## **AFFIDAVIT- SMOKE AND CARBON MONOXIDE ALARMS**

**PLEASE PRINT**

Project Address: \_\_\_\_\_

Number of smoke alarms installed: \_\_\_\_\_

Number of carbon monoxide alarms installed: \_\_\_\_\_

The State of California requires smoke and carbon monoxide alarms to be installed in all residential buildings. Smoke and carbon monoxide alarms are permitted to be battery operated when hardwiring is not available. Fully battery-powered alarms shall not replace existing hardwired alarms. Smoke, carbon monoxide or combination alarms (carbon monoxide and smoke alarms) must be approved and listed by the State Fire Marshal. For an approved list of alarms, go to [www.osfm.fire.ca.gov](http://www.osfm.fire.ca.gov). The devices must be installed per the manufacturer's instructions.

As of January 1, 2014, all new and replacement battery-operated smoke alarms must be equipped with a non-replaceable, non-removable battery capable of powering the alarm for 10 years. All existing smoke alarms shall be replaced after 10 years from the date of manufacture or if the date of manufacture cannot be determined.

By signing this document, the property owner certifies to the City of Calabasas that both smoke alarms and carbon monoxide alarms have been installed on the above-referenced project as specified within this document and in compliance with Section R314 and R314 of the 2013 California Residential Code (CRC), Section 907 and 420 of the 2013 California Building Code (CBC) and California Health and Safety Code Section 13113.7:
