Explain in detail why the candidate is qualified (Please Print): Chef Tal Ronnen has brought to Calabasas a first of its kind: A plant-based restaurant that offers not only THE most decadent, delicious options in our beloved city, but cuisine that promotes health not only for those who consume it, but for our hurting environment. According to the National Institute of Health: "Transitioning to plant-based diets (PBDs) has the potential to reduce diet-related land use by 76%, diet-related greenhouse gas emissions by 49%, eutrophication by 49%, and green and blue water use by 21% and 14%, respectively, whilst garnering substantial health co-benefits" (https://www.ncbi.nlm.nih.gov/pmc/articles/PMC9024616/). It is such a privilege to have Tal share his culinary genius with our community. Not only is Tal the founder and chef of the Crossroads chain of restaurants, he is also an accomplished author whose book, The Conscious Cook, has received praise by consumers and critics alike. I cannot think of anyone more deserving than Tal Ronnen to receive the Carl Gibbs Environmental Excellence Award. He has made the city I so proudly call home so much more delectable

Explain in detail why the candidate is qualified (Please Print): Daniel and Eli are the co-founders of A Student Battery Recycling Company (ASBRC). Founded four years ago, the goal was to collect and recycle household batteries at the LVUSD, establishing collection points at the schools. Since then it has become a 501c3 collecting and safely disposing of over 1 ton of hazardous waste and participating in the annual Earth Day celebrations. Recently they have been collaborating with the Caring Calabasas Club at the Calabasas Senior Center, extending their reach to a new audience. Their enthusiasm is infectious and has raised the awareness of improving our planet to a whole new demographic. The collection containers that are situated at the Senior Center are collected in a timely and responsible fashion and the multigenerational interface not only helps the planet but gives the seniors hope for the generations to come. We are enthusiastic about recommending ASBRC and Eli and Daniel and feel their hard work, perseverance and the impact they have made on our community should be recognized and commended by the prestigious Carl Gibbs Environmental Excellence Award.
