Office of **FINANCE**

A Leader in "Transparent Accounting"

Gary J. Lysik, Chief Financial Officer, 26135 Mureau Road, Calabasas, CA 91302 (818) 878-4225 FAX (818) 878-4215 http://www.cityofcalabasas.com

December 28, 2005

The Honorable Mayor Barry Groveman The Honorable Members of the City Council Citizens of the City of Calabasas, CA

LETTER OF TRANSMITTAL

The Comprehensive Annual Financial Report (CAFR) represents a compilation of financial data that details the City's financial workings. Information contained in this report was prepared in strict accordance with guidelines set forth by the Government Finance Officers Association (GFOA) and the California Society of Municipal Finance Officers (CSMFO). With this writing, the City of Calabasas' Office of Finance is pleased to be among the first of many California cities to fully implement GASB 44 as a part of their CAFR. The CAFR is intended to provide readers with a clearly articulated, user-friendly reporting of the City's financial affairs. As such, the City assumes responsibility for content accuracy, completeness, and objectivity of the presentation.

The CAFR is presented in three primary sections:

- 1) *Introductory Section* includes this letter of transmittal, a list of principal officials, an outline of city management staff, an organization chart, and a map of the City.
- 2) Financial Section consists of the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), financial statements, notes to the financial statements, and required supplementary information.
- 3) Statistical Section supplies specific financial information on a multi-year basis and provides general demographic data.

Within the CAFR, readers will find reporting on all funds and account groups for the City of Calabasas. In accordance with the criteria established by GASB Statement No. 14, the City of Calabasas Facilities Corporation's financial data has been included within the City's general purpose financial statements as a "blended" component unit because the primary government is financially accountable for the Corporation.

THE PRIMARY GOVERNMENT

The City of Calabasas was incorporated on April 5, 1991. It is classified as a general law city because it is reliant upon California state law to define procedural regulations utilized by City Council. Through a

general election process, the five-member council is elected to staggered four year terms. The council serves as the City's primary governing body.

In April of each year the council selects one of its members to serve as Mayor and one to serve as Mayor Pro Tem. Calabasas City Council retains authority over the management of the City. Additionally, a City manager oversees daily functions and ensures that directions of the council are carried out.

For financial reporting purposes, the primary government consists of all legally joined funds, organizations, agencies, boards, commissions, and authorities that are considered part of the City's legal domain.

Additionally, reporting for contractual services provided by Los Angeles County or private vendors such as law enforcement, fire protection, animal control, public works maintenance, park maintenance, and traffic signal maintenance are also included in the financials. Reporting for other contractual services such as refuse collection, landscape maintenance, street sweeping, crossing guards, parking administration, janitorial services, and major capital projects is included as well. The City provides Planning, Building and Safety, Code Enforcement, Engineering, Traffic and Transportation, Recreation Programs, Media Operations, Financial Support, and Administrative Services with City employees.

THE CITY OF CALABASAS

Situated approximately 25 miles west of downtown Los Angeles (8 miles east of the Ventura County line), Calabasas is located in western Los Angeles County in the foothills of the Santa Monica Mountains National Recreation Area and adjacent to the San Fernando Valley. The first recorded occupation in the area was by Chumash Native Americans who settled along the banks of Calabasas Creek during the mid-1800s. Today, neighboring communities include Agoura Hills, Malibu, Westlake Village and Hidden Hills.

The City's distinctive character is in part derived from its natural environment, oak-studded hillsides, and natural open space. Other notable characteristics include its physical diversity, small town atmosphere, and active population.

Primary access to this community is from the 101 Ventura Freeway or by taking Malibu Canyon Road north four miles from Pacific Coast Highway.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

Accurate accounting of the City's assets is essential to safeguard against loss and misrepresentation. Calabasas' system of accounting establishes solid control of the City's financial assets and allows for

CITY of CALABASAS, CALIFORNIA INTRODUCTORY SECTION – Letter of Transmittal

budgeting and reliable performance reporting. It provides for the proper recording of financial transactions and lends itself to the establishment of accurate financial statements.

The City's recently adopted financial approach includes a two-year budget that is approved on an annual basis. In other words, each year the City Council is presented with a new, rolling two-year budget for approval. One benefit resulting from this approach is that the City always has at least a 12-month (lookahead) budget that has not yet been executed. From a budgetary standpoint, providing a longer forward plan better prepares staff to manage future projects. It should be noted that although in its infancy, this approach has already proven beneficial, particularly in regards to the Capital Improvement Program (CIP).

CAPITAL IMPROVEMENTS

Calabasas' Capital Improvement Program is a component of the budget process and addresses the City's short and long-term capital needs. The CIP includes a plan to effectively maintain existing infrastructure as well as provide new facilities to support population growth and replace older assets that are no longer useful or are unsafe. Among the City's future capital projects is the construction of a new Civic Center campus, which is to include a City Hall, a new Library, and underground parking. Additionally, the City has highlighted projects to improve transportation in and around Calabasas.

CASH MANAGEMENT

The City makes investments in accordance with the provisions of Government Code Section 53600, et seq. and of the City's Investment Policy. The standard of prudence used by investment officials of the City is the "prudent person" standard which states that investments shall be made with judgment and care – under circumstances then prevailing – which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived. The criteria for selecting investments and the absolute order of priority shall be: 1) safety, 2) credit risk, 3) market risk, 4) Liquidity, and 5) yield.

The City invests in two different investment vehicles including the State Treasurer's Local Agency Investment Fund (LAIF) and in securities issued by the U.S. Government. The average yield on investment for the year was 3.88%, with total earnings for all funds equaling \$1,335,349.

RISK MANAGEMENT

As a California Joint Powers Insurance Authority (CJPIA) member, the City of Calabasas maintains full coverage for all municipal events under its general liability policy. This policy provides for total coverage, including bodily injury, property damage, or personal injury. In addition to general liability, the City

maintains coverage for automobiles, workers' compensation, property, environmental, public official bonds, and special events.

LOCAL ECONOMIC CONDITION AND OUTLOOK

Calabasas is one of America's wealthiest communities with a current per capita income of \$53,812, which is 2.4 times that of the State of California. At \$112,339, the median household income in Calabasas in 2005 was nearly twice that of the State of California. The median age of Calabasas residents in 2005 was 38.1, while the median age in the United States as a whole was 35.3 years.

As with the greater region, the local area housing market has been characterized by substantial growth in the number of units and values over the last 20 years. Reflecting the severity of the recent recession, pricing and the number of units sold dropped in the early 1990's only to rebound significantly during the last five years. Further cause for increased demand and rising prices is the limited number of new projects being built in the City. The median home value was \$782,000.

Labeled a business friendly city, Calabasas continues to entice companies to relocate to and remain in the City by refraining from charging a business tax. As a result, the City enjoys a strong and diverse business and retail base both of which contribute greatly to revenue received through sales tax. All indicators predict a very strong financial future for the City.

ACCOMPLISHMENTS

The financial state of the City of Calabasas is better today than prior fiscal years. The City's higher credit rating recently issued by Moody's provides a solid testimony to this assertion. Fundamentally, the improved positioning of the City's finances is a relational byproduct of clearly defined, consistent management practices and responsible stewardship of the City's assets. Following are undertakings that have helped to strengthen the City's financial stability.

1. Refunding the existing 1999 Certificates of Participation (COPs).

The 1999 COPs (\$6.345 million) were issued to a) purchase Creekside Park, b) purchase the future Civic Center site, and c) refund the Mello Roos Tax associated with the Civic Center site. A strategic decision to refund the 1999 COPs allowed for the removal of all encumbrances on the property on which the new civic center will be constructed. The significance of detaching the civic center site from the 1999 bond issuance eliminates the exposure of a reduction or nullification of the grant issued by the California State Library, Office of Library Construction for the construction of the new library due to ownership issues. The potential savings of this effort is the amount of the grant from the Office of Library Construction totaling \$8.2 million.

Refunding also allowed the City to take advantage of historically lower interest rates enabling the City to pay off the amount owed for Creekside Park 12 years earlier than its originally scheduled term. Actual gross saving realized as a result of this action is over \$3.0 million.

2. Revamp instead of replace the City's Financial Tracking System.

Since its incorporation the City has used a financial tracking system [Fund Balance] to keep record of its financial transactions. However, years of growth and increased financial intricacies has significantly burdened the system. Rather than retire the existing system, Fund Balance has been revamped thereby allowing for system performance enhancement while saving the City nearly \$650,000 - the cost of an adequate system replacement.

3. Grant Management

A grant reimbursement program was instituted. As a result of the program, grant reimbursement requests submitted total \$3,074,904.59. Of this, \$2,738,706.09 has been collected.

ACKNOWLEDGEMENTS

Within the Department of Finance, I am particularly proud to be at the helm of a committed team of individuals, each contributing to the soundness of the numbers and to the accuracy in which they are reported.

- Luisa Barancik: painstakingly prepared payments to vendors of the City and had a careful eye for ensuring proper coding and correctness regarding the issuance of money for payment.
- Paul Chung: did an outstanding job at keeping track of revenue received by the City and administering payroll for all City employees (including those from the Community Center), in an accurate and timely fashion.
- Natalie Fridman: contributed greatly to preparing and maintaining accurate records regarding refundable deposit accounts. Her commitment to ensuring that each individual project was properly and completely accounted for was essential to building and maintaining community confidence.
- Lesley Pelka: made significant contributions in numerous ways, from the day-to-day postings of all accounting transactions to interfacing directly with the auditors. She was committed to meeting established deadlines and completing a multitude of different assignments.
- Claudia Reyes: contributed greatly by identifying and gathering data required for GASB 44 compliance.

 Throughout the year, she was also responsible for the reconciliation of the bank account statements which ensured that the City's financial records were accurate and free from material misrepresentation.
- Shaylene Stepner: was responsible for the accuracy and maintenance of the Grant Fund (Fund 36) and all related components. She provided requested information to the auditors regarding grant activity in a timely and accurate fashion. Additionally, she provided a contract log making it easier to verify agreements with vendors for payment purposes.

CITY of CALABASAS, CALIFORNIA
INTRODUCTORY SECTION – Letter of Transmittal

Sandy Smith: made contributions in almost every facet of the department. Assisting with gathering data for

the preparation of the CAFR, her presence continues to provide value and efficiency.

Karlo Gorgon (Media Department): for his willingness to provide hands-on support as it relates to media

consultation.

Certainly the Mayor (Barry Groveman), council members (James Bozajian, Mary Sue Maurer, Jonathon

Wolfson, and Mayor Pro Tem Dennis Washburn), and the city manager (Tony Coroalles) must be

acknowledged for providing a design template for cultivating a strong finance organization.

INDEPENDENT AUDIT

For the fiscal year ended June 30, 2005, the City's financial statements were audited by the certified public

accounting firm of Moss, Levy & Hartzheim to ensure that the financial statements of the City were free of

material misstatement. The audit a) examined activities, documents, and disclosures used to create the

financial statements, b) assessed the accounting principles used by management, and c) evaluated the

overall financial statement presentation. The results of the audit are as follows:

• The City's financial statements are free of material misstatement and are presented in accordance

with Generally Accepted Accounting Principles (GAAP).

Internal control over financial reporting and its operation was considered free from material

weaknesses.

• Financial statements fairly depict the respective financial position of governmental activities,

business-type activities, and each major fund as of June 30, 2005.

In this, it is my goal to provide readers and citizens an accurate depiction of the financial standing and

activities regarding the City of Calabasas.

Respectfully submitted,

Gary J. Lysik, Chief Financial Officer

City of Calabasas

Mission and Value Statements

Mission Statement

In a spirit of excellence, integrity, and dedication, the Finance Department is committed to providing timely, accurate, clear, and complete information and support to other City departments, citizens, and the community at large.

Values

Quality

A high standard of excellence drives Finance to provide outstanding levels of support, service, and products. The Department strives to be exemplary in all activities and continuously exceed expectations.

Integrity

The Finance Department commits to conforming to the highest level of ethical standards. The services and decisions we offer will be honest, fair, and impartial.

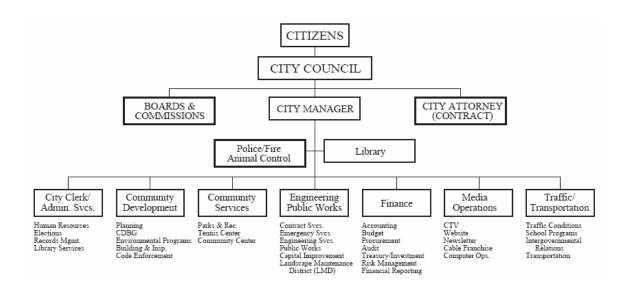

Leadership

The Department leads by example while encouraging growth and advancement in the organization. Finance provides direction through experience and desires to be acknowledged as the "Go-To Organization" for critical decision making needs.

Teamwork

Finance aims to make the best decisions collectively and in the best interest of the City. As a team, we capitalize on the strengths of each member. In this way, we "Advance the Flame" and provide superior support for staff members and residents.

INDEPENDENT AUDITOR'S REPORT

The Honorable City Council Of the City of Calabasas Calabasas, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Calabasas, California, as of and for the fiscal year ended June 30, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Calabasas's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Calabasas, California, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund, Developer Impact Fees Special Revenue Fund, Landscape District Maintenance Special Revenue Fund, and Grants Special Revenue Fund for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2005 on our consideration of the City of Calabasas internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts

and grant agreements and other matters. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance.

The Management's Discussion and Analysis on pages 23 through 38 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining nonmajor fund financial statements, major capital projects budgetary comparison schedule, nonmajor funds budgetary comparison schedules, combining agency fund statement of net assets, statement of changes in assets and liabilities agency funds, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining nonmajor fund financial statements, major capital projects budgetary comparison schedule, nonmajor funds budgetary comparison schedules, and combining agency fund statement of net assets, and statement of changes in assets and liabilities agency funds have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Moss, Levy & Hartzheim October 28, 2005

Mus, Keny V shatskin

Management's Discussion and Analysis

Management's Discussion and Analysis (MD&A) Fiscal Year Ended June 30, 2005

Note: Throughout this discussion the term "City" as used herein refers to The City of Calabasas and all subordinate entities falling under its immediate financial domain.

Management's Discussion and Analysis (MD&A) is presented as a supplement to the City's financial statement. The MD&A offers an objective narrative of the City's financial activities based upon facts, decisions, and conditions known to management as of the auditor's report date for the fiscal year ended June 30, 2005. Readers are encouraged to utilize this report in conjunction with the information outlined in the City's financial statements and notes to the financial statements (found on subsequent pages). A summary of the fiscal year's financial picture immediately follows.

Summary Highlights

- City assets exceeded liabilities by \$79.3 million
- Total net assets increased by \$11.1 million
- Combined ending fund balances for governmental funds experienced a 20% increase
- \$37.5 million available for the City's governmental activity
- Unreserved fund balance for the general fund was \$19.4 million

OVERVIEW OF THE FINANCIAL STATEMENTS

This document memorializes the financial activities of the City from an unaudited managerial perspective using an integrated approach as prescribed by GASB Statement No. 34. Its goal: To provide readers with an easy-to-understand user friendly overview of the City's basic financial statements that are inclusive of 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. Additionally, this financial report is in full compliance with GASB Statement No. 44 one year earlier than required by the Governmental Accounting Standards Board. GASB 44 adds new information in the statistical section that users have identified as important and eliminates certain previous requirements. This statement specifies that the statistical section should include ten-year trends in three types of operating information: government employment levels, operating statistics, and capital asset information. This Statement also clarifies certain features of previously required information, such as which governmental funds to include in information about trends in changes in fund balances.

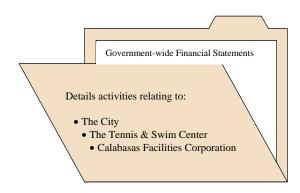

Information outlined in government-wide financial statements is drawn from numerical data relating to the City's major funds. Government-wide financial statements detail all capital assets, including infrastructure, depreciation and long-term debt. Examples covered in this printing include general, special revenue, capital projects, and non-major governmental funds. Fund financial statements primarily contain information about

short-term fiscal accountability for governmental funds and longer-term operational accountability for proprietary and agency funds such as the Tennis and Swim Center and the Las Virgenes Parking Authority Fund respectively. Notes to the financial statements include support and other qualifying documentation as warranted.

The aforementioned are covered in subsequent sections.

Government-wide financial statements.

As previously discussed, government-wide financial statements detail all capital assets, including infrastructure, depreciation, and long-term debt. Specifically, these statements are designed to provide an expansive overview of the City's finances. Given its scope and in an effort to adequately present this data in a comprehensible format, government-wide financial statements are divided into two subcategories, the Statement of Net Assets and the Statement of Activities. These statements reasonably chart long- and short-term information regarding the City's financial condition.

The City's statements provide a manageable yet comprehensive view of the City's economic position, appropriately accounting for all revenue and expenses during the specified fiscal year. To accomplish this, government-wide financial statements are reported utilizing the flow of economic resources (cost of services) measurement focus and the accrual method of accounting. Using the flow of economic resources measurement focus allows the City to provide financial transparency insofar as all assets and liabilities are listed on the Statement of Net Assets. The added use of the accrual basis of accounting allows the City a 'real-time' advantage as revenues are recognized when earned and expenses are recognized when incurred.

The Statement of Net Assets outlines the City's assets and liabilities. The difference between the assets and liabilities is recorded as net assets (assets - liabilities = net assets). While fluctuations are expected, over time increases or decreases in the City's net assets could be used to gauge the City's financial standing in order to ascertain whether it is improving or deteriorating.

The *Statement of Activities* demonstrates how the City's net assets evolve during the current fiscal year. Specifically, this statement provides comparative analysis between direct expenses and program revenues for each functional activity of the City. In this forum, net asset changes are recorded in real time when triggered by underlying events without respect to the timing of the related cash flows. Because of this it is expected that revenue and expenses for some items (such as uncollected taxes and earned but unused vacation and/or sick leave) will result in recorded cash flows in future fiscal periods.

Combined, the *Statements* reveal functions of the City that can be divided into two categories: 1) Governmental activities, and 2) Business-type activities.

Governmental activities are chiefly supported by a) taxes elicited from such sources as utility users tax, transient occupancy tax, sales tax, property tax, and franchise tax, and by b) intergovernmental revenues such as motor vehicle in-lieu fees. Governmental activities of the City are inclusive of general government, police, public works, traffic and transportation, community development, and community services such as parks and recreation. As mentioned earlier, tax revenue principally funds these activities. Consequently, a good portion of the City's basic services is reported in this category.

CITY of CALABASAS, CALIFORNIA

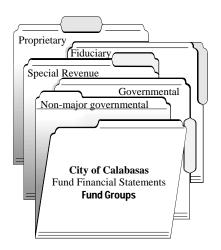

FINANCIAL SECTION - Management's Discussion & Analysis

Component units are legally separate entities that the City is either financially accountable for or shares a significant relationship with in such a way that their exclusion would cause the City's financial statements to be misleading or incomplete. The Calabasas Facilities Corporation (termed the "Corporation") meets the criteria of component unit classification and has thus been included as a blended component unit in the governmental activities statements.

Business-type activities are funded in large part through the assignment of user fees charged to external parties for goods or services. In other words, the City charges a fee to parties to cover all or most of the cost of certain services it provides. The City's Tennis and Swim Center is reported in this category.

Fund Financial Statements.

Fund Financial Statements cover segregated groupings of related accounts whose funds have been designated for specific activities or purpose. They provide a detailed accounting of revenue and expenditures, assets and liabilities, and remaining fund balances for each fund. This helps to ensure and demonstrate finance–related legal compliance.

Fund financial statements differ from activity reports due to the way capital outlay, depreciation, long-term debt, compensated absences, deferred revenues, and intergovernmental receivables are reported. The impact of these differences is laid out in the notes accompanying the financial statements.

Funds required by State law and by bond covenants (i.e., Proposition A & C, and Highway Users Tax) are part of the fund financial statements. Likewise, other funds (i.e., Developer

Impact Fees, Grants, and Storm Damage) established to provide the City with tighter fiscal controls and accountability are itemized on these statements. The following sections provide a more in-depth detailing of the fund groups.

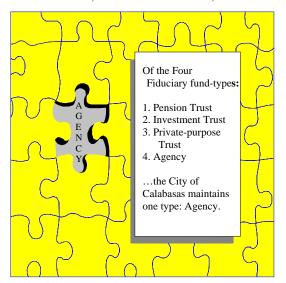

Governmental funds are reported in essentially the same fashion as governmental activities in the government-wide financial statements with an exception----governmental fund financial statements focus on near-term inflows and outflows of spendable resources and balances of spendable resources. This means governmental fund financial statements identify current sources and uses of money within the immediate fiscal year. Benefits derived include a detailed *short-term view* of the City's general government operations and the basic services it provides, which assist in determining whether there are sufficient financial resources available to meet the City's current needs.

Since the scope of the governmental funds is different than that of the government-wide financial statements, it is beneficial to comparatively examine information presented for the governmental funds with information presented for governmental activities in the government-wide financial statements. From this, readers gain a clearer picture of the long-term impacts current financial decisions might yield. When examined together, the governmental funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances provide the reader with a different snapshot that identifies variances between the two different methodologies of accounting for governmental activities and governmental funds. The City maintains 21 governmental funds including the general fund.

Governmental funds statements are included in subsequent pages of this report.

Proprietary funds record revenues when they are earned and record expenses at the time liabilities are incurred. Proprietary funds can be divided into two fund types: enterprise funds and internal service funds. Enterprise funds display financial activities operating in a similar fashion to a business enterprise. Specifically, these funds account for services for which the City charges a user fee. Enterprise funds are documented in the business-type activities section of the governmental-wide financial statements. They account for operations that provide services primarily to customers outside the financial reporting entity (the City).

Internal service funds are generally used to accumulate and allocate costs internally among the City's various functions. These funds might include general benefits and insurance, duplicating and printing, office maintenance, architectural services, and information technology, to name a few. Given these services

largely benefit governmental activities rather than business-type functions, City services that might ordinarily be reported in this area have been included with governmental activities in the government-wide financial statements.

The City maintains one type of proprietary fund (the enterprise fund), which accounts for the Tennis and Swim Center. Readers will find accounting for the Tennis and Swim Center recorded in the business-type activities section of the governmental-wide financial statements. Here, all capital acquisitions are recorded as fund assets and depreciation is included as a current operating expense.

Propriety funds financial statements follow on subsequent pages of this report.

Fiduciary fund statements are used to present assets held in trust or agency capacity for others. As such, these funds cannot be used to support the City's own programs. The City oversees six agency funds that fall under the fiduciary fund type.

Agency funds report resources held by the City in a purely custodial capacity (assets = liabilities). Generally, management of agency funds typically involves the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

The City holds funds for the following agencies: 1) Las Virgenes Parking Authority, 2) Community Facilities District 98-1, 3) Community Facilities District 2001-1, 4) Deposits, 5) Las Virgenes Unified School District, and 6) Education Fund.

The City's agency fund activities are reported in a Combining Statement of Assets and Liabilities and a Combining Statement of Changes in Assets and Liabilities. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Notes to the Financial Statements

The notes provide additional support information that is essential in assisting readers in gaining a full understanding of the data provided in the government-wide and fund financial statements.

Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *supplementary information* concerning the City's Special Revenue Funds, Debt Service Fund, and Agency Funds. Reports include schedules of revenues, expenditures, and changes in fund balances (budget and actual) for each specific fund in these three fund categories.

GOVERNMENT- WIDE FINANCIAL ANALYSIS

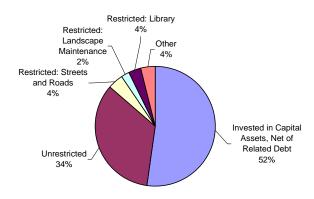

Net assets. Recall that the statement of net assets outlines the City's assets and liabilities with the delta of the two being recorded as the net assets. The City's net assets can be separated into three primary categories: 1) Capital assets – net of related debt, 2) unrestricted assets, and 3) restricted assets. As shown in Chart 1, the largest portions of the City's net assets are found in capital assets – net of related debt (52%) and unrestricted assets (34%). The percentage of net assets subject to external use restrictions makes up 14% of the net asset portfolio. Streets and roads, library, and landscape maintenance fall under this category.

For purposes of discussion, 52% of the City's net assets are derived from investments in capital assets such as land, buildings, machinery and equipment – net of accumulated depreciation, minus the remaining outstanding debt related to these acquisitions. Despite equity gains that might be experienced, capital assets are not available for future spending since they are tangible assets used to provide services to citizens. Consequently, resources required to address related debt must be secured from other sources.

Chart 1 Percentage of net assets by asset type and category.

Chart 1

Net Assets - Primary Government
For the Fiscal Year Ended June 30, 2005
(as a percent)

Thirty-four percent (\$27.1 million) of the City's net assets are unrestricted meaning they can be used in any way (subject to the approval of council) to meet the City's ongoing obligations to citizens and creditors. As

shown in Table 1, positive balances in all three categories of net assets, for both the government as a whole, as well as for its separate governmental and business-type activities are reported. Additionally, Table 1 presents condensed financial information derived from the Statement of Net Assets.

Changes in net assets. Current fiscal year changes in net assets reflect an increase by \$11.1 million dollars (16.3%) over the prior fiscal year bringing the total net assets for both governmental activities and business-type activities to \$79.3 million. The increase can be attributed to an overall reduction in general government reportable expenses for governmental activities coupled with a relatively steady contribution of revenue. Table 2 further details the contributing factors regarding the change in net assets for the primary government.

Table 1. Condensed financial information derived from statement of net assets.

Table 1

| Total Net Assets | \$ | 76.7 | \$ 65.5 | \$ | 2.6 | \$ | 2.7 | \$ | 79.3 | \$ | 68.2 |

Governmental activities. As stated earlier, taxes and intergovernmental revenue chiefly support governmental activities.

Governmental activities expenses totaled \$21.2 million. Of this, \$8.0 million (community services department expenses) and \$4.4 million (general government department expenses) account for slightly greater than 50% of governmental activity expenditures. City funding for governmental activities was derived from \$17.7 million (55%) in general revenue and such sources as program revenue, which contributed \$14.6 million (45%). Program revenue funds were secured from \$10.1 million in charges for services and \$4.5 million grant money.

The City's governmental activities have been accounted for in six departmental categories: 1) Community services, 2) general government, 3) public safety, 4) public works, 5) other, and 6) community development (see Chart 2).

Total net assets for governmental activities were \$76.7 million representing an upward adjustment of \$11.2 million since the fiscal year ended June 30, 2004. Chart 3 presents a four-year comparison of net assets for governmental activities.

CITY of CALABASAS, CALIFORNIA FINANCIAL SECTION – Management's Discussion & Analysis

As of this printing, tax revenue (45%) was the single greatest source of City revenues for governmental activities. Total tax revenues collected for governmental activities improved by \$0.8 million compared to the prior fiscal year. A strong economy and the boost in new automobile sales contributed to the increase in sales tax revenue. Charts 4 and 5 present the percentage of total expenses for each program of governmental activities and the percentage of total revenues by source.

Table 2 Condensed financial information derived from the statement of activities.

|---|---|
| Expenses - Governmental Activities For the Fiscal Year Ended June 30, 2005 (as a percent) | Revenues by Source - Governmental Activities For the Fiscal Year Ended June 30, 2005 (as a percent) |

Business-type activities. As mentioned earlier, business-type activities are funded in large part through the assignment of user fees imposed on external parties in exchange for goods or services. The Tennis and Swim Center (the "Center") is reported in this category. Business-activity revenue increased by \$0.3 million over the prior fiscal year due to stable revenue from charges for services and the absence of interfund transfers and prior period adjustments. The City's net assets for business-type activities related to the Center decreased by \$0.1 million due to slightly higher operational expenses at the center. Chart 6 shows a four-year history of net assets for business-type activities.

Chart 6 Four-year histories of total net assets for business-type activities.

At the close of the current fiscal year, total net assets for business-type activities were \$2.6 million. Revenue, mainly stemming from Center fees, totaled \$2.8 million.

As shown in the Statement of Revenues, Expenses, and Changes in Net Assets (Proprietary Fund), amounts paid to operate the facility include: \$1.4 million – outside services, \$0.5 million – supplies, and \$1.0 million – administrative costs.

FUND FINANCIAL ANALYSIS

Governmental funds. As stated, governmental funds financial statements identify current sources and uses of money. Benefits derived include a detailed *short-term view* of the City's general government operations and the basic services it provides, which assists in determining whether there are sufficient financial resources available to meet the City's current needs.

The financial position of the City's governmental funds improved when compared to the previous fiscal year. The \$19.4 million general fund balance depicts an overall gain of \$2.5 million mainly due to an increase in revenue received to this fund. The increase in revenue received from taxes can be linked to a strong economy, consequently, fund balances for the governmental funds as a whole experienced growth.

The total ending fund balance for the City's governmental funds was \$37.5 million, which represented a \$6.1 million or 20% increase over the prior fiscal year. Of the total fund balance, \$37.0 million was identified as unreserved thereby making these funds available for appropriation. The reserved portion of the fund balance totaled \$0.5 million, which is committed to debt service and to offset non-current financial resources not likely to be executed in the near term.

Revenue. Total General Fund revenue increased by \$3.6 million bringing the total revenue for the fiscal year to \$19.9 million. Of this, \$12.8 million (65%) was generated by taxes, \$3.0 million (licenses and fees), \$1.7 million (intergovernmental), \$1.2 million (charges for services), and \$1.2 million (others) represents source specific income that contributed to the general fund's total revenue balance (see Chart 7).

Expenditures. Very little change in General Fund expenditures of \$14.9 million from the prior fiscal year is noted. The slight increase (\$0.3 million) in general government expenses is attributed to increased activity in the areas of Public Safety and Community Development. Public Safety costs experienced a \$0.2 million increase because of higher cost of services performed by the County of Los Angeles. Community Service expenses remained unchanged at \$3.3 million, mostly for park maintenance programs.

Special revenue funds. Fund balances for special revenue funds (developer impact fees, landscape maintenance districts, grants) experienced a \$2.6 million increase, mostly attributed to the receipt of developer fees during the fiscal period, bringing their combined total to \$8.2 million. Total available funds for the landscape maintenance districts increased by \$0.4 million over the prior reporting fiscal year making its total fund balance \$1.8 million. Outstanding grant reimbursements not yet received but are expected total \$1.0 million.

Capital projects. The capital project fund should reflect a zero or near zero fiscal year ending balance. This is expected since capital project fund revenues are project specific and are funded by other sources in amounts equal to the amount spent. Lower from the prior fiscal year by \$1.9 million, this year's expenditures totaled \$5.3 million. Primary expenditures included \$1.9 million for public work projects, \$1.3 million for transportation projects, and \$2.1 million for costs associated with the new civic center.

Non-major governmental funds. The City's non-major governmental funds include affordable housing, the library district, bridge and thoroughfare / Lost Hills district, highway users tax, and others.

CITY of CALABASAS, CALIFORNIA FINANCIAL SECTION – Management's Discussion & Analysis

Total revenue of \$3.3 million for non-major governmental funds represents a \$0.1 million increase from last fiscal year. The major revenue sources included intergovernmental revenue at \$1.5 million, taxes at \$1.0 million, and uses of money and property at \$0.5 million. (See Chart 8).

Expenditures totaled \$2.3 million, down \$0.1 million from last fiscal year. The greatest expenditure of \$1.5 million was in the area of community services. Debt service payments for the 1999 Certificates of Participation (used to lease the proposed Civic Center Site and Creekside Park) totaled \$0.4 million. Other expenditures including Public Works projects, spending for public safety, community development, and various capital projects accounted for the remaining costs incurred (see Chart 9). The total fund balances of all non-major governmental funds decreased by \$0.3 million bringing the total fund balances to \$9.0 million (see Chart 10).

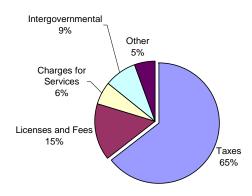

Proprietary funds. As mentioned in the business-type activities discussion, the City accounts for one proprietary fund: The Tennis and Swim Center. The Center received its operating revenue exclusively from fees associated with services. This fiscal year, total revenue received was \$2.8 million, equivalent to that of last fiscal year. Operating expenses totaled \$2.9 million, an amount greater than last fiscal year by \$0.3 million.

Fiduciary (agency) funds. The City of Calabasas has six agency funds, which consist of Las Virgenes Parking Authority, Community Facilities District 98-1, Community Facilities District 2001-1, Deposits, Las Virgenes Unified School District, and the Education Fund. Agency funds are used to account for assets held by the City as an agent for individuals, private organizations, and other governments. Assets of the agency funds total \$9.5 million.

Chart 10

Fund Balances - Non-major Governmental Funds For the Fiscal Year Ended June 30, 2005 (amounts in millions)

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets. The City's current fiscal year investment in capital assets for its governmental and business-type activities amounted to \$47.3 million (net of accumulated depreciation). Table 3 shows this investment by investment category. Depreciable property includes equipment, buildings, improvements other than buildings, and infrastructure. Infrastructure assets are items that are normally immovable and can be preserved for a greater number of years than most capital assets, such as roads, bridges, streets and sidewalks, drainage systems, and lighting systems.

Table 3 Summary of capital assets for governmental and business-type activities.

Table 3

Capital Assets

For the Fiscal Year Ended June 30, 2005 (amounts in millions)

| | | ernmental ctivities | ness-type tivities | Total | | |
|-----------------------------|----|------------------------|-----------------------|-------|--------|--|
| Land | \$ | 5.022 | \$ 0.838 | \$ | 5.860 | |
| Construction in progress | | 8.654 | 0.368 | | 9.022 | |
| Buildings | | 0.881 | 0.796 | | 1.677 | |
| Equipment | | 0.808 | 0.042 | | 0.850 | |
| Investment in joint venture | | 1.663 | - | | 1.663 | |
| Infrastructure | | 28.276 | - | | 28.276 | |
| Total | \$ | 45.304 | \$ 2.044 | \$ | 47.348 | |

Long-term liabilities. Debt liability for governmental activities decreased slightly (\$0.1 million) by last fiscal year's comparison due to normal amortization of the existing debt. In 1999, the Corporation issued \$6.345 million in Certificates of Participation (COP) for the lease of two properties: Creekside Park and the proposed Civic Center site. Total outstanding balance owed for the COP is \$6.085 million. (See Table 4).

Table 4 Summary of long-term obligations for governmental and business-type activities.

Table 4

Long-Term Obligations

For the Fiscal Year Ended June 30, 2005 (amounts in millions)

| | ernmental ctivities | ness-type tivities | Total | | |

| Compensated absences payable | 0.315 | 0.016 | | 0.331 | |
| Total | \$ 6.400 | \$ 0.016 | \$ | 6.416 | |

GENERAL FUND BUDGETARY HIGHLIGHTS

- In July 2005, the City adopted a biennial budget identifying revenue and expenditures for the twoyear period ending June 2007. Council renews the budget annually or as need arises.
- Increased revenue from taxes, licenses and fees, intergovernmental transfers, and uses of money and property caused the fiscal year revenue for the General Fund to end up \$3.9 million greater than the original budgeted amount. Total revenue received during the fiscal year was \$19.9 million, \$3.6 million greater than the previous fiscal period.
- The City under-ran its budgeted expenditures by \$0.5 million, mostly in the areas of community development and public works.
- Net of transfers and prior period adjustments, the General Fund's ending fund balance for fiscal year ended June 30, 2005 was \$19.4 million, up \$2.5 million from the previous fiscal year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET Economic Factors

Like many California cities, the City has been called to address several economic challenges. It is expected that the future cost of inflation as it pertains to employee salaries and the cost to purchase materials including those required for the Civic Center project, and services will require focus. Higher forecasted health costs, worker's compensation, and retirement benefits will be reflected in the upcoming budget.

Revenue from sales tax generated by new automobile dealerships in the City will help defray rising costs; and, of course, revenue received from citizen participation in programs the City offers is likely to increase to deal with increasing costs associated with providing the programs. It is expected that property tax revenue and transfer tax revenue will continue to experience growth due to the rising cost of housing coupled with associated housing sales activity.

Next Year's Budget

The budget has four main purposes:

- 1. Present a clear picture to residents, council, and staff regarding the City's direction,
- 2. Provide an overview and summary of City Funds.
- 3. Identify Capital Improvement Projects (CIPs), Department / City special projects, and other discretionary spending items, and
- 4. Improve financial tracking

The 2005-06 proposed General Fund spending plan is approximately \$17.4 million.

A new two-year budget with an annual review is being developed and is slated for release on July 1, 2006. The finance department is implementing a budgetary approach that will result in a balanced budget in the general fund. The goal is to implement a budget whereby total projected expenditures will be less than or equal to total projected revenue.

It should be noted that while a balanced budget is the goal, it remains possible that individual funds may experience greater out-flows relative to in-flows for the same period. Still, those funds are expected to have a positive ending fund balance to pay for the overages.

CITY of CALABASAS, CALIFORNIA FINANCIAL SECTION – Management's Discussion & Analysis

City management, namely the City Manager and the Chief Financial Officer will be especially challenged in two areas: 1) to reduce expenditures through the discovery and implementation of cost saving programs; 2) to increase revenue through innovation.

REQUESTS FOR INFORMATION

This financial report is designed to provide interested parties with a general overview of the City of Calabasas' finances. Questions concerning the information provided in this report or requests for additional information should be addressed to:

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2005

| Net change in fund balances - total governmental funds | \$ 6,131,988 |
|---|------------------|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of these assets are allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlays exceeded depreciation in the current period as follows: | |
| Capital outlay \$ 6,811,252 | |
| Depreciation (1,490,964) | 5,320,288 |
| Repayment of certificates of participation principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. | 65,000 |
| Interest is not accrued in the governmental funds. However, it is to be accrued in the statement of activities. This is the net change. | 211 |
| Changes in compensated absences which are not recognized due to timing issues in the governmental funds are charged to expenses in the statement of activities. | (32,739) |
| Deferred revenues, not recognized in revenue in governmental fund statements because the revenue was not available within 60 days of close of fiscal year. This is the net change. | (7,500) |
| Amortization of deferred charges is not an expense of the governmental funds, but under the full accrual method is a component of interest expense. | (6,768) |
| Intergovernmental receivables are not reported as revenue in the governmental funds because it is not available within 60 days after the close of the fiscal year. This is the net change. | (318,067) |
| Change in net assets of governmental activities | \$ 11,152,413 |

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Calabasas (City) have been prepared in conformity with accounting principles generally accepted in the United States of America (USGAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The City of Calabasas was incorporated on April 5, 1991 as a "General Law" City covering approximately eleven square miles. The City operates under a council-city manager form of government.

The City of Calabasas Facilities Corporation (the Corporation) was established on December 17, 1998 for the purpose of providing financing and funding for property acquisition and public capital improvements.

The criteria used in determining the scope of the reporting entity is based on the provisions of GASB Statement 14 as amended by GASB Statement No. 39. The City of Calabasas is the primary government unit. A component unit is an entity which is financially accountable to the primary government, either because the City appoints a voting majority of the component unit's board, or because the component unit will provide a financial benefit or impose a financial burden on the City. Despite being legally separate, this entity is, in substance, part of the City's operations. Accordingly, the balances and transactions of this component unit are reported within a debt service fund of the City.

The following specific criteria were used in determining that the Corporation was a blended component unit:

- The members of the City Council also act as the governing body of the Corporation.
- The Corporation is managed by employees of the City.

There are no entities which meet the Governmental Accounting Standards Board Statement No. 14 as amended by GASB Statement No. 39, criteria for discrete disclosure within these financial statements.

B. Government-wide and Fund Financial Statement

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements and eliminations have been made to

CITY of CALABASAS, CALIFORNIA FINANCIAL SECTION – Notes to Basic Financial Statements

CITY OF CALABASAS NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statement (Continued)

minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which reply to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grant and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, the proprietary fund, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, including property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after fiscal year-end. Expenditures generally are recorded when the liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures when due. Capital asset acquisitions are reported as expenditures in governmental funds.

Property taxes, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. <u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation</u> (Continued)

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Amounts reported as program revenues include 1) charges to members, customers, or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Tennis and Swim Center are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then use unrestricted resources as needed.

The City reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in other funds.

<u>Developer Impact Fees Special Revenue Fund</u> – used to account for fees collected from developers for future projects necessitated by new development.

<u>Landscape District Maintenance Special Revenue Fund</u> – used to account for receipts and expenditures relating to the benefit assessment district for landscape maintenance.

<u>Grants Special Revenue Fund</u> – used to account for other grants requiring segregated fund accounting. Financing is provided by federal, state, and county agencies.

<u>Capital Projects Fund</u> – used to account for the acquisition and construction of major capital projects not being financed by proprietary funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. <u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation</u> (Continued)

<u>Civic Center Capital Projects Fund</u> – used to account for the construction of new city hall.

The City reports the following major proprietary fund:

<u>Tennis and Swim Center</u> - used to account for operations of the Tennis and Swim Center that are financed and operated in a manner similar to private business enterprise. Costs are financed or recovered primarily through user charges.

Additionally, the City reports the following fund types:

Governmental Funds:

<u>Special Revenue Funds</u> – used to account for proceeds of specific revenue sources that are legally restricted or otherwise designated for specific purposes.

<u>Debt Service Fund</u> – used to account for the accumulation of resources for and the payment of principal and interest on long-term debt.

Fiduciary Funds:

<u>Agency Funds</u> - used to account for assets held by the City as an agent. This fund is custodial in nature and does not involve measurement of results of operations.

D. Assets, Liabilities, Net Assets, or Equity

Cash and Investments

The City pools idle cash from all funds for the purpose of increasing income through investment. Earnings from such investments are allocated to the respective funds on the basis of applicable cash balances of each fund.

In compliance with the applicable State statute, the Statement of Investment Policy is adopted annually by the City Council. Investments authorized under the Investment Policy included:

- Local Agency Investment Fund (LAIF) State of California Investment Pool
- U.S. Treasury Obligations
- Federal Agency Securities
- Certificates of Deposit
- Savings Accounts

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, Net Assets, or Equity (Continued)

Cash and Investments (Continued)

The City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 31, "Accounting and Financial Reporting for Certain Investments and External Pools", which require governmental entities to report certain investments at fair value in the balance sheet and recognize the corresponding change in the fair value of investments in the year in which the change occurred.

The City's investments are carried at fair value which equal cost. The fair value of equity and debt securities is determined based on sales prices or bid-and-asked quotations from SEC-registered securities exchanges or NASDAQ dealers. LAIF determines the fair value of its portfolio quarterly and reports a factor to the City; the City applies that factor to convert its share of LAIF from amortized cost to fair value. Changes in fair value are allocated to each participating fund.

For purposes of the statement of cash flows for the proprietary fund, all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased are considered cash equivalents.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as interfund receivables/interfund payables (i.e., the current portion of interfund loans) or advances to/from other funds (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as interfund receivables or interfund payables.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and tax receivables are shown net of an allowance for uncollectible accounts if applicable, and estimated refunds due.

Property taxes in the State of California are administered for all local agencies at the county level, and consist of secured, unsecured, and utility tax rolls. The following is a summary of major policies and practices relating to property taxes:

<u>Property Valuations</u> – are established by the Assessor of the County of Los Angeles for the secured and unsecured property tax rolls; the utility property tax rolls are valued by the State Board of Equalization. Under the provisions of Article XIIIA of the State Constitution (Proposition 13 adopted by the voters on June 6, 1978) properties are assessed at 100% of full value. From this base of assessment, subsequent annual increases in valuation are limited to a maximum of 2%. However, increases to full value

D. Assets, Liabilities, Net Assets, or Equity (Continued)

Receivables and Payables (Continued)

Property Valuations (Continued)

are allowed for property improvements or upon change in ownership. Personal property is excluded from these limitations, and is subject to annual reappraisal.

<u>Tax Levies</u> – are limited to 1% of full value which results in a tax rate of \$1.00 per \$100 assessed valuation, under the provisions of Proposition 13. Tax rates for voter-approved indebtedness are excluded from this limitation.

<u>Tax Levy Dates</u> – are attached annually on January 1 proceeding the fiscal year for which the taxes are levied. The fiscal year begins July 1 and ends June 30 of the following year. Taxes are levied on both real and unsecured personal property as it exists at that time. Liens against real estate, as well as the tax on personal property, are not relieved by subsequent renewal or change in ownership.

<u>Tax Collections</u> – are the responsibility of the county tax collector. Taxes and assessments on secured and utility rolls which constitute a lien against the property, may be paid in two installments: the first is due on November 1 of the fiscal year and is delinquent if not paid by December 10; and the second is due on March 1 of the fiscal year and is delinquent if not paid by April 10. Unsecured personal property taxes do not constitute a lien against real property unless the taxes become delinquent. Payment must be made in one installment, which is delinquent if not paid by August 31 of the fiscal year. Significant penalties are imposed by the County for late payments.

<u>Tax Levy Apportionments</u> – Due to the nature of the City-wide maximum levy, it is not possible to identify general purpose tax rates for specific entities. Under state legislation adopted subsequent to the passage of Proposition 13, apportionments to local agencies are made by the county auditor-controller based primarily on the ratio that each agency represented of the total City-wide levy for the three years prior to fiscal year 1979.

<u>Property Tax Administration Fees</u> – The State of California FY 1990-91 Budget Act authorized counties to collect an administrative fee for collection and distribution of property taxes. Property taxes are recorded as net of administrative fees withheld during the fiscal year.

Prepaid Items

Payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, Net Assets, or Equity (Continued)

Capital Assets

Capital assets, which include property, improvements, equipment, and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial and individual cost of \$1,000. Such capital assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their fair value on the date donated. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation of all exhaustible assets used by the governmental and business-type activities is charged as an expense against their operations. Depreciation has been provided using the straight-line method over the estimated useful lives of the assets as follows:

Equipment5 yearsBuildings15 yearsImprovements other than buildings10 yearsInfrastructure20-50 years

Compensated Absences

It is the City's policy to permit employees to accumulate earned, but unused vacation benefits, which will be paid to employees upon separation from City service. Under current City policy, sick leave does not vest with the employee; therefore, a liability has not been accrued. Governmental fund types recognize the cost of vacation benefits when payments are made to employees. Since these unused vacation benefits will not be liquidated with available financial resources, a long-term liability for accrued vacation benefits is recorded. Proprietary fund types accrue vacation benefits in the period they are earned.

Long-Term Obligations

In the government-wide financial statements, and proprietary type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Amortization of bond premiums or discounts, and issuance costs are included in interest expense.

CITY of CALABASAS, CALIFORNIA FINANCIAL SECTION – Notes to Basic Financial Statements

CITY OF CALABASAS NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, Net Assets, or Equity (Continued)

In the fund financial statements, governmental fund types recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Assets and Fund Equity

In the government-wide financial statements, proprietary fund financial statements, and fiduciary fund financial statements, net assets are reported in three categories: net assets invested in capital assets, net of related debt; restricted net assets, and unrestricted net assets. Restricted net assets represent net assets restricted by parties outside of the City (such as creditors, grantors, contributors, and laws and regulations of other governments) and include unspent proceeds of bonds issued to acquire or construct capital assets. The City's other restricted net assets are temporarily restricted (ultimately expendable assets). All other net assets are considered unrestricted.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. Undesignated fund balance represents that portion of fund balance which is available for budgeting in future periods.

E. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Control and Accounting

General Budget Policies:

The City Council reviews and adopts an annual budget for the General, Special Revenue, Debt Service, and Capital Projects Funds. The City Council holds public hearings and may modify the appropriations by general approval. Budgeted amounts may be transferred between departments with the City Manager's approval. The legal level of expenditure control is at the fund level. Operating appropriations lapse at the end of each fiscal year.

The budget is reported on the same basis as the fund types and on a basis consistent with accounting principles generally accepted in the United States of America. Additional appropriations or other changes during the fiscal year may be submitted by the department for Council review and approval.

B. Excess Expenditures over Appropriations

At June 30, 2005, the following funds expenditures exceeded final budgeted appropriations:

| | Final | | | |
|--------------------------------|---------------------|----|------------|---------------|
| | Budget Expenditures | | Excess | |
| Major Funds: | | | | |
| General | | | | |
| General government | \$ 4,140,140 | \$ | 4,281,416 | \$ 141,276 |
| Community services | 3,117,850 | | 3,255,277 | 137,427 |
| Landscape District Maintenance | | | | |
| Community services | 2,675,700 | | 2,860,260 | 184,560 |
| Grants | | | | |

| Affordable Housing | | | | |
| Community development | | | 8,543 | 8,543 |

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

B. Excess Expenditures over Appropriations (Continued)

Excess of expenditures over appropriations in departments/cost centers of individual funds are as follows:

| | Final Budget Expenditures | | | | Excess | | |
|-----------------------------|---------------------------|---------|----|---------|--------|---------|--|
| Nonmajor Funds: | | | | | | | |
| Storm Damage | | | | | | | |
| Public works | \$ | - | \$ | 108,976 | \$ | 108,976 | |
| COPS - AB 3229 | | | | | | | |
| Public safety | | 100,000 | | 112,253 | | 12,253 | |
| Library District | | | | | | | |
| Community services | | 881,750 | | 903,612 | | 21,862 | |
| Debt Service | | | | | | | |
| Interest and fiscal charges | , | 309,900 | | 318,890 | | 8,990 | |

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of June 30, 2005 are classified in the accompanying financial statements as follows:

| Statement of net assets: | |
|--|------------------|
| Cash and investments | \$ 37,920,297 |
| Restricted cash and investments with fiscal agents | 468,678 |
| Fiduciary funds: | |
| Cash and investments | 5,220,160 |
| Restricted cash and investments with fiscal agents | 4,065,823 |
| Total cash and investments | \$ 47,674,958 |

Cash and investments as of June 30, 2005 consist of the following:

| Cash on hand | \$ 2,050 |
|--------------------------------------|------------------|
| Deposits with financial institutions | 3,322,293 |
| Investments | 44,350,615 |
| Total cash and investments | \$ 47,674,958 |

A. <u>Investments Authorized by the California Government Code and the Entity's Investment Policy</u>

The table below identifies the **investment types** that are authorized for the City of Calabasas (City) by the California Government Code (or the City's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address

NOTE 3 CASH AND INVESTMENTS (Continued)

A. <u>Investments Authorized by the California Government Code and the Entity's Investment Policy</u> (Continued)

interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California government Code or the City's investment policy.

| | | Maximum | N | Maximum | |
|---|----------|--------------|-----|------------|--|
| | Maximum | Percentage | Iı | nvestment | |
| Authorized Investment Type | Maturity | of Portfolio | in | One Issuer | |
| Local Agency Investment Fund (State Pool) | N/A | None | \$4 | 40 million | |
| U.S. Treasury Obligations | N/A | None | | None | |
| U.S. Government Agency Issues | 5 years | None | | None | |
| Insured Passbook on DemandDeposits with Banks | | | | | |
| and Savings and Loans | N/A | None | \$ | 100,000 | |
| Certificates of Deposit | 2 years | None | \$ | 100,000 | |
| Bankers Acceptances | | | | | |
| Commercial Paper | N/A | None | | None | |
| Mutual Funds (must be comprised of eligible | | | | | |
| securities permitted under this policy) | N/A | None | | None | |
| Money Market Funds (must be comprised | | | | | |
| of eligible securities permitted under this | | | | | |
| policy) | N/A | None | | None | |

The investment policy allows for the above investments which have equal safety and liquidity as all other allowed investments. Maturity depends on the cash needs of the City.

B. <u>Investments Authorized by Debt Agreements</u>

Investment of debt proceeds held by bond trustees are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City's investment policy. The table below identifies the **Investment types** that are authorized for investments held by bond trustee. The table also identifies certain provisions of these debt agreements that address **interest rate risk, credit risk, and concentration of credit risk**.

NOTE 3 CASH AND INVESTMENTS (Continued)

B. Investments Authorized by Debt Agreements (Continued)

| | | Maximum | Maximum | | |
|---|----------|--------------|---------|------------|--|
| | Maximum | Percentage | In | vestment | |
| Authorized Investment Type | Maturity | of Portfolio | in (| One Issuer | |
| Local Agency Investment Fund (State Pool) | N/A | None | \$4 | 0 million | |
| U.S. Treasury Obligations | N/A | None | | None | |
| U.S. Government Agency Issues | 5 years | None | None | | |
| Insured Passbook on DemandDeposits with Bar | nks | | | | |
| and Savings and Loans | N/A | None | \$ | 100,000 | |
| Certificates of Deposit | 2 years | None | \$ | 100,000 | |
| Bankers Acceptances | | | | | |
| Commercial Paper | N/A | None | | None | |
| Mutual Funds (must be comprised of eligible | | | | | |
| securities permitted under this policy) | N/A | None | | None | |
| Money Market Funds (must be comprised | | | | | |
| of eligible securities permitted under this | | | | | |
| policy) | N/A | None | | None | |
| Investment Agreements | N/A | None | | None | |

The investment policy allows for the above investments which have equal safety and liquidity as all other allowed investments. Maturity depends on the cash needs of the City.

C. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

NOTE 3 CASH AND INVESTMENTS (Continued)

C. <u>Disclosures Relating to Interest Rate Risk</u> (Continued)

| | | Remaining maturity (in Months) | | | | | |
|---------------------------|---------------|--------------------------------|----------|--------|--------------|--|--|
| | | 12 Months | 13 to 24 | 25-60 | More Than 60 | | |
| <u>Investment Type</u> | Totals | or Less | Months | Months | Months | | |

| Federal Agency Securities | 2,021,418 | 2,021,418 | | | | | |
| Investment Agreement | 2,125,038 | | | | 2,125,038 | | |
| _ | \$ 44,350,615 | \$ 42,225,577 | \$ - | \$ - | \$ 2,125,038 | | |
| | | | | | | | |

D. Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations

The City has no investments (including investments held by bond trustees) that are highly sensitive to interest rate fluctuations (to a greater degree than already indicated in the information provided above).

E. Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of fiscal year end for each investment type.

| | | | | Rating as of Fiscal Year End | | | | | nd | | |
|-----------------------|---------------|----------------------------|------------------------------|------------------------------|-----------|----|----|----|----|----|--------------|
| Investment Type | Amount | Minimum Legal Rating | Exempt From Disclosure | | AAA | А | ιA | | 4 | | Not Rated |
| State Investment Pool | 39,816,113 | N/A | \$ - | \$ | - | \$ | - | \$ | - | \$ | 39,816,113 |
| Held by Bond Trustee: | | | | | | | | | | | |
| Money Market Funds | 388,046 | N/A | | | | | | | | | 388,046 |
| Investment Agreement | 2,125,038 | N/A | | | | | | | | | 2,125,038 |

| Securities | 2,021,418 | N/A | | | 2,021,418 | | | | | | |
| Total | \$ 44,350,615 | | \$ - | \$ | 2,021,418 | \$ | - | \$ | | \$ | 42,329,197 |

CITY of CALABASAS, CALIFORNIA FINANCIAL SECTION – Notes to Basic Financial Statements

CITY OF CALABASAS NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 3 CASH AND INVESTMENTS (Continued)

F. Concentration of Credit Risk

The investment policy of the City contains limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City investments are as follows:

| | Investment | | Reported | | | | |
|-------------------|----------------------|--------|-----------|--|--|--|--|
| Issuer | Type | Amount | | | | | |
| | | · | | | | | |
| IXIS Funding Corp | Investment Agreement | \$ | 2,125,038 | | | | |

Investments in any one issuer that represent 5% or more of total investments by reporting unit (primary government, governmental activities, business type activities, fiduciary funds, major funds, nonmajor funds in the aggregate, etc.) are as follows:

\$2,125,038 of the cash and investments (including amounts held by bond trustee) reported in the Community Facilities District 2001-1 Fund (an agency fund) are held in form of a nonnegotiable unrated investment contract issued by the IXIS Funding Corp that matures on August 1, 2031.

G. Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits; The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the government unit). The fair market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

NOTE 3 CASH AND INVESTMENTS (Continued)

G. Custodial Credit Risk (Continued)

As of June 30, 2005, \$3,082,780 of the City's deposits with financial institutions in excess of federal depository insurance limits were held in collateralized accounts. As of June 30, 2005, City investments in the following investment types were held by the same broker-dealer (counterparty) that was used by the City to buy the securities:

| | Reported | | | |
|---------------------------|----------|-----------|--|--|
| <u>Investment Type</u> | | Amount | | |
| Federal agency securities | \$ | 2,021,418 | | |
| Money market funds | Ψ | 388,046 | | |
| Investment agreement | | 2,125,038 | | |

Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

NOTE 4 ACCOUNTS RECEIVABLE

The following is a list of accounts receivable at June 30, 2005:

| Receivable | | Allowance | | Net | | |
|------------|----------------------|---|---|---|--|--|
| \$ | 2,566,151 681,164 | \$ | - | \$ | 2,566,151 681,164 | |
| \$ | 3,247,315 | \$ | - | \$ | 3,247,315 | |
| \$ | 1,892 | \$ | | \$ | 1,892 | |

| | \$ \$ \$ | \$ 2,566,151 681,164 \$ 3,247,315 \$ 1,892 \$ 243,993 13,376 | \$ 2,566,151 \$ 681,164 \$ 3,247,315 \$ \$ \$ 1,892 \$ \$ \$ \$ 243,993 \$ 13,376 | \$ 2,566,151 \$ - 681,164 \$ 3,247,315 \$ - \$ 1,892 \$ - \$ 243,993 \$ - 13,376 | \$ 2,566,151 \$ - \$ 681,164 \$ - \$ \$ \$ 3,247,315 \$ - \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ | |

NOTE 5 NOTES AND LOANS RECEIVABLE

A. The City has established a program whereby employees can receive an interest free loan to purchase computers. This allows employees access to technology which is compatible to that of the City. Loans are repaid through payroll deductions. During the fiscal year

NOTE 5 NOTES AND LOANS RECEIVABLE (Continued)

ended June 30, 2005, seven new loans were given totaling \$13,361 and principal loans were paid in the amount of \$9,036 leaving an outstanding balance as of June 30, 2005 of \$10,559.

B. The City through the Community Development Block Grant Program has given funds to residents in the form of rehabilitation assistance to assist low income residents in fixing up their residences. These notes can be either amortized or deferred and two notes amounting to \$20,000 will be forgiven if outstanding for 10 years on a graduated schedule. The outstanding balance of the notes as of June 30, 2005 was \$36,095.

NOTE 6 DEFERRED CHARGES

Deferred charges consist of issuance costs and discounts for debt issues. The following is the list of deferred charges at June 30, 2005:

| | Amortization Period | Deferred Accumula Charges Amortizat | | | fo | rtization or the al Year |
|------------------------------------|------------------------|--|----|--------|----|--------------------------------|
| 1999 Certificates of Participation | 357 months | \$ 201,450 | \$ | 42,864 | \$ | 6,768 |

NOTE 7 INTERFUND ACTIVITY

The following represents the interfund activity of the City for the fiscal year ended June 30, 2005.

A. Due To/ From Other Funds

Current interfund balances arise in the normal course of business and to assist funds with negative cash balance at the fiscal year end. They are expected to be repaid shortly after the end of the fiscal year.

NOTE 7 INTERFUND ACTIVITY (Continued)

A. <u>Due To/ From Other Funds</u> (Continued)

| Due to/Due from | | Interfund eceivables | Interfund Payables | | |
|-----------------|-----------------------------------|----------------------|--------------------|-----------|--|

| Storm Damage Special Revenue | | 95,091 |
| Totals | \$ 5,415,916 | \$ 5,415,916 |
| | | |

NOTE 8 CAPITAL ASSETS

The City has reported all capital assets including infrastructure in the Government-wide Statement of Net Assets. The City elected to use the basic approach as defined by GASB Statement No. 34 for all infrastructure reporting, whereby depreciation expense and accumulated depreciation has been recorded.

A summary of changes in capital assets for the City's governmental activities for the fiscal year ended June 30, 2005 is as follows:

| | July 1, 2004 | Additions | Deletions | Balance at June 30, 2005 |
|--|-------------------------|--------------|------------|-----------------------------|
| Governmental Activities: | 541y 1, 2001 | 7 Idditions | Detections | sunc 30, 2003 |

NOTE 9 LONG-TERM DEBT

A. Changes in Long-term Debt

Summary of changes in long-term liabilities for governmental activities is as follows:

| | Balance at July 1, 2004 | Additions | Deletions | Balance at June 30, 2005 | Due Within One Year |
|---|-------------------------|----------------|------------|-----------------------------|------------------------|
| Governmental activities: | | | | | |
| Facilities corporation certificates of participation - series 1999 Compensated absences payable | \$ 6,150,000 282,744 | \$ - 32,739 | \$(65,000) | \$ 6,085,000 315,483 | \$ 75,000 |
| Total governmental long-term debt | \$6,432,744 | \$ 32,739 | \$(65,000) | \$ 6,400,483 | \$ 75,000 |

Summary of changes in long-term liabilities for business-type activities is as follows:

| | lance at 1, 2004 | Ad | lditions | Dele | tions | lance at 30, 2005 |
|------------------------------|------------------|----|----------|------|-------|-------------------|
| Business-type activities | | | | | | |
| Compensated absences payable | \$ 11,717 | \$ | 3,841 | \$ | | \$ 15,558 |

B. Facilities Corporation Certificates of Participation – 1999

On February 1, 1999, the City of Calabasas Facilities Corporation issued \$6,345,000 in Certificates of Participation (COPs) with rates ranging from 3.1% to 5.0%. The net proceeds of \$5,674,897 (after payment of \$670,103 in underwriting and other issuance costs) became a lump sum lease payment to the City for the lease of two properties. These included the Creekside Park Community Center and the "Kilroy" land which is located in Los Angeles County CFD 98-1. Part of the lease payment, \$2,424,897, was used to prepay all future special taxes on the Kilroy land which will be used for a new City Hall and Library.

The City and the Facilities Corporation entered into a concurrent sublease of the Creekside and Kilroy properties by which the Corporation will receive lease rental amounts sufficient to satisfy debt service on the COPs.

Principal amounts on \$2,025,000 of serial certificates mature annually on each December 1 in the fiscal years 2000 through 2015. Term certificates in the amounts of \$1,335,000 and \$2,985,000 are due December 1, 2020 and 2028 respectively. Interest is payable semiannually on June 1 and December 1.

NOTE 9 LONG-TERM DEBT (Continued)

B. Facilities Corporation Certificates of Participation – 1999 (Continued)

The COPs are subject to optional redemption on or after December 1, 2010 and on any interest payment date thereafter at a prior equal to the principal amount plus accrued interest to the redemption date, plus a premium ranging from 0.0% to 2.0%. The term certificates are subject to mandatory redemption on any December 1 from 2016 to 2028.

\$6,085,000

C. Compensated Absences

The City's policies relating to compensated absences are Described in Note 1 of the Notes to Financial Statements. This liability will be paid in future fiscal years from future resources.

\$ 315,483

D. Minimum Requirement Future Payments

The annual requirements to amortize outstanding long-term debt of the City's Governmental Activities as of June 30, 2005, excluding compensated absences are as follows:

| Fiscal Year | Principal | Interest | Total |
|-------------|--------------|--------------|---------------|
| | | | |
| 2006 | \$ 75,000 | \$ 305,828 | \$ 380,828 |
| 2007 | 95,000 | 302,380 | 397,380 |
| 2008 | 110,000 | 298,123 | 408,123 |
| 2009 | 125,000 | 293,125 | 418,125 |
| 2010 | 145,000 | 287,248 | 432,248 |
| 2011-2015 | 985,000 | 1,312,275 | 2,297,275 |
| 2016-2020 | 1,270,000 | 1,031,633 | 2,301,633 |
| 2021-2025 | 1,635,000 | 654,995 | 2,289,995 |
| 2026-2029 | 1,645,000 | 178,369 | 1,823,369 |
| | | | |
| Totals | \$ 6,085,000 | \$ 4,663,976 | \$ 10,748,976 |

NOTE 10 DEFINED BENEFIT PENSION PLAN

A. Plan Description

The City of Calabasas contributes to the California Public Employees Retirement System (PERS), an agent multiple-employer public employee defined benefit pension plan. PERS provides retirement, disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and city ordinance. Copies of PERS' annual financial report may be obtained from their executive office: 400 P Street, Sacramento, CA 95814.

B. Funding Policy

Participants are required to contribute 7% of their annual covered salary. The City makes the contributions required of City employees on their behalf and for their account. The City is required to contribute at an actuarially determined rate; the current rate is 8.291% of annual covered payroll. The contribution requirements of plan members and the City are established and may be amended by PERS.

C. Annual Pension Costs

For 2005, the City's annual pension cost of \$335,071 for PERS was equal to the City's required and actual contributions. The required contribution was determined as part of the June 30, 2002, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 7.75% investment rate of return (net administrative expenses), (b) projected annual salary increases that vary by duration of service, and (c) 3.25% per year cost-of-living adjustments. Both (a) and (b) included an inflation component of 3.00%. The actuarial value of PERS assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period (smoothed market value). PERS unfounded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2004 was 14 years.

| Fiscal | Annual Pension Cost | Percentage of | Net l | Pension |
|-----------|---------------------|-----------------|-------|---------|
| Year | (APC) | APC Contributed | Obl | igation |

NOTE 11 RISK MANAGEMENT

Description of Self-Insurance Pool Pursuant to Joint Powers Agreement

The City is a member of the California Joint Powers Insurance Authority (Authority). The Authority is composed of 84 California public entities and is organized under a joint powers agreement pursuant to California government Code § 6500 et seq. The purpose of the Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group-purchased insurance for property and other coverage's. The Authority's pool began covering claims of its members in 1978. Each member government has an elected official as its representative on the Board of Directors. The Board operates through a 9-member Executive Committee.

Self-Insurance Programs of the Authority in which the City Participates

General Liability – Each member government pays a primary deposit to cover estimated losses for a fiscal year (claims year). Six months after the close of a fiscal year, outstanding claims are valued. A retrospective deposit computation is then made for each open claims year. Costs are spread to members as follows: the first \$20,000 of each occurrence is charged directly to the member; costs from \$20,001 to \$500,000 are pooled, based on a member's share of costs under \$20,000; costs from \$500,001 to \$5,000,000 are pooled based on payroll. Costs of covered claims above \$5,000,000 are currently paid by reinsurance. The protection for each member is \$50,000,000 per occurrence with a \$50,000,000 annual aggregate.

Workers Compensation – The City also participates in the workers' compensation pool administered by the Authority. Pool deposits and retrospective adjustments are valued in a manner similar to the General Liability Pool. The City is charged for the first \$25,000 of each claim. Costs are pooled above that level to \$50,000. Costs from \$50,001 to \$100,000 per claim are pooled based on the member's losses under its retention level. Costs between \$100,001 to \$500,000 per claim are pooled based on payroll. Costs in excess of \$500,000 are paid by excess insurance purchased by the Authority. The excess insurance provides coverage to statutory limits.

CITY of CALABASAS, CALIFORNIA FINANCIAL SECTION – Notes to Basic Financial Statements

CITY OF CALABASAS NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 11 RISK MANAGEMENT (Continued)

Purchased Insurance

Environmental Insurance — The City participates in the pollution legal liability and remediation legal liability insurance which is available through the Authority. The policy covers sudden and gradual pollution of scheduled property, streets, and storm drains owned by the City. Coverage is on a claims-made basis. There is a \$50,000 deductible. The Authority has a limit of \$50,000,000 for the 3-year period from July 1, 2002 through June 30, 2005, with reinstatement of \$50,000,000 if the initial \$50,000,000 is depleted. Each member of the Authority has a \$10,000,000 limit during the 3-year term of the policy.

<u>Property Insurance</u> – The City participates in the all-risk property protection program of the Authority. This insurance protection is underwritten by several insurance companies. The City's property is currently insured according to a schedule of covered property submitted by the City to the Authority. Total all-risk property insurance coverage is \$6,364,242. There is a \$5,000 per loss deductible. Premiums for the coverage are paid annually and are not subject to retroactive adjustments.

<u>Earthquake and Flood Insurance</u> – The City purchases earthquake and flood insurance on a portion of its property. The earthquake insurance is part of the property protection insurance program of the Authority. The City's property currently has earthquake protection in the amount of \$1,557,938. There is a deductible of 5% of the value with a minimum deductible of \$100,000. Premiums for the coverage are paid annually and are not subject to retroactive adjustments.

<u>Fidelity Bonds</u> – The City purchases blanket fidelity bond coverage in the amount of \$1,000,000 with a \$2,500 deductible. The fidelity coverage is provided through the Authority. Premiums are paid annually and are not subject to retroactive adjustments.

<u>Special Event Tenant User Liability Insurance</u> – The City further protects against liability damages by requiring tenant users of certain property to purchase low-cost tenant user liability insurance for certain activities on City property. The insurance premium is paid by the tenant user and is paid to the City according to a schedule. The City then pays for the insurance. The insurance is arranged by the Authority.

Adequacy of Protection

During the past three fiscal years none of the above programs of protection have had settlements or judgments that exceeded pooled or insured coverage. There have been no significant reductions in pooled or insured liability coverage from coverage in the prior fiscal year.

NOTE 12 JOINT VENTURE

On November 24, 1997, the Agoura Hills and Calabasas Community Center Authority (Authority) was created under a joint exercise of powers agreement between the Cities of Agoura Hills and Calabasas. It was formed for the operation and maintenance of a Joint recreation Center. The governing Board of Directors consists of one City Council Member from each City, two residents of each City appointed by the City Council, and the president or a member of the Executive Board of the Alliance (a non-profit organization formed for the sole purpose of raising funds for the Community Center). Each City contributed money towards the construction of the Community Center, which was completed in March 2000. The Authority now oversees the operations and maintenance of the Community Center. The Cities of Agoura Hills and Calabasas will equally share in any profit or loss from operation of the Community Center. Results of operations are included in the City of Calabasas' financial statements for the fiscal year ending June 30, 2005. A copy of the Authority financial statements can be obtained at: 27040 Malibu Hills Rd, Calabasas, CA 91301.

NOTE 13 CONTINGENCIES

The City has been named as a defendant in various general damage and personal injury lawsuits and claims. Such claims arise primarily from injuries or damages sustained by claimants while on property owned and maintained by the City. Management believes that the ultimate result of the pending lawsuits and claims will not have a material adverse affect upon the City's basic financial statements taken as a whole.

NOTE 14 COMMITMENTS

The City is obligated under operating lease agreements for the rental of space for the city hall, city library, and parking lot. Future minimum lease payments under these operating leases are as follows:

| Fiscal Year | |
|-------------|-----------------|
| 2006 | \$ 744,515 |
| 2007 | 681,472 |
| 2008 | 146,968 |
| | \$ 1,572,955 |

NOTE 15 POST-EMPLOYMENT MEDICAL BENEFITS

Pursuant to Government Code Sections 22850 and 22857 and City Resolutions 2000-611, 2000-617, 2000-649 and 2002-780 the City provides post-employment medical benefits to all retired employees in the amount of \$64 and \$32 per month for 2005 and 2004 respectively. This amount is paid on the employees' behalf to the Public Employees Retirement System for health benefits. In addition, certain management employees and City Council who have retired with at least 8 years of PERS service credit with the City and who have reached age 55 are reimbursed for PERS health benefit payments up to \$640 per month. The reimbursement is reduced by the amount of eligible Medicare benefits. This benefit is funded on a pay-asyou-go basis. For fiscal year 2004-05, the City paid \$39,552 for post-employment medical benefits covering 7 participants.

NOTE 16 SPECIAL ASSESSMENT DISTRICTS (AD) BONDS

Bonds issued for improvements in certain special assessment districts in accordance with the provisions of the Mello-Roos Community Facilities Act of 1982, as amended, are liabilities of the property owners and are secured by liens against the assessed property. The City Treasurer acts as an agent for collection of principal and interest payments by the property owners and remittance of such moneys to the bondholders.

Neither the faith and credit nor the general taxing power of the City of Calabasas have been pledged to the payment of the bonds. Therefore none of the following special assessment bonds have been included in the accompanying financial statements.

| | | Amount | (| Outstanding |
|--------|-------------------------------|------------------|----|--------------|
| AD# | Special Assessment Bonds | of Issue | Jı | ine 30, 2005 |
| | | | | |
| 98-1 | Community Facilities District | \$ 12,515,000 | \$ | 10,225,000 |
| 2001-1 | Community Facilities District | 28,645,000 | | 26,555,000 |

NOTE 17 PRIOR PERIOD ADJUSTMENTS/RESTATEMENTS

The following list is an explanation of prior period adjustments and restatements made to the fund financial statements as well as the government-wide statements.

Governmental Funds:

General Fund -

- a) (\$56,984) for an overstatement of recreation clearing account.
- b) \$171,873 for an overstatement of prior year's deposits payable.

NONMAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

<u>Proposition A Fund</u> – used to account for the City's share of an additional one-half percent sales tax which was approved in 1980 and is collected by the County of Los Angeles and is used to finance transportation projects.

<u>Highway Users Tax Fund</u> – used to account for the expenditures financed by money apportioned under the Streets and Highways Code of the State of California.

<u>Proposition C Fund</u> – used to account for the City's share of an additional one-half percent sales tax which was approved in 1990 and is collected by the County of Los Angeles to finance transportation projects.

<u>South Coast Air Quality Management Fund</u> – used to account for the City's share of additional motor vehicle registration fees imposed by the South Coast Air Quality Management District to finance the implementation of mobile source emission reduction programs under the provision of the California Clean Air Act.

<u>Community Development Block Grant Fund</u> – used to account for expenditures of funds made available from the U.S. Department of Housing and Urban Development for community development and housing assistance.

<u>Park and Recreation Improvement Fund</u> - used to account for grant revenue that is specifically restricted to park and recreation improvement projects.

AB 939 Fund – used to account for recycling program revenue as required by Assembly Bill 939.

<u>B & T Lost Hills District Fund</u> – used to account for receipts and expenditures relating to the bridges and thoroughfares of the Lost Hills District.

<u>Used Oil Grant Fund</u> – used to account for funds received from recycling of used oil.

<u>TDA Fund</u> – used to account for State Transportation Development Act, Article 3 funds for bike route and pedestrian facilities improvements.

<u>Affordable Housing Fund</u> – used to account for activities related to the City's affordable housing program.

<u>Storm Damage Fund</u> – used to account for expenditures of funds made available from the Federal Emergency Management Agency and the State of California Office of Emergency Services for disaster relief necessitated by 1993 Winter Storms.

<u>COPS AB 3229 Fund</u> – used to account for monies received from the State of California to be used for policing activities in accordance with Assembly Bill 3229.

<u>Library District Fund</u> – used to account for expenditures and receipts, including secured property tax, of the City's library.

DEBT SERVICE FUND

 $\underline{\text{Debt Service Fund}}$ – used to account for the accumulation of resources for payment of interest and principal on long-term debt.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable City Council of the City of Calabasas Calabasas, California

We have audited the financial statements of the governmental activities, the business- type activities, each major fund, and the aggregate remaining fund information of the City of Calabasas (City) as of and for the fiscal year ended June 30, 2005, and have issued our report thereon dated October 28, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The

results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information of the City Council, management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
