Subject: Notice of Decision for Tier 1 Wireless Facility Permit WTF1-2023-008

Dear Applicant,

The Community Development Director reviewed the staff report and other documents and materials in the project file, and, based upon the findings presented in the staff report, **APPROVED** your application for the following:

FILE NO.: WTF1-2023-008. A request for a Wireless Telecommunication Facility – Tier 1 Permit to construct a new stealth Verizon wireless telecommunication facility located at the Cordillera water tank, at 24800 Cordillera Dr (APN: 2069-078-900), within the Public Facilities (PF) zoning district.

Your application, described above, is subject to all conditions of approval listed in the attached Exhibit A. Any decision of the Community Development Department may be appealed to the Planning Commission. Appeals must be submitted in writing to the City Clerk (per Chapter 17.74 of the Calabasas Municipal Code) within ten (10) days of the Community Development Director action.

Should you have any questions concerning this application, please contact me at (818) 224-1705 or jrackerby@cityofcalabasas.com.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jaclyn Rackerby".

COMMUNITY DEVELOPMENT DIRECTOR DECISION LETTER AND REPORT

FILE NO.: WTF1-2023-008

PROPOSAL: A request for a Wireless Telecommunication Facility – Tier 1 Permit to construct a new stealth Verizon wireless telecommunication facility located at the Cordillera water tank, at 24800 Cordillera Dr (APN: 2069-078-900), within the Public Facilities (PF) zoning district.

APPLICANT: Michael Hasegawa - Delta

BACKGROUND:

On September 28, 2023, Michael Hasegawa of Delta Groups Engineering filed an application for Wireless Telecommunication Facilities – Tier 1 Permit No. WTF-2023-008 on behalf of Verizon to construct a new wireless telecommunication facility located at the Cordillera water tank at 24800 Cordillera Dr (APN: 2069-078-900), within the Public Facilities (PF) zoning district. The application was reviewed by staff and deemed incomplete on October 20, 2023. Following subsequent resubmittals, the application was deemed complete on December 11, 2023.

The subject site is currently improved with two other wireless facilities adjacent to the water tank; a T-Mobile facility (constructed in 2001 under approved CUP No. 01-13) and an AT&T facility (constructed in 2005 under approved CUP No. 05-07). The proposed Verizon facility would be the third facility at the subject site, with monopoles and ground mounted equipment to be installed in a similar stealth design to the existing carriers' facilities at the site. The project was reviewed by staff to ensure compliance with Section 17.31.040 of the Calabasas Municipal Code.

STAFF ANALYSIS:

1. **Current Site Condition:** The subject site is located at 24800 Cordillera Dr within the Public Facilities zoning district, adjacent to a water tower located at the northeast end of Cordillera Drive, on a parcel owned by the Las Virgenes Municipal Water District (LVMWD). The subject site is currently improved with two other wireless facilities; a T-Mobile facility (constructed in 2001 under approved CUP No. 01-13) and an AT&T facility (constructed in 2005 under approved CUP No. 05-07) Both facilities are comprised of three monopoles and associated ground and pole-mounted equipment, with the existing berm serving to screen the water tank and existing wireless facilities from view of any neighboring homes.

2. Proposed Project: The applicant is requesting permission to construct a new Wireless Telecommunications Facility which includes stealth measures that qualify the project for processing as a "Tier 1" Wireless facility permit, as defined in Section 17.31.040 of the Calabasas Municipal Code (CMC). The proposal includes the installation of three new monopoles and associated new pole-mounted and ground-mounted equipment, as well as incorporating concealment elements to maintain the same 'stealth' design as other facilities on the subject site and subject to Tier 1 permit processing. The concealment elements include painting new equipment to match the existing water tank and the adjacent wireless facilities, and utilizing the existing berm surrounding the water tank to screen the equipment from view of adjacent homes.
3. Calabasas Municipal Code Requirements: Section 17.31.040 of the CMC regulates the construction, maintenance, and modification of 'stealth' wireless telecommunication facilities within the City of Calabasas via a Tier 1 Wireless Telecommunication Facility Permit. The proposed project includes 'stealth' elements such as painting of monopoles and equipment, and screening from view of adjacent properties by the existing berm. As a result, the applicant has filed for a Tier 1 Wireless Telecommunication Facility Permit to perform the requested installation.

FINDINGS:

Section 17.31.040(F) stipulates that the Director may approve an application for a Tier 1 wireless telecommunication facility permit, only if each of the following findings can be made:

1. *The proposed wireless telecommunication facility meets the standards set forth in Sections 17.31.030 and 17.31.040;*

The project site is an existing water tank, with two other carriers' facilities currently surrounding the water tank. The proposed wireless facility consists of three monopoles, associated antennas, and ground-mounted equipment. The proposed poles and pole-mounted equipment will be painted to match the existing water tank, consistent with the stealth measures of the existing carriers' facilities at the subject site. Additionally, the existing berm around the water tank serves to screen the existing tank and wireless facilities from view of the neighboring properties. The proposed project meets all the standards for wireless telecommunication facilities not located within the public right-of-way, as outlined in Section 17.31.030(A)(2) of the CMC. Additionally, the proposed project meets the standards of Section 17.31.040(C)(2) for Tier 1 facilities not located within a public right-of-way, including that the project includes stealth measures for the facility in order to meet the stealth design criteria established by the City's Wireless Telecommunication Facility Design Guidelines. As a result, the proposed project meets this finding.

2. *The proposed wireless telecommunication facility is designed as a stealth facility consistent with the city's design guidelines for Tier 1 wireless telecommunication facilities;*

The proposed facility will be located at the site of the Cordillera water tank, which is currently improved with other wireless facilities for T-Mobile and AT&T. The existing facilities are stealth facilities comprised of monopoles and pole-mounted equipment all painted to match the existing water tank, and ground mounted equipment screened by the existing berm. The proposed new Verizon facility will utilize the same stealth design measures as the other existing facilities, with poles and pole-mounted equipment painted to match the existing water tank and for compliance with the Wireless Telecommunication Facility Design Guidelines. Therefore, the proposed project meets this finding.

ENVIRONMENTAL REVIEW:

The City's staff has determined that the project is exempt from environmental review in accordance with Section 21084 of the California Environmental Quality Act (CEQA) and Sections 15301 Class 1 (a), 15301 Class 1 (b), 15302 Class 2 (c), and Section 15332 Class 32, of the CEQA Guidelines.

CONDITIONS OF APPROVAL:

See the attached conditions in Exhibit A.

I have read and agree to the indemnification agreement and attached conditions of approval listed in Exhibit A.

Applicant/Carrier Representative

Date

DECISION:

The Director or his/her designee has considered all of the evidence submitted into the administrative record including, but not limited to:

1. All applicable codes and regulations including the City of Calabasas Land Use and Development Code and the City's General Plan;
2. Plans provided by the applicant, as well as any written information; and
3. All related documents, including any necessary environmental documents in order to comply with the California Environmental Quality Act (CEQA), received and/or submitted to the Department.

After considering all of the evidence submitted into the administrative record listed above, I hereby make the following decision:

DECISION LETTER AND REPORT**

EXHIBIT A: CONDITIONS OF APPROVAL

FILE NO.: WTF1-2023-008

PROPOSAL: A request for a Wireless Telecommunication Facility – Tier 1 Permit to construct a new stealth Verizon wireless telecommunication facility located at the Cordillera water tank, at 24800 Cordillera Dr (APN: 2069-078-900), within the Public Facilities (PF) zoning district.

APPLICANT: Michael Hasegawa - Delta

1. The City has determined that City, its employees, agents, and officials should, to the fullest extent permitted by law, be fully protected from any loss, injury, damage, claim, lawsuit, expense, attorney fees, litigation expenses, court costs or any other costs arising out of or in any way related to this File No. WTF1-2023-008 and the issuance of any permit or entitlement in connection therewith, or the activities conducted pursuant to this File No WTF1-2023-008 and the issuance of any permit or entitlement in connection therewith. Accordingly, to the fullest extent permitted by law, the applicant and the carrier, and their successors shall defend, indemnify and hold harmless City, its employees, agents and officials, from and against any liability, claims, suits, actions, arbitration proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including, but not limited to, actual attorney fees, litigation expenses and court costs of any kind without restriction or limitation, incurred in relation to, as a consequence of, arising out of or in any way attributable to, actually, allegedly or impliedly, in whole or in part, related to this File No. WTF1-2023-008 and the issuance of any permit or entitlement in connection therewith, or the activities conducted pursuant to this File No. WTF1-2023-008 and the issuance of any permit or entitlement in connection therewith, the applicant and the carrier, and their successors shall pay such obligations as they are incurred by City, its employees, agents and officials, and in the event of any claim or lawsuit, shall submit a deposit in such amount as the City reasonably determines necessary to protect the City from exposure to fees, costs or liability with respect to such claim or lawsuit.
2. The project approved herein is depicted on those sets of drawings, elevations, etc., stamped approved by staff on the approval date. Any modifications to these plans

must be approved by the Community Development Director prior to the changes on the working drawings or in the field.

3. The subject property shall be developed, maintained, and operated in full compliance with the conditions of this grant and any law, statute, ordinance or other regulation applicable to any development or activity on the subject property. Failure of the applicant or its successors to cease any development or activity not in full compliance shall be a violation of these conditions. Any violation of the conditions of approval may result in the revocation of this approval.
4. This approval shall be valid for one year and eleven days from the date of this decision letter. The permit may be extended in accordance with Section 17.64.050 of the Land Use and Development Code.
5. Prior to commencement of construction, all necessary permits shall be obtained from the Building and Safety Division and Public Works Department.
6. The project is located within a designated "Very High Fire Hazard Severity Zone". All applicable requirements of Los Angeles County Building Code must be incorporated into all plans.
7. The applicant and contractors shall implement all reasonable efforts to reuse and recycle construction and demolition debris, to use environmentally friendly materials, and to provide energy efficient buildings, equipment, and systems. The applicant shall provide proof of recycling quantities to get final clearance of occupancy.
8. Per the Calabasas Municipal Code Chapter 8.16, "no person shall collect and/or dispose of municipal solid waste or recyclable materials in the city without having first been issued a solid waste collection permit. Such permit shall be in addition to any business license or permit otherwise required by the City of Calabasas." Please contact the Public Works Department for a list of permitted haulers. An Encroachment Permit is required prior to placing a refuse bin/container on the street.
9. Construction Activities - Hours of construction activity shall be limited to:
 - i. 7:00 a.m. to 6:00 p.m., Monday through Friday
 - ii. 8:00 a.m. to 5:00 p.m., Saturday

Stacking of construction worker vehicles, prior to 7:00 a.m. in the morning will be restricted to areas that do not adversely affect adjacent residences or schools. The applicant or its successors shall notify the Public Works Director of the construction employee parking locations, prior to commencement of construction.

10. No additional equipment not included or specified in the stamped approved plans may be installed on the subject site under this permit.
11. As-Built Plans. The applicant shall submit to the director an as-built set of plans and photographs depicting the entire small wireless facility as modified, including all transmission equipment and all utilities, within ninety (90) days after the completion of construction.
12. Indemnification. To the fullest extent permitted by law, the applicant and any successors and assigns, shall defend, indemnify and hold harmless [the] city, its employees, agents and officials, from and against any liability, claims, suits, actions, arbitration proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including, but not limited to, actual attorney fees, litigation expenses and court costs of any kind without restriction or limitation, incurred in relation to, as a consequence of, arising out of or in any way attributable to, actually, allegedly or impliedly, in whole or in part, related to the small wireless facility permit and the issuance of any permit or entitlement in connection therewith. The applicant shall pay such obligations as they are incurred by [the] city, its employees, agents and officials, and in the event of any claim or lawsuit, shall submit a deposit in such amount as the city reasonably determines necessary to protect the city from exposure to fees, costs or liability with respect to such claim or lawsuit.
13. Compliance With Applicable Laws. The applicant shall comply with all applicable provisions of this Code, any permit issued under this Code, and all other applicable federal, state, and local laws. Any failure by the city to enforce compliance with any applicable laws shall not relieve any applicant of its obligations under this Code, any permit issued under this Code, or all other applicable laws and regulations.
14. Compliance With Approved Plans. The proposed project shall be built in compliance with the approved plans on file with the planning division.
15. Violations. The wireless facility shall be developed, maintained, and operated in full compliance with the conditions of the small wireless facility permit, any other applicable permit, and any law, statute, ordinance or other regulation applicable to any development or activity on the site. Failure of the applicant to cease any development or activity not in full compliance shall be a violation of these conditions. Any violation of this Code, the conditions of approval for the small wireless facility permit, or any other law, statute, ordinance or other regulation applicable to any development or activity on the site may result in the revocation of this permit. The remedies specified in this section shall be cumulative and the city may resort to any other remedy available at law or in equity and resort to any one remedy shall not cause an election precluding the use of any other remedy with respect to a violation.

16. Sector 2 microwave azimuth shall be at 225°; any deviation from the approved antenna azimuths shall be subject to approval of the Community Development Department, as a revision to the approved plans.
