

Wireless Permit Update

CITY *of* CALABASAS

November 15, 2021

Background

Wireless Facility Permit History

- June 27, 2012 – Ordinance No. 2012-295 – Comprehensive update, established a Wireless Facility permit process
- April 8, 2015 – Ordinance No. 2015-323 – Creation of a Minor Modification permit as required by 6409 of the 2012 Tax Relief Act
- March 13, 2019 – Ordinance No. 2019-375 – Creation of a Small Wireless Facility permit as required by the FCC
- April 14, 2021 – Ordinance No. 2021-391 – Comprehensive update including creation of a Tier 1 and Tier 1 permit process

Months to Process

Average Cost

Considerations

- Current application fee will increase from \$500 to \$1,867 on November 13, 2022 (Note that there are additional fees to process a permit)
- Carriers operate on a 2 year budget cycle. As a result, we may not see a big increase in Tier 1 applications until the next budget cycle begins.
