I strongly support this modification. My wife has noticed this type of behavior and is concerned. We have also seen an increase at our home of solicitors that do not take no for a response and get hostile. Thank you

Good Afternoon Councilmembers:

I am a Calabasas resident and have lived in this City with my family for approximately 16 years. I am sending this email to voice my support of proposed Ordinance No. 2024-407. The increase in aggressive and unsafe solicitation in the City is not only disturbing, but it compromises the safety and wellbeing of all residents and businesses. This public safety issue cannot be ignored.

As some of you know, I formed the Mulwood Neighborhood Watch over 14 years ago and helped to form multiple other neighborhood watches within the City including Saratoga Ranch and Mulholland Heights. I was honored to be appointed to, and served on, the City's Public Safety Commission during Fred Gaines dedicated years of service. It has been a pleasure volunteering my time to help educate and raise awareness on important safety matters to the community.

I appreciate your continued dedication to the safety and welfare of all residents and for all your continued great work.

Dear Mayor Weintraub,

I am writing to express my support for the Council's enactment of Ordinance No. 2024-407, which I understand will be introduced during the August 28, 2024 City Council meeting. I know of many individuals who have been the subject of aggressive solicitation in parking lots within the City limits, and myself have encountered at least one individual in the Commons parking lot. While I sympathize with anyone who is forced to solicit help from strangers, in my experience, many of these individuals suffer from significant mental illness (which is why they often act in an aggressive manner), and can pose a threat to residents. As a woman and a mother of a young child, I appreciate any efforts the City can take to reduce and/or eliminate aggressive and/or unsafe solicitation.

Thank you for your time and attention to this matter.
