PCI “Methodology”

PCI’s approach to all our projects, is constant communication and good working relation with the City / Agency representatives. It is crucial to have good communication in determining and prioritizing areas and roadways that are safety hazard areas to commuters and residents. As locations are identified and completed, City / Agency representative will be notified immediately upon completion and advice to inspect PCI work performed to ensure that the work is being performed to the City / Agency satisfaction and standards. It is PCI’s intention to identify any small problems early on and rectify immediately. PCI would request that the City / Agency representative provide us weekly or monthly updated list, maps and location the City / Agency has identified as roadways are needing of maintenance.

In order to maximize production and be most cost effective with the City / Agency, it is within the City / Agency’s best interest to ensure a significant amount of work be provided with each area request so that PCI can maximize full use of PCI specialized equipment and PCI personnel and limit the amount of mobilizations, thereby reducing impact on traffic.

PCI “Staffing and Qualifications”

PCI has been in the Striping and Signing industry since 1992. PCI hold a C-32 “Parking and Highway Improvements” contractor’s license. PCI employs an office staff of 12 and field employees of 35. PCI owns 45 trucks specially manufactured for street and highway striping. All field staff are safety CPR certified along with OSHA 10 certified and supervisors OSHA 30 certified.

The City / Agency main points of contacts for this project would be as followed:

William B. Jacob, President: 30 years’ experience of Parking lot and Highway Improvements. In charge of scheduling and ensuring client satisfaction

John Davey, General Superintendent: 25 years’ experience of Parking Lot and Highway Improvements. In charge of all field personal and quality control.

Frank Villegas, Project Manager / Estimator: 15 years’ experience of Parking Lot and Highway Improvements. In charge of providing original proposal, all billing, negotiating any additional work and customer satisfaction.

Davana Valintino, Office Administrator: In charge documents control and billing.

PCI “Service Priority and Response Time”

Emergency - Unscheduled corrective activities that require immediate attention to restore striping, markings, raised pavement markers and or signage that could threaten the safety of pedestrian, property, and vehicle damage

Target Response Time: **Immediate**

Urgent – The problem reporting is not a safety issue, but striping, markings, raised pavement markers and or signage are needed now.

Target Response Time: **72 Hours**

Routine – Maintenance for discolored / faded striping and markings.

Target Response Time: **5 days**

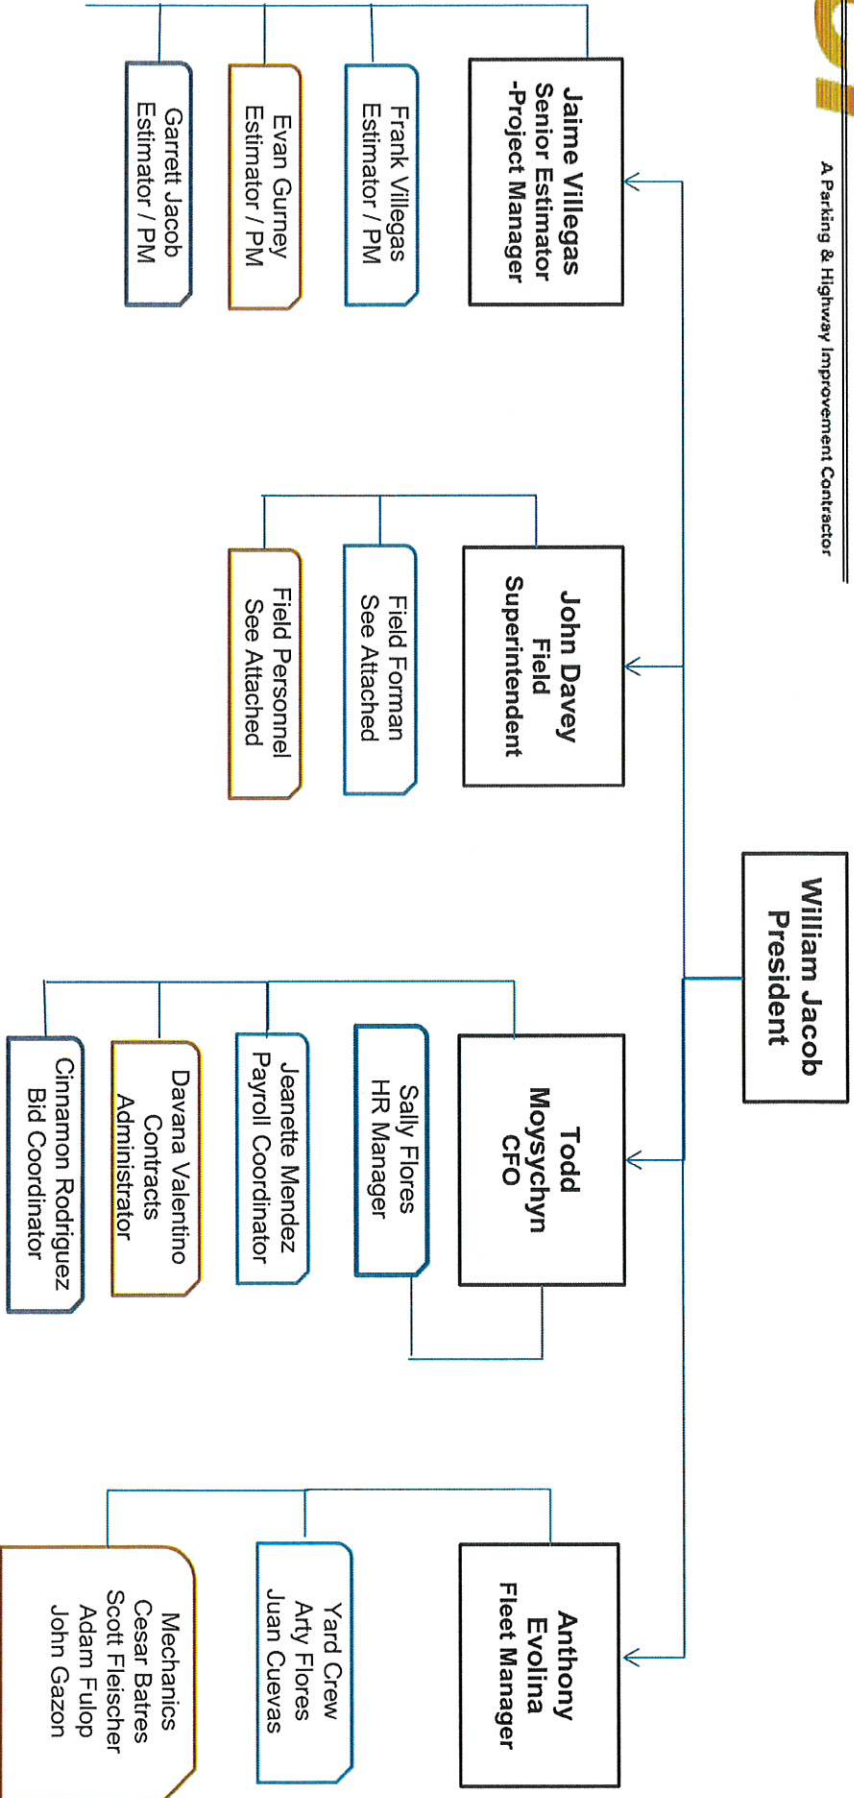

License #415490
