October 24, 2023

Mulholland Hwy/Freedom Dr.

Mulholland Highway Master Plan

1994-1997; Part of General Plan Vision

Mulholland Highway Master Plan for Capital Improvements

2003-2004; Defined Beautification & Circulation Improvements

Mulholland Highway Corridor, Phase III Project

2015-2016; Implementation of Beautification, Safety & Circulation Improvements

Pre-project conditions:

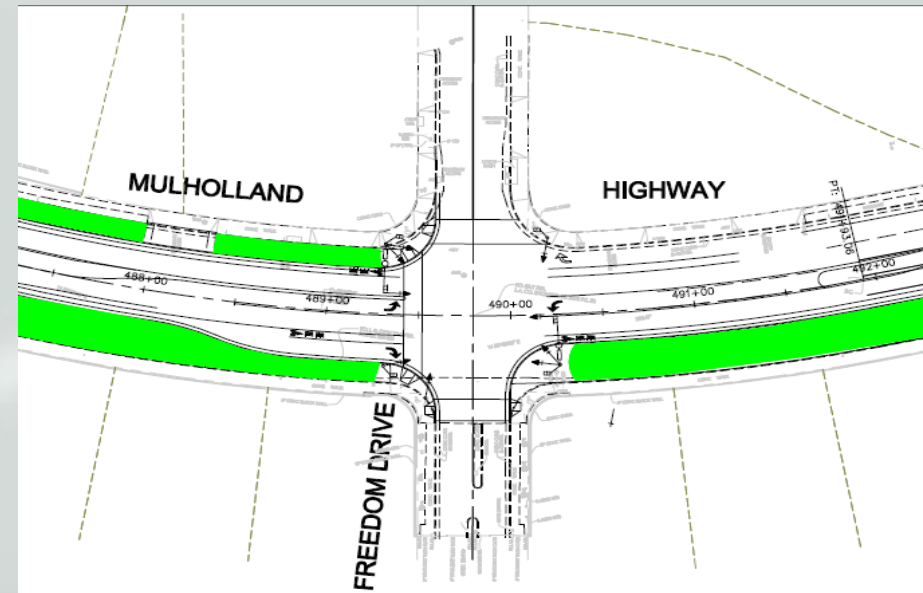

Traffic and Transportation Commission

October 24, 2023

Mulholland Hwy/Freedom Dr.

Mulholland Highway corridor Phase III project improved traffic safety along the corridor in the following ways:

- **Corridor Traffic Calming:**
Narrow traffic lanes are to help reduce vehicular speed.
- **Intersection Safety Improvements:**
Safety improvements at the intersection are achieved by narrowing of the traffic lanes. The signing and striping segregates the modes of transportation and helps minimizing conflicts between them.
- **School drop-off area improvement:**
Drop-off/Pick-up area is separated from through traffic.
- **Pedestrian and Bicycle Improvements**
Replacing the asphalt shoulder areas that were used illegally as passing lanes with landscaped shoulders.
- **Landscaping Improvements**
