, but not limited to, storage rooms, boiler rooms, passageways, attics, basements, or garages, if each unit complies with state building standards for dwellings.

(ii) A local agency shall allow at least one accessory dwelling unit within an existing multifamily dwelling and shall allow up to 25 percent of the existing multifamily dwelling units.

(D) Not more than two accessory dwelling units that are located on a lot that has an existing multifamily dwelling, but are detached from that multifamily dwelling and are subject to a height limit of ~~16-foot and four-foot rear yard and side setbacks~~ feet.

(2) A local agency shall not require, as a condition for ministerial approval of a permit application for the creation of an accessory dwelling unit or a junior accessory dwelling unit, the correction of nonconforming zoning conditions.

(3) The installation of fire sprinklers shall not be required in an accessory dwelling unit if sprinklers are not required for the primary residence.

(4) A local agency may require owner occupancy for either the primary dwelling or the accessory dwelling unit on a single-family lot, subject to the requirements of paragraph (6) of subdivision (a).

(5) A local agency shall require that a rental of the accessory dwelling unit created pursuant to this subdivision be for a term longer than 30 days.

(6) A local agency may require, as part of the application for a permit to create an accessory dwelling unit connected to an onsite wastewater treatment system, a percolation test completed within the last five years, or, if the percolation test has been recertified, within the last 10 years.

(7) Notwithstanding subdivision (c) and paragraph (1) a local agency that has adopted an ordinance by July 1, 2018, providing for the approval of accessory dwelling units in multifamily dwelling structures shall ministerially consider a permit application to construct an accessory dwelling unit that is described in paragraph (1), and may impose standards including, but not limited to, design, development, and historic standards on said accessory dwelling units. These standards shall not include requirements on minimum lot size.

(f) (1) Fees charged for the construction of accessory dwelling units shall be determined in accordance with Chapter 5 (commencing with Section 66000) and Chapter 7 (commencing with Section 66012).

(2) An accessory dwelling unit shall not be considered by a local agency, special district, or water corporation to be a new residential use for purposes of calculating connection fees or capacity charges for utilities, including water and sewer service, unless the accessory dwelling unit was constructed with a new single-family dwelling.

(3) (A) A local agency, special district, or water corporation shall not impose any impact fee upon the development of an accessory dwelling unit less than 750 square feet. Any impact fees charged for an accessory dwelling unit of 750 square feet or more shall be charged proportionately in relation to the square footage of the primary dwelling unit.

(B) For purposes of this paragraph, "impact fee" has the same meaning as the term "fee" is defined in subdivision (b) of Section 66000, except that it also includes fees specified in Section 66477. "Impact fee" does not include any connection fee or capacity charge charged by a local agency, special district, or water corporation.

(4) For an accessory dwelling unit described in subparagraph (A) of paragraph (1) of subdivision (e), a local agency, special district, or water corporation shall not require the applicant to install a new or separate utility connection directly between the accessory dwelling unit and the utility or impose a related connection fee or capacity charge, unless the accessory dwelling unit was constructed with a new single-family dwelling.

(5) For an accessory dwelling unit that is not described in subparagraph (A) of paragraph (1) of subdivision (e), a local agency, special district, or water corporation may require a new or separate utility connection directly between the accessory dwelling unit and the utility. Consistent with Section 66013, the connection may be subject to a connection fee or capacity charge that shall be proportionate to the burden of the proposed accessory dwelling unit, based upon either its square feet or the number of its drainage fixture unit (DFU) values, as defined in the Uniform Plumbing Code adopted and published by the International Association of Plumbing and Mechanical Officials, upon the water or sewer system. This fee or charge shall not exceed the reasonable cost of providing this service.

(g) This section does not limit the authority of local agencies to adopt less restrictive requirements for the creation of an accessory dwelling unit.

(h) (1) A local agency shall submit a copy of the ordinance adopted pursuant to subdivision (a) to the Department of Housing and Community Development within 60 days after adoption. After adoption of an ordinance, the department may submit written findings to the local agency as to whether the ordinance complies with this section.

(2) (A) If the department finds that the local agency's ordinance does not comply with this section, the department shall notify the local agency and shall provide the local agency with a reasonable time, no longer than 30 days, to respond to the findings before taking any other action authorized by this section.

(B) The local agency shall consider the findings made by the department pursuant to subparagraph (A) and shall do one of the following:

(i) Amend the ordinance to comply with this section.

(ii) Adopt the ordinance without changes. The local agency shall include findings in its resolution adopting the ordinance that explain the reasons the local agency believes that the ordinance complies with this section despite the findings of the department.

(3) (A) If the local agency does not amend its ordinance in response to the department's findings or does not adopt a resolution with findings explaining the reason the ordinance complies with this section and addressing the department's findings, the department shall notify the local agency and may notify the Attorney General that the local agency is in violation of state law.

(B) Before notifying the Attorney General that the local agency is in violation of state law, the department may consider whether a local agency adopted an ordinance in compliance with this section between January 1, 2017, and January 1, 2020.

(i) The department may review, adopt, amend, or repeal guidelines to implement uniform standards or criteria that supplement or clarify the terms, references, and standards set forth in this section. The guidelines adopted pursuant to this subdivision are not subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2.

(j) As used in this section, the following terms mean:

(1) "Accessory dwelling unit" means an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same

parcel as the single-family or multifamily dwelling is or will be situated. An accessory dwelling unit also includes the following:

(A) An efficiency unit.

(B) A manufactured home, as defined in Section 18007 of the Health and Safety Code.

(2) "Accessory structure" means a structure that is accessory and incidental to a dwelling located on the same lot.

(3) "Efficiency unit" has the same meaning as defined in Section 17958.1 of the Health and Safety Code.

(4) "Living area" means the interior habitable area of a dwelling unit, including basements and attics, but does not include a garage or any accessory structure.

(5) "Local agency" means a city, county, or city and county, whether general law or chartered.

(6) "Nonconforming zoning condition" means a physical improvement on a property that does not conform with current zoning standards.

(7) "Passageway" means a pathway that is unobstructed clear to the sky and extends from a street to one entrance of the accessory dwelling unit.

(8) "Proposed dwelling" means a dwelling that is the subject of a permit application and that meets the requirements for permitting.

(9) "Public transit" means a location, including, but not limited to, a bus stop or train station, where the public may access buses, trains, subways, and other forms of transportation that charge set fares, run on fixed routes, and are available to the public.

(10) "Tandem parking" means that two or more automobiles are parked on a driveway or in any other location on a lot, lined up behind one another.

(k) A local agency shall not issue a certificate of occupancy for an accessory dwelling unit before the local agency issues a certificate of occupancy for the primary dwelling.

(l) Nothing in this section shall be construed to supersede or in any way alter or lessen the effect or application of the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code), except that the local government shall not be required to hold public hearings for coastal development permit applications for accessory dwelling units.

(m) A local agency may count an accessory dwelling unit for purposes of identifying adequate sites for housing, as specified in subdivision (a) of Section 65583.1, subject to authorization by the department and compliance with this division.

(n) In enforcing building standards pursuant to Article 1 (commencing with Section 17960) of Chapter 5 of Part 1.5 of Division 13 of the Health and Safety Code for an accessory dwelling unit described in paragraph (1) or (2) below, a local agency, upon request of an owner of an accessory dwelling unit for a delay in enforcement, shall delay enforcement of a building standard, subject to compliance with Section 17980.12 of the Health and Safety Code:

(1) The accessory dwelling unit was built before January 1, 2020.

(2) The accessory dwelling unit was built on or after January 1, 2020, in a local jurisdiction that, at the time the accessory dwelling unit was built, had a noncompliant accessory dwelling unit ordinance, but the ordinance is compliant at the time the request is made.

(o) This section shall become operative on January 1, 2025.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.
