## **Non-Departmental (Department 134)**

The Non-Departmental Division consists of those shared costs commonly referred to as the “General Overhead”. These are shared expenses related to City Hall operations, (e.g., CJPIA insurance, common office supplies, copiers, and utilities).

These costs cannot easily be associated with any particular department and thus cannot be directly charged to department budgets.

These costs are different than the Cost Allocation Plan which includes allocating costs associated with certain departments in the General Fund out to other departments and funds. The theory, as defined in OMB circular A87, is that the costs associated with certain “overhead” functions in the General Fund (including salaries, services, facility usage, etc.) can be appropriately charged to “user” departments, such as streets/roads, parks, utilities, community development, etc. The document takes all costs charged to the “overhead” departments (City Manager, Administrative Services, City Clerk, City Attorney, Finance, Parks and Recreation (Administration), and Public Works (Administration)), determines how much effort in each function is spent on each “user” department, and spreads the costs accordingly.

## **LMD 22 – Ad Valorem (Department 326)**

Administers the landscaping services to Landscape Maintenance District 21 (Fund 21) which is funded by a portion of the Prop 13 1% property tax. This district was formed prior to city incorporation and encompasses a majority section of the city. Funds generated by the tax are used for the landscape maintenance and enhancement of public areas located within the LMD 22 boundary. These areas include Calabasas Lake, Association Park, public streets parkways and medians, and certain designated open space areas.

For the purpose of landscape maintenance, the City set up Common Benefit Area (CBA) Zones within LMD 22. The city's Public Works, Landscape Maintenance Districts Division creates and monitors annual budgets for each of these Zones. The City is the sole authority for the use of these funds and, at its discretion, may from time to time solicit input from the current CPHA Board of Directors, CPHA Lake Committee and Landscape Committee chairpersons.

## **LLAD 22 – HOA (Department 322)**

The developer of Calabasas Park Homeowner association (CPHA) requested Los Angeles County to create a landscape district to fund, install, and maintain the common landscape areas.

The LLAD 22 provides maintenance of landscape within street right-of-way and open space areas. Maintenance of landscape on streets within right-of-way includes parkways, center medians, adjacent turf areas, and trees. Within the open space it provides annual weed abatement/brush clearance for fuel reduction/fire safety.

A special assessment is a tax which provides funds over and above the general fund tax in order to provide extra landscape maintenance services. These services are specific to each of the member communities -who has voted to approve the special assessment.

CITY *of* CALABASAS

## **LLAD 24** **(Department 323)**

The developer of the homeowner associations located in the Lost Hills Road/Calabasas Hills Road section of Calabasas requested Los Angeles County to create a landscape district to fund installation and maintenance of street trees, street median landscape, and specified slopes and creek bank maintenance.

The LLAD 24 provides maintenance of landscape within street right-of-way and open space areas. The open space areas include specified slopes and creek banks. Maintenance of landscape on streets within right-of-way includes parkways, center medians, adjacent turf areas, trees, and annual weed abatement/brush clearance for fuel reduction/fire safety.

A special assessment is a tax which provides funds over and above the general fund tax in order to provide extra landscape maintenance services. These services are specific to each of the member communities -who has voted to approve the special assessment.

## **LLAD 27** **(Department 324)**

The LLAD 27 is located within a section of Las Virgenes Road, North of Parkmor Road, and on both sides of a one-block section of Thousand Oaks Blvd, from Las Virgenes Road to Ruthwood Drive. The developer of the homeowner associations and apartment complexes located on N. Las Virgenes Road requested Los Angeles County to create a special assessment district, to fund the installation and maintenance of street trees and median landscape.

LLAD 27 provides maintenance of landscape within street right-of-way. Maintenance of landscape on streets within right-of-way includes parkways, center medians, and street trees.

A special assessment is a tax which provides funds over and above the general fund tax in order to provide extra landscape maintenance services. These services are specific to each of the member communities -who has voted to approve the special assessment.

### **(Department 333)**

Transit services is responsible for providing a safe, reliable, and efficient transportation system which services the residential, commercial and industrial needs of the community. Transit Services provides oversight of the operation and maintenance of public transit programs.

The City of Calabasas provides its own public transit service consisting of one citywide route (Line 1), four peak-hour routes (Line 2-5), pilot microtransit service, Dial-A-Ride for seniors and disabled, and seasonal services (Calabasas Trolley and Beach Bus).

This program is operated through funding from Proposition A and Proposition C. Transit operations are also partially funded through the fares paid by the peak-hour riders.

LLAD 32 is located within the Agoura Road/Lost Hills Road/Malibu Hills Road area of Calabasas. It is a commercial landscape district, currently made up of nineteen commercial parcels, whose owners requested Los Angeles County to create a special assessment district in order to enhance the sidewalks and center medians in front of their businesses.

LLAD 32 provides maintenance of landscape within street right-of-way. Maintenance of landscape on streets within right-of-way includes center medians and street trees.

<b>Project Title:</b>	<b>MULHOLLAND HWY CORRIDOR STUDY</b>
<b>Department:</b>	<b>ENGINEERING &amp; PUBLIC WORKS</b>
<b>Project Description:</b>	<p>The project is located within the City's southwestern half and is approximately 2.7 miles long encompassing multiple residential communities; Viewpoint School, and Wild Walnut Park with Calabasas High School located just northeast of the project. The improvements for the project are to provide spot shoulder widening and walkway where it is feasible. Another improvement is to install a new traffic signal at Mulholland Hwy and Old Topanga Canyon Road (W). Shoulder improvements will improve bike safety along this route by reducing frictions between vehicular traffic and bicyclists by providing wider road cross-section and wider shoulder to be utilized by bicyclists thus eliminating their encroachment into a travel lane. Improving sight distance with cutbacks and a minor modification to the bends in the road would improve safety. Constructing retaining walls adjacent to unstable slopes would eliminate the roadway being closed due to mudslides and/or debris flow during a rainstorm or earthquake. In addition, new culverts will be constructed to replace existing culverts that are capable to handle 50-year storms.</p>

<b>Project Title:</b>	<b>GREEN STREET PROJECT</b>
<b>Department:</b>	<b>ENGINEERING &amp; PUBLIC WORKS</b>
<b>Project Description:</b>	
<p>The Citywide Green Street project will construct a 6ft wide vegetated swale that is approximately 2,100ft long on the shoulder located on the West side of the Las Virgenes road. The swale will serve as a pretreatment BMP that will capture and treat surface flows from the street. The swale will slow down flow velocities and allow for gradual infiltration through the soil media. The overflow of treated flows will be discharged into the detention basin by Mont Calababas Rd. The city will also be incorporating a multipurpose trail that will begin by Mont Calababas Rd and end at the connection for the Las Virgenes trail on the Northern end of the street. Having the trail will provide a safe path for pedestrians. Since the area is currently unpaved, the City will add permeable pavement for parallel and double row parking areas. This would provide approximately 100 parking spots for the nearby residents.</p> <p>Additionally, the project will include constructing BMP medians on the Mureau road, close to the intersection of Mureau Road &amp; Las Virgenes road, as well as improving the shoulders at the sections of the Calababas Road, by converting it into a Green Space through construction of vegetated swales.</p>
