---

Mari,

Please distribute to the City Council members so it can be included in the packet for this week's meeting.

Thank you,  
Laura

Dear City Council Members,

On behalf of the Savvy Seniors, I would like to bring an issue to your attention.

The Calabasas Senior Center was built solely from residents' taxes, unlike other facilities within the city. Therefore, while the center is used by everyone over 50, membership to the CSC was for Calabasas residents. It is our understanding, that this has been the established policy since the center was opened.

The proposed fee schedule that you are asked to approve at the November 8th City Council meeting, has a place holder fee for Non-Resident Calabasas Senior Center membership. The concern is that by providing approval of this fee, this may imply a policy change by the City Council.

Recently, there have been concerns where policy was not adequately documented and that resulted in some unexpected issues. For example, the issue with shared parking and the resulting concerns with

housing developments.

Therefore, we are requesting that it be documented that membership in the Calabasas Senior Center requires Calabasas residency and that any change in this policy would need formal City Council approval vs an implied approval.

Thank you for considering this request.

Laura Weissnar  
Co-Chair Steering Committee  
Calabasas Senior Center
