Office of **FINANCE**
A Leader in “Transparent Accounting”

Dr. Gary J. Lysik, Chief Financial Officer, 100 Civic Center Way, Calabasas, CA 91302 (818) 224-1600 <http://www.cityofcalabasas.com>

December 29, 2010

The Honorable Mayor Barry Groveman, Esq.
The Honorable Members of the City Council
Citizens of the City of Calabasas, CA

LETTER OF TRANSMITTAL

The Comprehensive Annual Financial Report (CAFR) represents a compilation of financial data that details the City’s financial workings. Information contained in this report was prepared in strict accordance with guidelines set forth by the Government Finance Officers Association (GFOA) and the California Society of Municipal Finance Officers (CSMFO). The CAFR is intended to provide readers with a clearly articulated, user-friendly reporting of the City’s financial affairs. As such, the City assumes responsibility for content accuracy, completeness, and objectivity of the presentation.

The CAFR is presented in three primary sections:

- 1) *Introductory Section* - includes this letter of transmittal, a list of principal officials, an outline of City management staff, an organization chart, and a map of the City.
- 2) *Financial Section* – consists of the Independent Auditor’s Report, Management’s Discussion and Analysis (MD&A), financial statements, notes to the financial statements, and required supplementary information.
- 3) *Statistical Section* – supplies specific financial information on a multi-year basis and provides general demographic data.

Within the CAFR, readers will find reporting on all funds and account groups for the City of Calabasas. In accordance with the criteria established by GASB Statement No. 14, the City of Calabasas Facilities Corporation’s financial data has been included within the City’s general purpose financial statements as a “blended” component unit because the primary government is financially accountable for the Corporation.

THE PRIMARY GOVERNMENT

The City of Calabasas was incorporated on April 5, 1991. It is classified as a general law city because it is reliant upon California state law to define procedural regulations utilized by City Council. Through a general election process, the five-member council is elected to staggered four year terms. The council serves as the City’s primary governing body.

In April of each year the council selects one of its members to serve as Mayor and one to serve as Mayor Pro Tem. Calabasas City Council retains authority over the management of the City. Additionally, a City manager oversees daily functions and ensures that directions of the council are carried out.

For financial reporting purposes, the primary government consists of all legally joined funds, organizations, agencies, boards, commissions, and authorities that are considered part of the City’s legal domain. Additionally, reporting for contractual services provided by Los Angeles County or private vendors such as law enforcement, fire protection, animal control, public works maintenance, park maintenance, and traffic signal maintenance are also included in the financials. Reporting for other contractual services such as refuse collection, landscape maintenance, street sweeping, crossing guards, parking administration, janitorial services, and major capital projects is included as well. The City provides Planning, Building and Safety, Code Enforcement, Engineering, Traffic and Transportation, Recreation Programs, Media Operations, Financial Management, and Administrative Services with City employees.

THE CITY OF CALABASAS

Situated approximately 25 miles west of downtown Los Angeles (8 miles east of the Ventura County line), Calabasas is located in western Los Angeles County in the foothills of the Santa Monica Mountains National Recreation Area and adjacent to the San Fernando Valley. The first recorded occupation in the area was by Chumash Native Americans who settled along the banks of Calabasas Creek during the mid-1800s. Today, neighboring communities include Agoura Hills, Malibu, Westlake Village and Hidden Hills.

The City’s distinctive character is in part derived from its natural environment, oak-studded hillsides, and natural open space. Other notable characteristics include its physical diversity, small town atmosphere, and active population. Primary access to this community is from the 101 Ventura Freeway or by taking Malibu Canyon Road north four miles from Pacific Coast Highway.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

Accurate accounting of the City’s assets is essential to safeguard against loss and misrepresentation. Calabasas’ system of accounting establishes solid control of the City’s financial assets and allows for budgeting and reliable performance reporting. It provides for the proper recording of financial transactions and lends itself to the establishment of accurate financial statements.

The City’s adopted financial approach includes a two-year budget that is approved on an annual basis. In this case, the City Council is presented each year with a new, rolling-wave, two-year budget for approval. One benefit resulting from this approach is that the City always has at least a 12-month (look-ahead) budget

that has not yet been executed. From a budgetary standpoint, providing a longer forward plan better prepares staff to manage future projects. It should be noted that since its inception, this approach has proven beneficial, particularly in regards to managing Capital Improvement Projects.

CAPITAL IMPROVEMENTS

Calabasas' Capital Improvement Program (CIP) is a component of the budget process and addresses the City's short and long-term capital needs. The CIP includes a plan to effectively maintain existing infrastructure as well as provide new facilities to support population growth and replace older assets that are no longer useful or are unsafe. During this reporting period, the City focused its resources on street rubberized overlay, annual concrete rehabilitation, citywide sewer expansion, park and trail improvements, and other projects which benefit the citizens of Calabasas.

CASH MANAGEMENT

The City makes investments in accordance with the provisions of Government Code Section 53600, et seq. and of the City's Investment Policy. The standard of prudence used by investment officials of the City is the "prudent person" standard which states that investments shall be made with judgment and care – under circumstances then prevailing – which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived. The criteria for selecting investments and the absolute order of priority shall be: 1) safety, 2) credit risk, 3) market risk, 4) liquidity, and 5) yield.

The City invests in two different investment vehicles including the State Treasurer's Local Agency Investment Fund (LAIF) and in securities issued by the U.S. Government. The average yield on investment for the year was 2.48%, with total earnings for all funds equaling \$577,721.

RISK MANAGEMENT

As a California Joint Powers Insurance Authority (CJPIA) member, the City of Calabasas maintains full coverage for all municipal events under its general liability policy. This policy provides for total coverage, including bodily injury, property damage, or personal injury. In addition to general liability, the City maintains coverage for automobiles, workers' compensation, property, environmental, public official bonds, and special events.

LOCAL ECONOMIC CONDITION AND OUTLOOK

Calabasas is one of America's wealthiest communities with a current per capita income of \$77,373, which is 1.8 times that of the State of California. At \$123,471 the median household income in Calabasas in 2010

was over twice that of the State of California. The median age of Calabasas residents in 2010 is 38.5, while the median age in the United States as a whole is 36.8 years.

Unlike that of the greater region, the local area housing market has not demonstrably felt the impact of the housing crunch caused by failing sub-prime loans. According to an on-line source, City-Data.com, the median home price in Calabasas during 2010 was \$1,034,901. This figure represents only a slight increase from 2009.

Labeled a business friendly city, Calabasas continues to entice companies to relocate to and remain in the City by refraining from charging a business tax. As a result, the City enjoys a strong and diverse business and retail base both of which contribute greatly to revenue received through sales tax. All indicators continue to predict a strong financial future for the City, even in light of current economic challenges.

LONG-TERM FINANCIAL PLANNING

The City of Calabasas has experienced minimal population growth of approximately 1.7% per year since 2000, and due to the increase in property values and the expansion of businesses in the City of Calabasas, general fund revenue has increased by approximately 5.0% per year during that same period of time. Property tax and sales tax are the two major contributors to the increase, and current estimates indicate a modest amount of growth for the upcoming years.

The City has a reserve policy which maintains a general fund balance of at least forty percent (40%) of fiscal year budgeted expenditures. The purpose for this allowance is to provide for various identified contingencies as well as allow for normal operation of regular city services.

The annual budget process includes long-range planning for the spending of money on the City's Capital Improvement Program (CIP). In many cases, unique funds were established to separate monies received for specific programs, and when fund balances reach the level necessary to implement such programs, the City plans, through the budget process, for the maintenance and replacement of infrastructure and capital improvements.

ACCOMPLISHMENTS

The financial state of the City of Calabasas remains strong, despite reduced revenue from a slowed economy in recent prior years, and the City maintained its excellent credit ratings (2006) issued by Moody's (Aa2) and Standard & Poor's (AA+) providing a solid testimony to this assertion. The strength of the City's finances is a relational byproduct of clearly defined, consistent management practices and

responsible stewardship of the City's assets. Following are undertakings that have helped to strengthen the City's financial stability.

1. Continued Aggressive Investment Practices

Until 2005, the City of Calabasas did not invest its idle cash outside of the Local Agency Investment Fund (LAIF), a voluntary program established as an investment alternative for California's local governments and special districts and administered under the State Treasurer's administration. During FY 2010, with Council approval, the Chief Financial Officer continued investing in U.S. Government securities and effectively increased the amount of annual interest income received by the City by approximately \$475,000 without any demonstrable change in investment security.

2. Continued enhancement of the Department's Standard Policy & Procedure (SPP) Manual

Staff members of the City's Finance Department continued to further enhance the set of Standard Policies & Procedures (SPPs) which provide insight and direction as to how activities within the Department must be handled. The SPPs identify the "who" and "what" regarding how the Finance Department operates. Staff members are now provided with clear direction on how to complete forms and what processes need to be followed for the proper handling of nearly all finance related efforts and activities.

3. Continued to Improve the City's Grant / Contract Management Functions

The Department of Finance continued to expand its role in Grant / Contract Management by:

- a. Administrating nearly \$5M of grant funds, and
- b. Improving a contract review system that quickly and easily identifies contracts that have either expired, are nearing their spending limits, or do not have current liability insurance coverage. These combined efforts have greatly reduced the amount of liability risk maintained by the City, thus reducing the risk of higher insurance premiums.

4. Continued Delivery of Accurate and Comprehensible Financial Statements

Budget Performance Reports (BPRs) and Problem Analysis Reports (PARs) are prepared regularly and are distributed to management for the purpose of identifying areas of spending patterns not in keeping with the approved budget. As such, management is easily able to identify problems, understand the financial impact of the problems, and establish corrective action plans for meeting organizational and citywide goals.

ACKNOWLEDGEMENTS

The City of Calabasas' Department of Finance has a team of committed individuals, each contributing to the sound financial standing of the City. Within the Department of Finance, I am particularly proud to remain at the helm of a committed team of individuals, each contributing to the soundness of the numbers and to the accuracy in which they are reported.

Luisa Barancik: initiated postings of all accounting transactions, maintained the accuracy and integrity of the General Ledger, and performed various special assignments. Provided back-up support to accounts payable.

Venessa Brantley: provided administrative support in most functional areas within the Department.

Paul Chung: enhanced and maintained the new grant/contract tracking and recording system which continues to lead to the reimbursement of numerous grants and ensures that contracts are complete and not expired, thus reducing the City's liability exposure.

Cedric Henry: improved and maintained a tracking method for Recoverable Deposit Projects minimizing the need for outside collection services. He managed the receipt and handling of cash in an efficient fashion and prepared cash availability reports on a regular basis.

Michael Montgomery: provided excellent payroll coverage for employees of the City and the Agoura Hills/Calabasas Community Center. Also handled all issues related to Las Virgenes Parking Administration.

Lesley Pelka: identified and gathered data required for GASB 44 compliance. Throughout the year, she was also responsible for the reconciliation of the bank account statements which ensured that the City's financial records were accurate and free from material misrepresentation, and handled special financial studies and analyses. Provided back-up and general assistance to every aspect within the Finance Department.

Paola Pino: assisted with the preparation of the Department's Standard Policies & Procedures, maintained a good records retention program, and provided assistance to payroll, AR, and accounting as required. She processed payments to vendors and suppliers with extreme diligence. Paola also oversaw all general purchasing aspects for the City.

Sandy Smith: prior to making payment of vendor invoices, made certain that (a) valid contracts were filed with the City, (b) proper general ledger account numbers were used to track expenditures, (c) invoices were not double paid, (d) valid invoices were paid accurately and on time, and (e) proper authorization was presented.

Certainly the Mayor (Hon. Barry Groveman, Esq.), Mayor Pro Tem (Hon. Dennis Washburn), council members (Hon. James Bozajian, Esq., Hon. Mary Sue Maurer, and Hon. Jonathon Wolfson, Esq.), and the City Manager (Tony Coroalles) must be acknowledged for providing a design template for cultivating a strong finance organization.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate for Excellence in Financial Reporting to the City of Calabasas for its Comprehensive Annual

Financial Report (CAFR) for the fiscal year ended June 30, 2009. In order to be awarded a Certificate of Award for Outstanding Financial Reporting, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy Generally Accepted Accounting Principles (GAAP) and applicable legal requirements.

The Department of Finance for the City of Calabasas feels the current CAFR continues to meet the requirements of both the GFOA Certificate of Achievement Program and the CSMFO Outstanding Financial Reporting Award. The City will be submitting this year's CAFR to the GFOA to determine its eligibility for another certificate.

INDEPENDENT AUDIT

For the fiscal year ended June 30, 2010, the City's financial statements were audited by the certified public accounting firm of Moss, Levy & Hartzheim LLP to ensure that the financial statements of the City were free of material misstatement. The audit a) examined activities, documents, and disclosures used to create the financial statements, b) assessed the accounting principles used by management, and c) evaluated the overall financial statement presentation. The results of the audit are as follows:

- The City's financial statements are free of material misstatement and are presented in accordance with Generally Accepted Accounting Principles (GAAP).
- Internal control over financial reporting and its operation was considered free from material weaknesses.
- Financial statements fairly depict the respective financial position of governmental activities, business-type activities, and each major fund as of June 30, 2010.

In this, it is my goal to provide readers and citizens an accurate depiction of the financial standing and activities regarding the City of Calabasas. Please reference the Management's Discussion and Analysis (MD&A) section of this report for a more complete and detailed accounting of financial performance for the fiscal year ended June 30, 2010.

Respectfully submitted,

Dr. Gary J. Lysik, Chief Financial Officer
City of Calabasas

GFOA Certificate of Achievement for Excellence in Financial Reporting

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Calabasas California

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

The Government Finance Officers Association
of the United States and Canada

presents this

AWARD OF FINANCIAL REPORTING ACHIEVEMENT

to

Dr. Gary J. Lysik
Chief Financial Officer
City of Calabasas, California

The award of Financial Reporting Achievement is presented by the Government Finance Officers Association to the individual(s) designated as instrumental in their government unit achieving a Certificate of Achievement for Excellence in Financial Reporting. A Certificate of Achievement is presented to those government units whose annual financial reports are judged to adhere to program standards and represents the highest award in government financial reporting.

MEMO

Mission Statement

In a spirit of excellence, integrity, and dedication, the Finance Department is committed to providing timely, accurate, clear, and complete information and support to other City departments, citizens, and the community at large.

* * * * *

Values

Quality

A high standard of excellence drives Finance to provide outstanding levels of support, service, and products. The Department strives to be exemplary in all activities and continuously exceed expectations.

Integrity

The Finance Department commits to conforming to the highest level of ethical standards. The services and decisions we offer will be honest, fair, and impartial.

Leadership

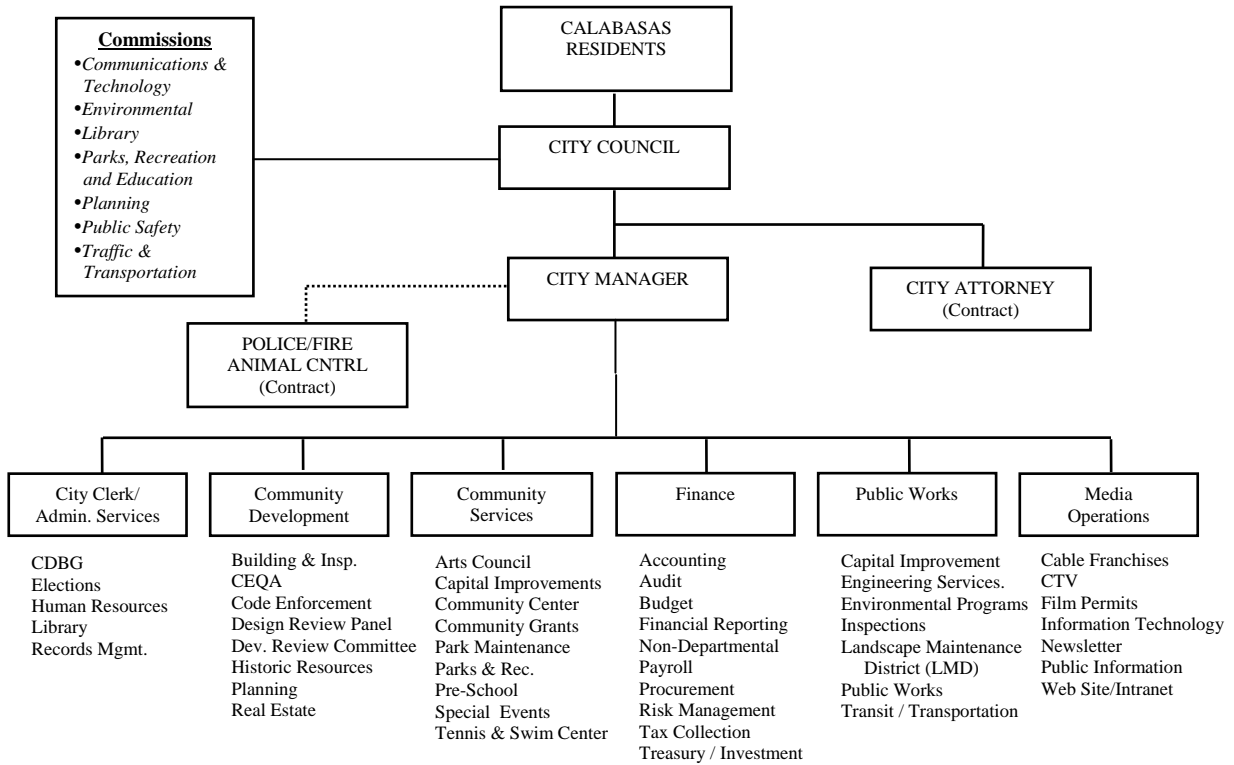

The Department leads by example while encouraging growth and advancement in the organization. Finance provides direction through experience and desires to be acknowledged as the “Go-To Organization” for critical decision making needs.

Teamwork

Finance aims to make the best decisions collectively and in the best interest of the City. As a team, we capitalize on the strengths of each member. In this way, we “Advance the Flame” and provide superior support for staff members and residents.

Independent Auditor’s Report

The Members of the City Council of the
City of Calabasas
Calabasas, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Calabasas, California (City) as of and for the fiscal year ended June 30, 2010, which collectively comprise the City’s basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City’s management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Calabasas, California, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in note 1 of the notes to basic financial statements effective July 1, 2010, the City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 51 – *Accounting and Financial Reporting for Intangible Assets*, GASB Statement No. 53 – *Accounting and Financial Reporting for Derivative Instruments*, GASB Statement No. 57 – *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, and GASB Statement No. 58 – *Accounting and Financial Reporting for Chapter 9 Bankruptcies*.

OFFICES: BEVERLY HILLS · SANTA MARIA

CITY of CALABASAS, CALIFORNIA
FINANCIAL SECTION – Independent Auditor’s Report

In accordance with Government Auditing Standards, we have also issued a report dated December 21, 2010, on our consideration of the City’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 27 through 41, postemployment benefits plans other than pension trend information on page 87, and budgetary comparison information on pages 88 through 92 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City’s basic financial statements. The Introductory Section, Schedules of Revenues, Expenditures, and Changes in Funds Balance – Budget and Actual – Capital Improvement and Civic Center Capital Project Funds, combining nonmajor fund financial statements, nonmajor fund budgetary comparison schedules, combining agency fund statements and the statistical section are presented for purposes of additional analysis and are not required parts of the basic financial statements. The Schedules of Revenues, Expenditures, and Changes in Funds Balance – Budget and Actual – Capital Improvement and Civic Center Capital Project Funds, the combining nonmajor fund financial statements, nonmajor fund budgetary comparison schedules, and combining agency fund financial statements, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Management’s Discussion and Analysis

Management’s Discussion and Analysis (MD&A)
Fiscal Year Ended June 30, 2010

Note: Throughout this discussion the term "City" as used herein refers to The City of Calabasas and all subordinate entities falling under its immediate financial domain.

Management’s Discussion and Analysis (MD&A) is presented as a supplement to the City’s financial statement. The MD&A offers an objective narrative of the City’s financial activities based upon facts, decisions, and conditions known to management as of the auditor’s report date for the fiscal year ended June 30, 2010. Readers are encouraged to utilize this report in conjunction with the information outlined in the City’s financial statements and notes to the financial statements (found on subsequent pages). A summary of the fiscal year’s financial picture immediately follows.

SUMMARY HIGHLIGHTS

- *City assets exceeded liabilities by \$96.3 million*
- *Total net assets decreased by \$1.0 million from 2009*
- *Combined ending fund balances for governmental funds experienced an 8.9% decrease*
- *\$29.8 million available for the City’s governmental activities*
- *Unreserved fund balance for the general fund was \$15.6 million*
- *The City’s total long-term debt (\$37.6 million) was reduced by \$0.5 million*

OVERVIEW OF THE FINANCIAL STATEMENTS

This document memorializes the financial activities of the City from an unaudited managerial perspective using an integrated approach as prescribed by GASB Statement No. 34. Its goal: To provide readers with an easy-to-understand user friendly overview of the City’s basic financial statements that are inclusive of 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. Additionally, this financial report is in full compliance with GASB Statement No. 44 for the 6th consecutive year. GASB 44 added new information in the statistical section that users have identified as important and eliminates certain previous requirements. This statement specifies that the statistical section should include ten-year trends in three types of operating information: government employment levels, operating statistics, and capital asset information. This Statement also clarifies certain features of previously required information, such as which governmental funds to include in information about trends in changes in fund balances.

Information outlined in government-wide financial statements is drawn from numerical data relating to the City’s major funds. Government-wide financial statements detail all capital assets, including infrastructure, depreciation and long-term debt. Examples covered in this printing include general, special revenue, capital projects, and non-major governmental funds. Fund financial statements primarily contain information about short-term fiscal accountability for governmental funds and longer-term operational accountability for proprietary and agency funds such as the Tennis and Swim Center and the Las Virgenes Parking Authority

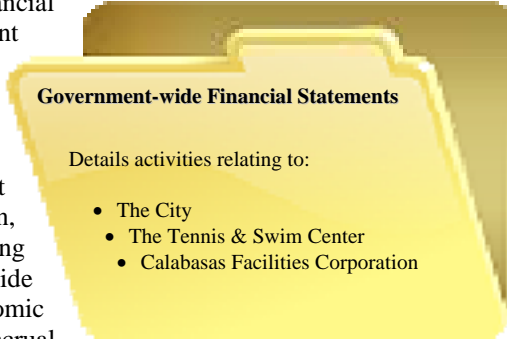

Fund respectively. Notes to the financial statements include support and other qualifying documentation as warranted.

The aforementioned are covered in subsequent sections.

Government-wide financial statements.

As previously discussed, government-wide financial statements detail all capital assets, including infrastructure, depreciation, and long-term debt. Specifically, these statements are designed to provide an expansive overview of the City’s finances. Given its scope and in an effort to adequately present this data in a comprehensible format, government-wide financial statements are divided into two subcategories, the Statement of Net Assets and the Statement of Activities. These statements reasonably chart long- and short-term information regarding the City’s financial condition.

The City’s statements provide a manageable yet comprehensive view of the City’s economic position, appropriately accounting for all revenue and expenses during the specified fiscal year. To accomplish this, government-wide financial statements are reported utilizing the flow of economic resources (cost of services) measurement focus and the accrual method of accounting. Using the flow of economic resources measurement focus allows the City to provide financial transparency insofar as all assets and liabilities are listed on the Statement of Net Assets. The added use of the accrual basis of accounting allows the City a ‘real-time’ advantage as revenues are recognized when earned and expenses are recognized when incurred.

The Statement of Net Assets outlines the City’s assets and liabilities. The difference between the assets and liabilities is recorded as net assets (assets - liabilities = net assets). While fluctuations are expected, over time increases or decreases in the City’s net assets could be used to gauge the City’s financial standing in order to ascertain whether it is improving or deteriorating.

The *Statement of Activities* demonstrates how the City’s net assets evolve during the current fiscal year. Specifically, this statement provides comparative analysis between direct expenses and program revenues for each functional activity of the City. In this forum, net asset changes are recorded in real time when triggered by underlying events without respect to the timing of the related cash flows. Because of this it is expected that revenue and expenses for some items (such as uncollected taxes and earned but unused vacation and/or sick leave) will result in recorded cash flows in future fiscal periods.

Combined, the *Statements* reveal functions of the City that can be divided into two categories: 1) Governmental activities, and 2) Business-type activities.

Governmental activities are chiefly supported by a) taxes elicited from such sources as utility user’s tax, transient occupancy tax, sales tax, property tax, and franchise tax, and by b) intergovernmental revenues such as motor vehicle in-lieu fees. Governmental activities of the City are inclusive of general government, police, public works, traffic and transportation, community development, and community services such as parks and recreation. As mentioned earlier, tax revenue principally funds these activities. Consequently, a good portion of the City’s basic services is reported in this category.

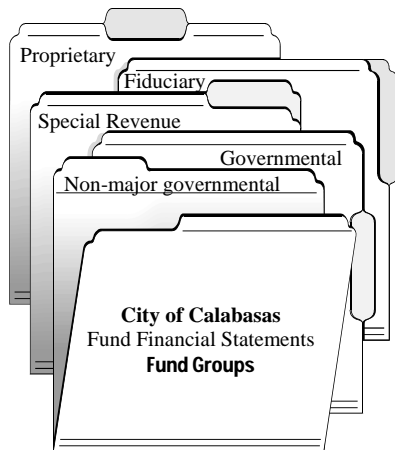

Component units are legally separate entities that the City is either financially accountable for or shares a significant relationship with in such a way that their exclusion would cause the City’s financial statements to be misleading or incomplete. The Calabasas Facilities Corporation (termed the “Corporation”) meets the

criteria of component unit classification and has thus been included as a blended component unit in the governmental activities statements.

Business-type activities are funded in large part through the assignment of user fees charged to external parties for goods or services. In other words, the City charges a fee to parties to cover all or most of the cost of certain services it provides. The City’s Tennis and Swim Center is reported in this category.

Fund Financial Statements.

Fund Financial Statements cover segregated groupings of related accounts whose funds have been designated for specific activities or purpose. They provide a detailed accounting of revenue and expenditures, assets and liabilities, and remaining fund balances for each fund. This helps to ensure and demonstrate finance-related legal compliance.

Fund financial statements differ from activity reports due to the way capital outlay, depreciation, long-term debt, compensated absences, deferred revenues, and intergovernmental receivables are reported. The impact of these differences is laid out in the notes accompanying the financial statements.

Funds required by State law and by bond covenants (i.e., Proposition A & C, and Highway Users Tax) are part of the fund financial statements. Likewise, other funds (i.e., Developer

Impact Fees, Grants, and Storm Damage) established to provide the City with tighter fiscal controls and accountability are itemized on these statements. The following sections provide a more in-depth detailing of the fund groups.

Governmental Funds. *Governmental funds* are reported in essentially the same fashion as governmental activities in the government-wide financial statements with an exception---governmental fund financial statements focus on near-term inflows and outflows of spendable resources and balances of spendable resources. This means governmental fund financial statements identify current sources and uses of money within the immediate fiscal year. Benefits derived include a detailed *short-term view* of the City’s general government operations and the basic services it provides, which assist in determining whether there are sufficient financial resources available to meet the City’s current needs.

Since the scope of the governmental funds is different than that of the government-wide financial statements, it is beneficial to comparatively examine information presented for the governmental funds with information presented for governmental activities in the government-wide financial statements. From this, readers gain a clearer picture of the long-term impacts current financial decisions might yield. When examined together, the governmental funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances provide the reader with a different snapshot that identifies variances between the two different methodologies of accounting for governmental activities and governmental funds. The City maintains 24 governmental funds including the general fund.

Governmental funds statements are included in subsequent pages of this report.

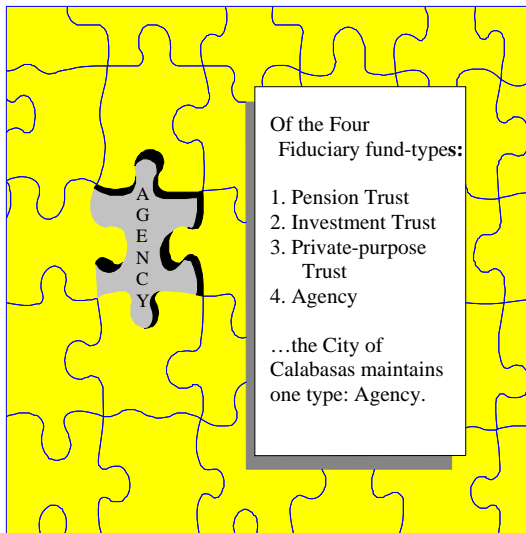

Proprietary Funds. *Proprietary funds* record revenues when they are earned and record expenses at the time liabilities are incurred. Proprietary funds can be divided into two fund types: enterprise funds and internal service funds.

Enterprise funds display financial activities operating in a similar fashion to a business enterprise. Specifically, these funds account for services for which the City charges a user fee. Enterprise funds are documented in the business-type activities section of the governmental-wide financial statements. They account for operations that provide services primarily to customers outside the financial reporting entity (the City).

Internal service funds are generally used to accumulate and allocate costs internally among the City’s various functions. These funds might include general benefits and insurance, duplicating and printing, office maintenance, architectural services, and information technology, to name a few. Given these services

largely benefit governmental activities rather than business-type functions, City services that might ordinarily be reported in this area have been included with governmental activities in the government-wide financial statements.

The City maintains one type of proprietary fund (the enterprise fund), which accounts for the Tennis and Swim Center. Readers will find accounting for the Tennis and Swim Center recorded in the business-type activities section of the governmental-wide financial statements. Here, all capital acquisitions are recorded as fund assets and depreciation is included as a current operating expense.

Proprietary fund financial statements follow on subsequent pages of this report.

Fiduciary fund statements are used to present assets held in trust or agency capacity for others. As such, these funds cannot be used to support the City’s own programs. The City oversees seven agency funds that fall under the fiduciary fund type.

Agency funds report resources held by the City in a purely custodial capacity (assets = liabilities). Generally, management of agency funds typically involves the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

The City holds funds for the following agencies: 1) Las Virgenes Parking Authority, 2) Community Facilities District 98-1, 3) Community Facilities District 2001-1, 4) Community Facilities District 2006-1, 5) Deposits, 6) Las Virgenes Unified School District, and 7) Education Fund.

The City’s agency fund activities are reported in a Combining Statement of Assets and Liabilities and a Combining Statement of Changes in Assets and Liabilities. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Notes to the Financial Statements

The notes provide additional support information that is essential in assisting readers in gaining a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

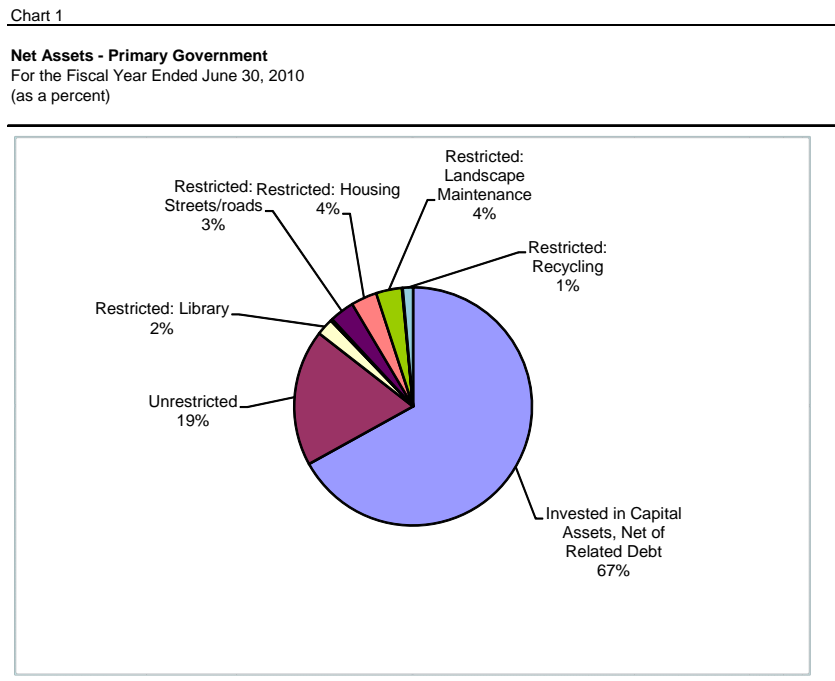

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City’s General Fund and Major Special Revenue Funds. Reports include schedules of revenues, expenditures, and changes in fund balances (budget and actual) for each specific fund. The required supplementary information section also includes postemployment benefit plans other than pension trend information.

GOVERNMENT- WIDE FINANCIAL ANALYSIS

Net assets. Recall that the statement of net assets outlines the City’s assets and liabilities with the delta of the two being recorded as the net assets. The City’s net assets can be separated into three primary categories: 1) Capital assets – net of related debt, 2) unrestricted assets, and 3) restricted assets. As shown in Chart 1, the largest portions of the City’s net assets are found in capital assets – net of related debt (67%), and unrestricted assets (19%). The percentage of net assets subject to external use restrictions, except for that associated with the servicing of City debt, makes up 14% of the net asset portfolio. Streets and roads, housing, landscape maintenance, and recycling fall under this category.

For purposes of discussion, 67% of the City’s net assets are derived from investments in capital assets such as land, buildings, machinery and equipment – net of accumulated depreciation, minus the remaining outstanding debt related to these acquisitions. Despite equity gains that might be experienced, capital assets are not available for future spending since they are tangible assets used to provide services to citizens. Consequently, resources required to address related debt must be secured from other sources.

Chart 1 Percentage of net assets by asset type and category.

CITY of CALABASAS, CALIFORNIA
FINANCIAL SECTION – Management’s Discussion & Analysis

Nineteen percent (\$17.9 million) of the City’s net assets are unrestricted meaning they can be used in any way (subject to the approval of council) to meet the City’s ongoing obligations to citizens and creditors. As shown in Table 1, positive balances in all three categories of net assets, for both the government as a whole, as well as for its separate governmental and business-type activities are reported. Additionally, Table 1 presents condensed financial information derived from the Statement of Net Assets.

Changes in net assets. Current fiscal year changes in net assets reflect a decrease of \$0.9 million dollars (0.9%) from the prior fiscal year bringing the total net assets for both governmental activities and business-type activities to \$96.3 million. The greatest cause for the decrease in net assets is the amount reported for the value of the City’s cash and investments. Table 2 further details the contributing factors regarding the change in net assets for the primary government.

Table 1. Condensed financial information derived from statement of net assets.

Table 1

Net Assets - Primary Government
 For the Fiscal Year Ended June 30, 2010
 (amounts in millions)

	Governmental activities		Business-type activities		Total	
	2010	2009	2010	2009	2010	2009

Total Net Assets	\$ 94.0	\$ 94.8	\$ 2.3	\$ 2.4	\$ 96.3	\$ 97.2

Governmental activities. As stated earlier, taxes and intergovernmental revenue chiefly support governmental activities.

Governmental activities’ expenses totaled \$32.0 million. Of this, \$8.3 million (community services department expenses), \$3.5 million (public works), \$4.6 million (public safety), and \$12.1 million (general government department expenses) account for slightly greater than 89.0% of governmental activity expenditures. City funding for governmental activities was derived from \$21.6 million (69.2%) in general revenue and such sources as program revenue, which contributed \$9.6 million (30.8%). Program revenue funds were secured from \$5.0 million in charges for services and \$4.6 million from grant money.

The City’s governmental activities have been accounted for in six departmental categories: 1) general government, 2) public safety, 3) public works, 4) community development, 5) community services, and 6) interest and fiscal charges (see Chart 2).

Total net assets for governmental activities were \$94.0 million representing a downward adjustment of \$0.8 million since the fiscal year ended June 30, 2009 due mostly to a decrease in the receipt of sales tax

revenue and increased expenses in the areas of general government, Community Development, and Community Services. Chart 3 presents a five-year comparison of net assets for governmental activities.

As of this printing, tax revenue (61.5%) was the single greatest source of City revenues for governmental activities. Total tax revenues collected for governmental activities decreased by (\$1.6) million compared to the prior fiscal year, mostly caused by a decrease in sales tax. A weaker economy and the slow-down in new automobile sales was the greatest contributing factor. Charts 4 and 5 present the percentage of total expenses for each program of governmental activities and the percentage of total revenues by source.

Table 2 Condensed financial information derived from the statement of activities.

 For the Fiscal Year Ended June 30, 2010
 (as a percent)

Business-type activities. As mentioned earlier, business-type activities are funded in large part through the assignment of user fees imposed on external parties in exchange for goods or services. The Tennis and Swim Center (the “Center”) is reported in this category. Business-activity revenue remained significantly unchanged from the prior fiscal year due to stable revenue from charges for services. The City’s net assets for business-type activities related to the Center decreased by (\$0.1) million due to slightly higher operational expenses at the Center. Chart 6 shows a five-year history of net assets for business-type activities.

Chart 6 Five-year histories of total net assets for business-type activities.

Chart 6

Total Net Assets - Business-type Activities
 For the Fiscal Year Ended June 30, 2010
 (amounts in millions)

At the close of the current fiscal year, total net assets for business-type activities were \$2.3 million. Revenue, mainly stemming from Center fees, totaled \$3.0 million.

As shown in the Statement of Revenues, Expenses, and Changes in Net Assets (Proprietary Fund), amounts paid to operate the facility include: \$0.2 million – outside services, \$0.7 million – supplies and utilities, \$0.7 million – administrative costs, \$1.3 million – Top Seed (contractor), and \$0.2 million – depreciation.

FUND FINANCIAL ANALYSIS

Governmental funds. As stated, governmental funds financial statements identify current sources and uses of money. Benefits derived include a detailed *short-term view* of the City’s general government operations and the basic services it provides, which assists in determining whether there are sufficient financial resources available to meet the City’s current needs.

The financial position of the City’s governmental funds was reduced when compared to the previous fiscal year. The \$16.2 million general fund balance depicts an overall decrease of (\$3.6) million from the prior fiscal year mainly due to: 1) the receipt of less revenue from sales tax, and 2) the first year of making debt service payments for Certificates of Participation (COPs) issued in a previous fiscal year for the construction of the new Civic Center which opened in July 2008.

The total ending fund balance for the City’s governmental funds were \$29.8 million, which represented a (\$2.9) million or (8.7%) decrease from the prior fiscal year. The preponderance of the decrease was realized in the City’s general fund. Of the total fund balance, nearly \$28.8 million was identified as unreserved thereby making these funds available for appropriation.

Revenue. Total General Fund revenue decreased by (\$1.4) million over last year bringing the total revenue for the fiscal year to \$18.6 million. Of this, \$13.0 million was generated by taxes, \$0.1 million (licenses and fees), \$2.0 million (intergovernmental), \$0.2 million (fines and forfeitures), \$0.4 million (use of money and property), \$2.5 million (charges for services), and \$0.4 million (others) represents source specific income that contributed to the general fund’s total revenue balance (see Chart 7).

Expenditures. A \$0.2 million dollar increase in General Fund expenditures from the prior fiscal year is noted, bringing the total expenditures to \$20.2 million. The increase in general fund expenses is attributed mostly to the payment of the first year’s debt service payments for the COPs issued for the construction of the new Civic Center.

Special revenue funds. Fund balances for special revenue funds (Landscape Maintenance Districts, Affordable Housing, Storm Damage, and Grants) experienced a \$3.2 million decrease from the prior fiscal year with a combined fund balance of \$1.5 million mostly due to the reclassification of the Developer Impact Fee Fund which removed a total of \$4.2 million from this category. The ending fund balance for the Landscape Maintenance District was \$3.2 million which represented a \$0.3 million increase due to collecting greater amounts of assessment revenue relative to expenditure outlays.

Capital projects. The Capital Improvement fund should reflect a zero or near zero fiscal year ending balance. This is expected since capital project fund revenues are project specific and are funded by other sources in amounts equal to the amount spent. Less than the prior fiscal year by (\$1.5) million, this year’s expenditures totaled \$3.2 million. Primary expenditures included \$1.1 million for public work projects, and \$2.1 million for transportation projects.

Non-major governmental funds. The City’s non-major governmental funds include: Developer Impact Fees, AB939, Affordable Housing, Proposition C, the Library District, Bridge and Thoroughfare / Lost Hills District, Management Reserve, and others.

Total revenue of \$5.1 million for non-major governmental funds is higher than the prior fiscal year by \$1.4 million. The major revenue sources included: 1) taxes - \$1.8 million, 2) intergovernmental - \$1.7 million, and 3) other, donations, and reimbursements - \$1.5 million. (See Chart 8).

Expenditures totaled \$4.5 million, an increase of \$0.2 million from last year. The greatest expenditure of \$2.0 million was in the area of community services. Other expenditures including spending for public safety, community development, various capital projects, and debt service accounted for the remaining costs incurred (see Chart 9). The total fund balances of all non-major governmental funds increased by \$3.4 million bringing the total fund balances to \$11.1 million (see Chart 10).

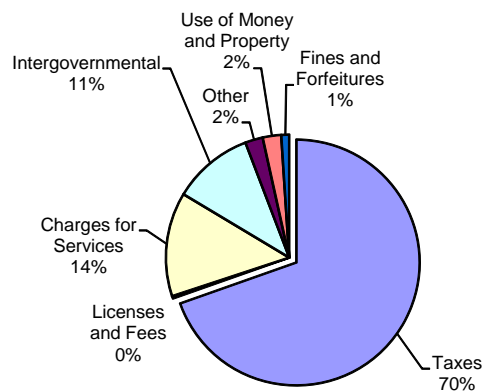

Proprietary funds. As mentioned in the business-type activities discussion, the City accounts for one proprietary fund: The Tennis and Swim Center. The Center received its operating revenue exclusively from fees associated with services. This fiscal year total revenue received was \$3.0 million, lower than that of last fiscal year by \$0.4 million due to a decrease in public involvement in programs offered by the Center. Operating expenses totaled \$3.1 million, a slight decrease of (\$0.2) million from last year due to employing several cost saving measures.

Fiduciary (agency) funds. The City of Calabasas has seven agency funds, which consist of Las Virgenes Parking Authority, Community Facilities District 98-1, Community Facilities District 2001-1, Community Facilities District 2006, Deposits, Las Virgenes Unified School District, and the Education Fund. Agency funds are used to account for assets held by the City as an agent for individuals, private organizations, and other governments. Assets of the agency funds total \$12.8 million, down from \$14.7 million last fiscal year mostly due to the payment of interest earnings on deposited monies to the School District (LVUSD).

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets. The City’s current fiscal year investment in capital assets for its governmental and business-type activities amounted to \$100.8 million (net of accumulated depreciation). The City’s capital assets increased by \$0.1 million mostly in the “infrastructure” category. Table 3 shows this investment by investment category. Depreciable property includes equipment, buildings, improvements other than buildings, and infrastructure. Infrastructure assets are items that are normally immovable and can be preserved for a greater number of years than most capital assets, such as roads, bridges, streets and sidewalks, drainage systems, and lighting systems. Further detailed information can be found in the notes to the financial statements (notes 1D and 8).

Table 3 Summary of capital assets for governmental and business-type activities.

Table 3

Capital Assets (net of accumulated depreciation)
 For the Fiscal Year Ended June 30, 2010

(amounts in millions)

	Governmental Activities	Business-type Activities	Total
Land	\$ 5.093	\$ 0.838	\$ 5.931
Construction in progress	3.234	0.383	3.617
Buildings	46.262	0.460	46.722
Equipment	3.953	0.124	4.077
Investment in joint venture	0.725	-	0.725
Infrastructure	39.454	-	39.454
Library collection	0.280	-	0.280
Total	\$ 99.001	\$ 1.805	\$ 100.806

Long-term liabilities. Debt liability for governmental activities decreased by \$0.4 million from last fiscal year due to payment of regularly scheduled debt service payments for: 1) the 2005 Refunding Certificates of Participation for the continued lease of Creekside Park, and 2) the 2006 Certificates of Participation for the construction of the City’s new Civic Center. Total outstanding balance owed for the COPs is \$37.6 million. (See Table 4). Further detailed information can be found in the notes to the financial statements (notes 1D, 9, and 15).

Table 4 Summary of long-term obligations for governmental and business-type activities.

Table 4

Long-Term Obligations
 For the Fiscal Year Ended June 30, 2010

Total	\$ 38.427	\$ 0.021	\$ 38.448

GENERAL FUND BUDGETARY HIGHLIGHTS

- In July 2010, the City adopted a biennial budget identifying revenue and expenditures for the two-year period ending June 2012. Council renews the budget annually or as need arises.
- Decreased revenue from taxes, and uses of money and property caused the fiscal year revenue for the General Fund to end (\$2.1) million less than the budgeted amount. Total General Fund revenue received during the fiscal year was \$18.6 million.
- The City over-ran its General Fund budgeted expenditures by \$0.1 million, mostly in the area of general government which includes personnel services, debt service payments, and public safety.
- Net of transfers and prior period adjustments, the General Fund’s ending fund balance for fiscal year ended June 30, 2010 was \$16.2 million, down (\$3.6) million from the previous fiscal year mostly due to: 1) a decrease in the receipt of sales tax revenue, 2) the making of payment for the City’s debt service associated with the construction of the new Civic Center, and 3) increases in the cost of providing various community services.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGET

Economic Factors

Like many California cities, the City of Calabasas has been called to address several economic challenges. It is expected that the future cost of inflation as it pertains to employee salaries and the cost to purchase materials and services will continue to require focus. Higher forecasted health costs, worker’s compensation, and retirement benefits will also remain a concern and will be reflected in the upcoming budget.

Revenue from sales tax generated by new automobile dealerships in the City has stabilized, and in fact is expected to increase as the economy strengthens. Likewise, revenue received from property tax will resume its 2% per year growth as the value of housing begins to return to pre-recession levels.

Next Year’s Budget

The budget will continue to focus on four main purposes:

1. Present a clear picture to residents, council, and staff regarding the City’s direction,
2. Provide an overview and summary of City Funds,
3. Identify Capital Improvement Projects (CIPs), Department / City special projects, and other discretionary spending items, and
4. Improve financial tracking

The 2010-11 approved General Fund spending plan remains relatively unchanged at approximately \$22.4 million.

A new two-year budget with an annual review is being developed and is slated for release on July 1, 2011. The finance department is implementing a budgetary approach that will result in a balanced budget in the general fund. The goal is to implement a budget whereby total projected expenditures will be less than or equal to total projected revenue.

It should be noted that while a balanced budget is the goal, it remains possible that individual funds may experience greater out-flows relative to in-flows for the same fiscal period. Still, those funds are expected to have a positive ending fund balance to pay for the overages.

City management, namely the City Manager and the Chief Financial Officer, will be especially challenged in two areas: 1) to reduce expenditures through the discovery and implementation of cost saving programs; 2) to increase revenue through innovation.

REQUESTS FOR INFORMATION

This financial report is designed to provide interested parties with a general overview of the City of Calabasas’ finances. Questions concerning the information provided in this report or requests for additional information should be addressed to:

CITY OF CALABASAS
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET ASSETS
June 30, 2010

Fund balances for governmental funds		\$	29,848,243
Amounts reported for governmental activities in the Statement of Net Assets are different from those reported in the Governmental Funds because of the following:			
Capital assets used in Governmental Activities are not current resources and, therefore, are not reported in the Governmental Funds Balance Sheet.			
Capital assets	\$	126,423,416	
Less: accumulated depreciation		<u>(27,422,194)</u>	99,001,222
Long-term debt liabilities, including bonds payable and interest payable, are not due and payable in the current period and therefore are not reported in the funds.			
Certificates of participation	\$	(37,620,000)	
Capital leases payable		(52,835)	
Compensated absences		(549,880)	
Interest payable		(126,741)	
Other post-employment benefits obligation		<u>(203,867)</u>	(38,553,323)
The following are recorded as expenditures or other financing sources in the governmental funds, but which are capitalized and amortized in the statement of net assets. These amounts are net of accumulated amortization.			
Deferred issuance costs	\$	1,119,342	
Deferred loss on refunding		368,733	
Bond premium		<u>(153,061)</u>	1,335,014
Under the modified accrual basis of accounting used in governmental funds, revenues are not recognized for transactions that do not represent available financial resources. In the statement of net assets and statement of activities, however, revenues and assets are reported regardless of when financial resources are available.			
Deferred revenue			1,323,111
Long-term notes receivable are offset by deferred revenue in the governmental funds as they do not represent financial resources.			<u>1,047,920</u>
Net assets of governmental activities		\$	<u>94,002,187</u>

CITY of CALABASAS, CALIFORNIA
FINANCIAL SECTION – Basic Financial Statements

CITY OF CALABASAS
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2010

Net change in fund balances - total governmental funds \$ (2,861,464)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlays exceeded depreciation in the current period as follows:

Capital outlay	\$ 3,401,380	
Depreciation	<u>(3,041,012)</u>	360,368

In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. 555,896

In governmental funds proceeds from capital leases are reported as other financing sources. In the government-wide statements, proceeds from capital leases are reported as additions to long-term debt. (53,731)

Interest is not accrued in the governmental funds. However, it is to be accrued in the statement of activities. This is the net change. 8,361

Changes in compensated absences which are not recognized due to timing issues in the governmental funds are charged to expenses in the statement of activities. (34,398)

OPEB expenditures reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in a governmental fund. This is the net change in OPEB for the current period. (103,861)

Deferred revenues, not recognized in revenue in governmental fund statements because the revenue was not available within 60 days of close of fiscal year. This is the net change. 475,194

Amortization of deferred charges is not an expense of the governmental funds, but under the full accrual method is a component of interest expense. (46,980)

Amortization of deferred loss on refunding is not an expense of the governmental funds, but under the full accrual method is a component of interest expense. (57,468)

Certain notes receivable are reported in the governmental funds as expenditures and then offset by a deferred revenue as they are not available to pay current expenditures. Likewise when the note is collected it is reflected in revenue. This is the net change between notes receivable collected and issued. (Collected \$0) (Issued \$1,000,000) 1,000,000

Change in net assets of governmental activities \$ (758,083)

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 **Summary of Significant Accounting Policies**

The financial statements of the City of Calabasas (City) have been prepared in conformity with accounting principles generally accepted in the United States of America (USGAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The City of Calabasas was incorporated on April 5, 1991 as a "General Law" City covering approximately eleven square miles. The City operates under a council-city manager form of government.

The City of Calabasas Facilities Corporation (the Corporation) was established on December 17, 1998 for the purpose of providing financing and funding for property acquisition and public capital improvements.

The criteria used in determining the scope of the reporting entity is based on the provisions of GASB Statement 14 as amended by GASB Statement No. 39. The City of Calabasas is the primary government unit. A component unit is an entity which is financially accountable to the primary government, either because the City appoints a voting majority of the component unit's board, or because the component unit will provide a financial benefit or impose a financial burden on the City. Despite being legally separate, this entity is, in substance, part of the City's operations. Accordingly, the balances and transactions of this component unit are reported within a debt service fund of the City.

The following specific criteria were used in determining that the Corporation was a blended component unit:

- The members of the City Council also act as the governing body of the Corporation.
- The Corporation is managed by employees of the City.

There are no entities which meet the Governmental Accounting Standards Board Statement No. 14 as amended by GASB Statement No. 39, criteria for discrete disclosure within these financial statements.

B. Government-wide and Fund Financial Statement

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements and eliminations have been made to minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which reply to a significant extent on fees and charges for support.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 **Summary of Significant Accounting Policies (Continued)**

B. Government-wide and Fund Financial Statement (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grant and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, the proprietary fund, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, including property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after fiscal year-end. Expenditures generally are recorded when the liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures when due. Capital asset acquisitions are reported as expenditures in governmental funds.

Property taxes, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 **Summary of Significant Accounting Policies (Continued)**

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Amounts reported as program revenues include 1) charges to members, customers, or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Tennis and Swim Center are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then use unrestricted resources as needed.

The City reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in other funds.

Landscape District Maintenance Special Revenue Fund – used to account for receipts and expenditures relating to the benefit assessment district for landscape maintenance.

Affordable Housing Special Revenue Fund – used to account for activities related to the City's affordable housing program.

Storm Damage Special Revenue Fund – used to account for expenditures of funds made available from the Federal Emergency Management Agency and the State of California Office of Emergency Services for disaster relief.

Grants Special Revenue Fund – used to account for other grants requiring segregated fund accounting. Financing is provided by federal, state, and county agencies.

Capital Improvement Capital Projects Fund – used to account for the acquisition and construction of major capital projects not being financed by proprietary funds.

Civic Center Capital Projects Fund – used to account for the construction of the new city hall.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 **Summary of Significant Accounting Policies (Continued)**

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The City reports the following major proprietary fund:

Tennis and Swim Center – used to account for operations of the Tennis and Swim Center that are financed and operated in a manner similar to private business enterprise. Costs are financed or recovered primarily through user charges.

Additionally, the City reports the following fund types:

Governmental Funds:

Special Revenue Funds – used to account for proceeds of specific revenue sources that are legally restricted or otherwise designated for specific purposes.

Debt Service Fund – used to account for the accumulation of resources for and the payment of principal and interest on long-term debt.

Fiduciary Funds:

Agency Funds - used to account for assets held by the City as an agent. This fund is custodial in nature and does not involve measurement of results of operations.

Las Virgenes Parking Authority Fund – used for the Las Virgenes Parking Authority.

Community Facilities District 98-1 Fund – used for debt service requirements of Community Facilities District No. 98-1.

Community Facilities District 2001-1 Fund – used for debt service requirements of Community Facilities District No. 2001-1.

Community Facilities District 2006-1 Fund – used for the refunding of CFD 2001-1 for debt service requirements of Community Facilities District No. 2006.

Deposits Fund – used for developer projects such as new construction, building improvement, and addition, etc.

LVUSD Fund – used to segregate funds for future development of a new school within the City limits.

Calabasas Education Fund – provides funds to partially finance education related activities.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 **Summary of Significant Accounting Policies (Continued)**

D. Assets, Liabilities, Net Assets, or Equity

Cash and Investments

The City pools idle cash from all funds for the purpose of increasing income through investment. Earnings from such investments are allocated to the respective funds on the basis of applicable cash balances of each fund.

In compliance with the applicable State statute, the Statement of Investment Policy is adopted annually by the City Council. Investments authorized under the Investment Policy included:

- Local Agency Investment Fund (LAIF) – State of California Investment Pool
- U.S. Treasury Obligations
- Federal Agency Securities
- Certificates of Deposit
- Savings Accounts

The City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 31, “Accounting and Financial Reporting for Certain Investments and External Pools”, which require governmental entities to report certain investments at fair value in the balance sheet and recognize the corresponding change in the fair value of investments in the year in which the change occurred.

The City’s investments are carried at fair value which approximates cost. The fair value of equity and debt securities is determined based on sales prices or bid-and-asked quotations from SEC-registered securities exchanges or NASDAQ dealers. LAIF determines the fair value of its portfolio quarterly and reports a factor to the City; the City applies that factor to convert its share of LAIF from amortized cost to fair value. Changes in fair value are allocated to each participating fund.

For purposes of the statement of cash flows for the proprietary fund, all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased are considered cash equivalents.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as interfund receivables/interfund payables (i.e., the current portion of interfund loans) or advances to/from other funds (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as interfund receivables or interfund payables.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and tax receivables are shown net of an allowance for uncollectible accounts if applicable, and estimated refunds due.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 **Summary of Significant Accounting Policies (Continued)**

D. Assets, Liabilities, Net Assets, or Equity (Continued)

Receivables and Payables (Continued)

Property taxes in the State of California are administered for all local agencies at the county level, and consist of secured, unsecured, and utility tax rolls. The following is a summary of major policies and practices relating to property taxes:

Property Valuations – are established by the Assessor of the County of Los Angeles for the secured and unsecured property tax rolls; the utility property tax rolls are valued by the State Board of Equalization. Under the provisions of Article XIII A of the State Constitution (Proposition 13 adopted by the voters on June 6, 1978) properties are assessed at 100% of full value. From this base of assessment, subsequent annual increases in valuation are limited to a maximum of 2%. However, increases to full value are allowed for property improvements or upon change in ownership. Personal property is excluded from these limitations, and is subject to annual reappraisal.

Tax Levies – are limited to 1% of full value which results in a tax rate of \$1.00 per \$100 assessed valuation, under the provisions of Proposition 13. Tax rates for voter-approved indebtedness are excluded from this limitation.

Tax Levy Dates – are attached annually on January 1 preceding the fiscal year for which the taxes are levied. The fiscal year begins July 1 and ends June 30 of the following year. Taxes are levied on both real and unsecured personal property as it exists at that time. Liens against real estate, as well as the tax on personal property, are not relieved by subsequent renewal or change in ownership.

Tax Collections – are the responsibility of the county tax collector. Taxes and assessments on secured and utility rolls which constitute a lien against the property, may be paid in two installments: the first is due on November 1 of the fiscal year and is delinquent if not paid by December 10; and the second is due on March 1 of the fiscal year and is delinquent if not paid by April 10. Unsecured personal property taxes do not constitute a lien against real property unless the taxes become delinquent. Payment must be made in one installment, which is delinquent if not paid by August 31 of the fiscal year. Significant penalties are imposed by the County for late payments.

Tax Levy Apportionments – Due to the nature of the City-wide maximum levy, it is not possible to identify general purpose tax rates for specific entities. Under state legislation adopted subsequent to the passage of Proposition 13, apportionments to local agencies are made by the county auditor-controller based primarily on the ratio that each agency represented of the total City-wide levy for the three years prior to fiscal year 1979.

Property Tax Administration Fees – The State of California FY 1990-91 Budget Act authorized counties to collect an administrative fee for collection and distribution of property taxes. Property taxes are recorded as net of administrative fees withheld during the fiscal year.

Prepaid Items

Payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, Net Assets, or Equity (Continued)

Capital Assets

Capital assets, which include property, improvements, equipment, and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial and individual cost of \$1,000. Such capital assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their fair value on the date donated. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation of all exhaustible assets used by the governmental and business-type activities is charged as an expense against their operations. Depreciation has been provided using the straight-line method over the estimated useful lives of the assets as follows:

Equipment	5 years
Buildings	15-50 years
Improvements other than buildings	10 years
Infrastructure	20-50 years

Compensated Absences

It is the City's policy to permit employees to accumulate earned, but unused vacation benefits, which will be paid to employees upon separation from City service. Under current City policy, sick leave does not vest with the employee; therefore, a liability has not been accrued. Governmental fund types recognize the cost of vacation benefits when payments are made to employees. Since these unused vacation benefits will not be liquidated with available financial resources, a long-term liability for accrued vacation benefits is recorded. Proprietary fund types accrue vacation benefits in the period they are earned.

Long-Term Obligations

In the government-wide financial statements, and proprietary type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Amortization of bond premiums or discounts, and issuance costs are included in interest expense.

In the fund financial statements, governmental fund types recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, Net Assets, or Equity (Continued)

Net Assets and Fund Equity

In the government-wide financial statements, proprietary fund financial statements, and fiduciary fund financial statements, net assets are reported in three categories: net assets invested in capital assets, net of related debt; restricted net assets, and unrestricted net assets. Restricted net assets represent net assets restricted by parties outside of the City (such as creditors, grantors, contributors, and laws and regulations of other governments) and include unspent proceeds of bonds issued to acquire or construct capital assets. The City's other restricted net assets are temporarily restricted (ultimately expendable assets). All other net assets are considered unrestricted.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. Undesignated fund balance represents that portion of fund balance which is available for budgeting in future periods.

E. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

F. New Accounting Pronouncements

The City has implemented the requirements of GASB Statements No. 51, No. 53, No. 57, and No. 58 during the fiscal year ended June 30, 2010.

GASB Statement No. 51 – Accounting and Financial Reporting for Intangible Assets

For the fiscal year ended June 30, 2010, the City implemented GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets". This Statement is effective for financial statements for periods beginning after June 15, 2009. The objective of this Statement is to establish accounting and financial reporting requirements for intangible assets to reduce these inconsistencies, thereby enhancing the comparability of the accounting and financial reporting of such assets among state and local governments. The implementation of this Statement did not have an effect on these financial statements.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 1 **Summary of Significant Accounting Policies (Continued)**

F. New Accounting Pronouncements (Continued)

GASB Statement No. 53 – Accounting and Financial Reporting for Derivative Instruments

For the fiscal year ended June 30, 2010, the City implemented GASB Statement No. 53, “Accounting and Financial Reporting for Derivative Instruments”. This Statement is effective for financial statements for periods beginning after June 15, 2009. This Statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. The implementation of this Statement did not have an effect on these financial statements.

GASB Statement No. 57 – OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans

For the fiscal year ended June 30, 2010, the City implemented GASB Statement No. 57, “OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans”. This Statement establishes standards for the measurement and financial reporting of actuarially determined information by agent employers with individual-employer OPEB plans that have fewer than 100 total plan members and by the agent multiple-employer OPEB plans in which they participate. The implementation of this Statement did not have an effect on these financial statements.

GASB Statement No. 58 – Accounting and Financial Reporting for Chapter 9 Bankruptcies

For the fiscal year ended June 30, 2010, the City implemented GASB Statement No. 58, “Accounting and Financial Reporting for Chapter 9 Bankruptcies”. This Statement is effective for reporting periods beginning after June 15, 2009. The objective of this Statement is to provide accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. It requires governments to remeasure liabilities that are adjusted in bankruptcy when the bankruptcy court confirms (that is, approves) a new payment plan. The implementation of this Statement did not have an effect on these financial statements.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 2 Stewardship, Compliance, and Accountability

A. **Budgetary Control and Accounting**

General Budget Policies:

The City Council reviews and adopts an annual budget for the General, Special Revenue, Debt Service, and Capital Projects Funds. The City Council holds public hearings and may modify the appropriations by general approval. Budgeted amounts may be transferred between departments with the City Manager’s approval. The legal level of expenditure control is at the fund level. Operating appropriations lapse at the end of each fiscal year.

The budget is reported on the same basis as the fund types and on a basis consistent with accounting principles generally accepted in the United States of America. Additional appropriations or other changes during the fiscal year may be submitted by the department for Council review and approval.

B. **Excess Expenditures over Appropriations**

Excess of expenditures over appropriations in individual funds are as follows:

	Final Budget	Expenditures	Excess
Major Funds:			
General	\$ 20,090,574	\$ 20,160,771	\$ 70,197
Affordable Housing Special Revenue		1,000,000	1,000,000
Grants Special Revenue		71,121	71,121
Civic Center Capital Projects		6,476	6,476
Nonmajor Funds:			
Proposition C	511,900	724,190	212,290
COPS - AB3229	100,000	143,292	43,292
Library District	1,000,444	1,100,730	100,286
Oak Tree Mitigation		2,431	2,431

C. **Deficit Fund Balances, Retained Earnings, and Net Assets**

The Storm Damage Special Revenue Fund (Major) has a deficit fund balance of \$1,607,323 that should be alleviated as additional revenues are received. The Grants Special Revenue Fund (Major) has a deficit fund balance of \$1,218,909 that should be alleviated as additional revenues are received. The Proposition C Special Revenue Fund has a deficit fund balance of \$253,468 that should be alleviated as additional revenues are received. The Community Development Block Grant Special Revenue has a deficit fund balance of \$9,702 that should be alleviated as additional revenues are received. The Used Oil Grant Special Revenue Fund has a deficit fund balance of \$35,451 that should be alleviated as additional revenues are received. The COPS AB3229 Special Revenue Fund has a deficit fund balance of \$63,840 that should be alleviated as additional revenues are received.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 3 Cash and Investments

Cash and investments as of June 30, 2010 are classified in the accompanying financial statements as follows:

Statement of net assets:	
Cash and investments	\$ 29,684,696
Restricted cash and investments with fiscal agents	402,502
Fiduciary funds:	
Cash and investments	10,951,308
Restricted cash and investments with fiscal agents	1,717,271
Total cash and investments	<u>\$ 42,755,777</u>

Cash and investments as of June 30, 2010 consist of the following:

Cash on hand	\$ 2,268
Deposits with financial institutions	7,139,564
Investments	35,613,945
Total cash and investments	<u>\$ 42,755,777</u>

A. Investments Authorized by the California Government Code and the City's Investment Policy

The table below identifies the investment types that are authorized for the City of Calabasas (City) by the California Government Code (or the City's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California government Code or the City's investment policy.

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Maximum Percentage of Portfolio</u>	<u>Maximum Investment in One Issuer</u>
Local Agency Investment Fund (State Pool)	N/A	None	\$50 million
U.S. Treasury Obligations	N/A	None	None
U.S. Government Agency Issues	5 years	None	None
Insured Passbook on Demand Deposits with Banks and Savings and Loans	N/A	None	\$100,000
Certificates of Deposit	2 years	None	\$100,000
Bankers Acceptances			
Commercial Paper	N/A	None	None
Mutual Funds (must be comprised of eligible securities permitted under this policy)	N/A	None	None
Money Market Funds (must be comprised of eligible securities permitted under this policy)	N/A	None	None

The investment policy allows for the above investments which have equal safety and liquidity as all other allowed investments. Maturity depends on the cash needs of the City.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 3 Cash and Investments (Continued)

B. Investments Authorized by Debt Agreements

Investment of debt proceeds held by bond trustees are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City's investment policy. The table below identifies the Investment types that are authorized for investments held by bond trustee. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Maximum Percentage of Portfolio</u>	<u>Maximum Investment in One Issuer</u>
Local Agency Investment Fund (State Pool)	N/A	None	\$50 million
U.S. Treasury Obligations	N/A	None	None
U.S. Government Agency Issues	5 years	None	None
Insured Passbook on Demand Deposits with Banks and Savings and Loans	N/A	None	\$100,000
Certificates of Deposit	2 years	None	\$100,000
Bankers Acceptances			
Commercial Paper	N/A	None	None
Mutual Funds (must be comprised of eligible securities permitted under this policy)	N/A	None	None
Money Market Funds (must be comprised of eligible securities permitted under this policy)	N/A	None	None
Investment Agreements	N/A	None	None

C. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

<u>Investment Type</u>	<u>Totals</u>	<u>12 Months or Less</u>	<u>13 to 24 Months</u>	<u>25-60 Months</u>	<u>More Than 60 Months</u>
State Investment Pool	\$ 15,433,701	\$ 15,433,701	\$ -	\$ -	\$ -
Federal Agency Securities	18,063,935			7,015,345	11,048,590
Money Market Funds	19	19

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 3 Cash and Investments (Continued)

D. Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations

The City has no investments (including investments held by bond trustees) that are highly sensitive to interest rate fluctuations (to a greater degree than already indicated in the information provided above).

E. Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of fiscal year end for each investment type.

Investment Type	Amount	Minimum Legal Rating	Exempt From Disclosure	Rating as of Fiscal Year End			
				AAA	AA	A	Not Rated
State Investment Pool	\$ 15,433,701	N/A	\$ -	\$ -	\$ -	\$ -	\$ 15,433,701
Federal Agency Securities	18,063,935	N/A		18,063,935			
Money Market Funds	19	N/A		19			
Held by Debt Trustee:							
Money Market Funds	2,116,290	N/A		2,116,290			
Total	\$ 35,613,945		\$ -	\$ 20,180,244	\$ -	\$ -	\$ 15,433,701

F. Concentration of Credit Risk

The investment policy of the City contains limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City investments are as follows:

Issuer	Investment Type	Reported Amount
Federal National Mortgage Association	Federal Agency Securities	\$ 4,010,823
Federal Home Loan Bank	Federal Agency Securities	3,006,785
Federal Home Loan Mortgage Corp	Federal Agency Securities	11,046,327

Investments in any one issuer that represent 5% or more of total investments by reporting unit (primary government, governmental activities, business type activities, fiduciary funds, major funds, nonmajor funds in the aggregate, etc.) are as follows:

\$18,063,935 of the cash and investments (including amounts held by bond trustee) reported in the governmental activities are held in federal agency securities, \$4,010,823 (Federal National Mortgage Association), \$3,006,785 (Federal Home Loan Bank), and \$11,046,327 (Federal Home Loan Mortgage Corp).

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 3 Cash and Investments (Continued)

G. Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City’s investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits; the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the government unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the City’s deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2010, \$7,346,039 of the City’s deposits with financial institutions in excess of federal depository insurance limits were held in collateralized accounts. As of June 30, 2010, City investments in the following investment types were held by the same broker-dealer (counterparty) that was used by the City to buy the securities:

<u>Investment Type</u>	<u>Reported Amount</u>
Federal agency securities	\$ 18,063,935
Money market funds	2,116,290

Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City’s investment in this pool is reported in the accompanying financial statements at amounts based upon the City’s pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Note 4 Accounts Receivable

The following is a list of accounts receivable at June 30, 2010:

	<u>Receivable</u>	<u>Allowance</u>	<u>Net</u>

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 5 **Notes and Loans Receivable**

- A. The City has established a program whereby employees can receive an interest free loan to purchase computers. This allows employees access to technology which is compatible to that of the City. Loans are repaid through payroll deductions. During the fiscal year ended June 30, 2010, seven new loans were given totaling \$5,872 and principal on loans was paid in the amount of \$11,902 leaving an outstanding balance as of June 30, 2010 of \$6,812.
- B. The City through the Community Development Block Grant Program has given funds to residents in the form of rehabilitation assistance to assist low income residents in fixing up their residences. These notes can be either amortized or deferred. The outstanding balance of the notes as of June 30, 2010 was \$47,920.
- C. The City has loaned \$1,000,000 to Canyon Creek Seniors, L.P., in connection with the predevelopment and construction of affordable apartment units for senior households located in the City of Calabasas. Interest is being charged at a rate of 3% per annum. The outstanding balance of the note as of June 30, 2010 was \$1,000,000.

Note 6 **Deferred Charges**

Deferred charges consist of issuance costs and discounts for debt issues. The following is the list of deferred charges at June 30, 2010:

	<u>Amortization Period</u>	<u>Deferred Charges</u>	<u>Current Amortization</u>	<u>Accumulated Amortization</u>	<u>Balance at 6/30/2010</u>
2005 Refunding Certificates of Participation	132 months	\$ 223,042	\$ 20,280	\$ 92,950	\$ 130,092
2006 Certificates of Participation	420 months	1,102,082	31,488	112,832	989,250
		<u>\$ 1,325,124</u>	<u>\$ 51,768</u>	<u>\$ 205,782</u>	<u>\$ 1,119,342</u>

Note 7 **Interfund Activity**

The following represents the interfund activity of the City for the fiscal year ended June 30, 2010.

A. Due To/ From Other Funds

Current interfund balances arise in the normal course of business and to assist funds with negative cash balance at the fiscal year end. They are expected to be repaid shortly after the end of the fiscal year.

Due to/Due from	<u>Interfund Receivables</u>	<u>Interfund Payables</u>

B. Facilities Corporation Certificates of Participation – 1999

On February 1, 1999, the City of Calabasas Facilities Corporation issued \$6,345,000 in Certificates of Participation (COPs) with rates ranging from 3.1% to 5.0%. The net proceeds of \$5,674,897 (after payment of \$670,103 in underwriting and other issuance costs) became a lump sum lease payment to the City for the lease of two properties. These included the Creekside Park Community Center and the “Kilroy” land which is located in Los Angeles County CFD 98-1. Part of the lease payment, \$2,424,897, was used to prepay all future special taxes on the Kilroy land which will be used for a new City Hall and Library.

The City and the Facilities Corporation entered into a concurrent sublease of the Creekside and Kilroy properties by which the Corporation will receive lease rental amounts sufficient to satisfy debt service on the COPs.

Principal amounts on \$2,025,000 of serial certificates mature annually on each December 1 in the fiscal years 2000 through 2015. Term certificates in the amounts of \$1,335,000 and \$2,985,000 are due December 1, 2020 and 2028 respectively. Interest is payable semiannually on June 1 and December 1. The Certificates of Participation have been defeased by placing the proceeds of \$3,863,304 from the 2005 Refunding Certificates of Participation and a contribution from the City of \$2,684,977 in irrevocable trust accounts to provide for all future debt service payments on the old debts. Accordingly, the liabilities for the defeased debt and their related trust account assets are not required to be included in the Government-wide Statement of Net Assets. The entire principal balance of \$5,535,000 of the defeased bonds was paid in December 2009.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 9 **Long-Term Debt (Continued)**

C. 2005 Refunding Certificates of Participation

On November 1, 2005, the City issued \$4,025,000 Certificates of Participation (COPs) bearing interest of 3.0% and 4.0%, payable semi-annually on June 1 and December 1 commencing June 1, 2006. The certificates mature annually at various amounts through December 1, 2016. The Facilities Corporation will receive lease rental amounts sufficient to satisfy debt service on the COPs from the City. The debt proceeds were used to refund the 1999 Certificates of Participation which were due on December 1, 2028. Certificates outstanding at June 30, 2010, were \$2,850,000.

D. 2006 Certificates of Participation

On November 15, 2006, the City issued \$35,000,000 Certificates of Participation (COPs) bearing interest of 3.625% and 5.0%, payable semi-annually on June 1 and December 1 commencing June 1, 2007. The certificates mature annually at various amounts through December 1, 2041. The Facilities Corporation will receive lease rental amounts sufficient to satisfy debt service on the COPs from the City. The debt proceeds were used to finance the construction of a city hall, library and civic center facility and related infrastructure, equipment and furnishings. Certificates outstanding at June 30, 2010, were \$34,770,000.

E. Compensated Absences:

The City’s policies relating to compensated absences are Described in Note 1 of the Notes to Financial Statements. This liability will be paid in future fiscal years from future resources.

\$ 549,880

Compensated absences in governmental activities have been liquidated in the past fiscal year in the general fund and landscape maintenance district (Special Revenue Fund).

F. Capital Leases Payable:

The City has entered into various lease agreements for photocopiers which qualify as capital leases. The City accounts for capitalized leases in the governmental activities by recording the lease/asset at the present value of the lease obligation \$53,731. The present value of minimum lease payments at June 30, 2010 is \$52,835. The implicit rate of the lease cannot be determined. The amount representing interest is based on the City’s incremental borrowing rate and the amount is immaterial.

Ending	Leases
2011	\$ 10,746

Note 10 **Operating Lease**

The City has entered into an operating lease agreement with Honda for automobiles in March, 2009. Any operating leases with scheduled rent increases are considered immaterial to the future minimum lease payments and current rental expenditures. Operating lease payments are recorded as expenditures or expenses of the related funds when incurred. For the fiscal year ended June 30, 2010, total operating lease expenditures were \$33,378. Future minimum lease commitments for non-cancelable operating leases as of June 30, 2010 are as follows:

Fiscal Year Ended June 30,	Total
2011	\$ 32,921
2012	24,691
Total future minimum lease payments	<u>\$ 57,612</u>

Note 11 **Defined Benefit Plan**

A. Plan Description

The City of Calabasas contributes to the California Public Employees Retirement System (PERS), an agent cost-sharing multiple-employer public employee defined benefit pension plan. PERS provides retirement, disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and city ordinance. Copies of PERS' annual financial report may be obtained from their executive office: 400 P Street, Sacramento, CA 95814.

B. Funding Policy

Participants are required to contribute 7% of their annual covered salary. The City makes the contributions required of City employees on their behalf and for their account. The City is required to contribute at an actuarially determined rate; the current rate is 9.38% of annual covered payroll. The contribution requirements of plan members and the City are established and may be amended by CalPERS. The City's contribution to CalPERS for the fiscal year ending June 30, 2010, 2009, and 2008 were \$601,688, \$584,968, and \$505,624 respectively and were equal to the required contribution.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 12 **Risk Management**

Description of Self-Insurance Pool Pursuant to Joint Powers Agreement

The City is a member of the California Joint Powers Insurance Authority (Authority). The Authority is composed of 84 California public entities and is organized under a joint powers agreement pursuant to California government Code § 6500 et seq. The purpose of the Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group-purchased insurance for property and other coverages. The Authority's pool began covering claims of its members in 1978. Each member government has an elected official as its representative on the Board of Directors. The Board operates through a 5-member Executive Committee.

Self-Insurance Programs of the Authority in which the City Participates

General Liability – Each member government pays a primary deposit to cover estimated losses for a fiscal year (claims year). Six months after the close of a fiscal year, outstanding claims are valued. A retrospective deposit computation is then made for each open claims year. Costs are spread to members as follows: the first \$20,000 of each occurrence is charged directly to the member; costs from \$20,001 to \$500,000 are pooled, based on a member's share of costs under \$20,000; costs from \$500,001 to \$5,000,000 are pooled based on payroll. Costs of covered claims above \$10,000,000 are currently paid by reinsurance. The protection for each member is \$50,000,000 per occurrence with a \$50,000,000 annual aggregate.

Workers Compensation – The City also participates in the workers' compensation pool administered by the Authority. Pool deposits and retrospective adjustments are valued in a manner similar to the General Liability Pool. The City is charged for the first \$25,000 of each claim. Costs are pooled above that level to \$50,000. Costs from \$50,001 to \$100,000 per claim are pooled based on the member's losses under its retention level. Costs between \$100,001 to \$2,000,000 per claim are pooled based on payroll. Costs in excess of \$2,000,000 are paid by excess insurance purchased by the Authority. The excess insurance provides coverage to statutory limits.

Purchased Insurance

Environmental Insurance – The City participates in the pollution legal liability and remediation legal liability insurance which is available through the Authority. The policy covers sudden and gradual pollution of scheduled property, streets, and storm drains owned by the City. Coverage is on a claims-made basis. There is a \$50,000 deductible. The Authority has a limit of \$10,000,000 for the 3-year period from July 1, 2007 through June 30, 2010.

Property Insurance – The City participates in the all-risk property protection program of the Authority. This insurance protection is underwritten by several insurance companies. The City's property is currently insured according to a schedule of covered property submitted by the City to the Authority. Total all-risk property insurance coverage is \$53,915,389. There is a \$5,000 per loss deductible. Premiums for the coverage are paid annually and are not subject to retroactive adjustments.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 12 **Risk Management (Continued)**

Fidelity Bonds – The City purchases blanket fidelity bond coverage in the amount of \$1,000,000 with a \$2,500 deductible. The fidelity coverage is provided through the Authority. Premiums are paid annually and are not subject to retroactive adjustments.

Special Event Tenant User Liability Insurance – The City further protects against liability damages by requiring tenant users of certain property to purchase low-cost tenant user liability insurance for certain activities on City property. The insurance premium is paid by the tenant user and is paid to the City according to a schedule. The City then pays for the insurance. The insurance is arranged by the Authority.

Adequacy of Protection

During the past three fiscal years none of the above programs of protection have had settlements or judgments that exceeded pooled or insured coverage. There have been no significant reductions in pooled or insured liability coverage from coverage in the prior fiscal year.

Note 13 **Joint Venture**

On November 24, 1997, the Agoura Hills and Calabasas Community Center Authority (Authority) was created under a joint exercise of powers agreement between the Cities of Agoura Hills and Calabasas. It was formed for the operation and maintenance of a Joint recreation Center. The governing Board of Directors consists of one City Council Member from each City, two residents of each City appointed by the City Council, and the president or a member of the Executive Board of the Alliance (a non-profit organization formed for the sole purpose of raising funds for the Community Center). Each City contributed money towards the construction of the Community Center, which was completed in March 2000. The Authority now oversees the operations and maintenance of the Community Center. The Cities of Agoura Hills and Calabasas will equally share in any profit or loss from operation of the Community Center. Results of operations are included in the City of Calabasas' financial statements for the fiscal year ending June 30, 2010. A copy of the Authority financial statements can be obtained at: 100 Civic Center Way, Calabasas, CA 91302.

Note 14 **Contingencies**

The City has been named as a defendant in water intrusion and waste discharge complaints, construction complaints and lawsuits and claims with unpermitted grading. Such claims arise primarily from violation of waste discharge requirements for the storm water system that serves the City, complaints of the Civic Center construction by sub-contractor, violation for conducting unpermitted grading on petitioners property and damaged of property owned and maintained by the City. Management believes that the ultimate result of the pending lawsuits and claims will not have a material adverse affect upon the City's basic financial statements taken as a whole.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 15 **Post-Employment Benefits Other Than Pensions**

Plan Description

Pursuant to Government Code Sections 22850 and 22857 and City Resolution 2005-966, the City administers a single-employer defined benefit healthcare plan and provides post-employment medical benefits to all retired employees in the amount of \$105 per month for fiscal year 2009-10. This amount is paid on the employees' behalf to the Public Employees Retirement System for health benefits. In addition, certain management employees and City Council who have retired with at least 8 years of PERS service credit with the City and who have reached age 55 are reimbursed for PERS health benefit payments up to \$688.50 per month. The reimbursement is reduced by the amount of eligible Medicare benefits. The City reports the financial activity of the plan in this financial report, and no separate financial report is prepared.

Funding Policy

The City's adopted policy is to contribute an amount sufficient to pay the current fiscal year's premium. For fiscal year 2009-10, the City contributed \$40,240, which consisted of current premiums, but did not include any additional prefunding of benefits.

Annual OPEB and Net OPEB Obligation

The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), and an amount actuarially determined in accordance with the parameters of GASB Statement No.45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the fiscal year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation.

Annual required contribution	\$	142,435
Interest on net OPEB obligation		5,000
ARC Adjustment		(3,334)
Annual OPEB cost (expense)		144,101
Contributions made		(40,240)
Increase in net OPEB obligation		103,861
Net OPEB obligation - beginning of fiscal year		100,006
Net OPEB obligation - end of fiscal year	\$	203,867

The City 's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2010 and 2009 was as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contribution</u>	<u>OPEB Obligation (Asset)</u>
6/30/2009	\$ 42,429	29.8%	\$ 100,006
6/30/2010	40,240	28.3%	203,867

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 15 **Post-Employment Benefits Other Than Pensions (Continued)**

Funded Status and Funding Progress

As of July 1, 2008, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$881,806, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$881,806.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2008 actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 5 percent investment rate of return, which is the expected long-term investment returns on plan assets, and an annual healthcare cost trend rate of 4 percent. The actuarial value of assets is not applicable (no assets as of the initial valuation date). The UAAL is being amortized as a flat percentage of covered payroll over thirty years. The remaining amortization period at July 1, 2009 was twenty nine years.

Note 16 **Special Assessment Districts (AD) Bonds**

Bonds issued for improvements in certain special assessment districts in accordance with the provisions of the Mello-Roos Community Facilities Act of 1982, as amended, are liabilities of the property owners and are secured by liens against the assessed property. The City Treasurer acts as an agent for collection of principal and interest payments by the property owners and remittance of such moneys to the bondholders.

Neither the faith and credit nor the general taxing power of the City of Calabasas have been pledged to the payment of the bonds. Therefore none of the following special assessment bonds have been included in the accompanying financial statements.

AD#	Special Assessment Bonds	Amount of Issue	Outstanding June 30, 2010
98-1	Community Facilities District	\$ 12,515,000	\$ 7,780,000
2001-1 Series 2006	Community Facilities District	26,535,000	24,585,000

In May 2006, the Community Facilities District No. 2001-1 Special Tax Refunding Bonds Series 2001 were defeased by placing the proceeds from Community Facilities District No. 2001-1 Special Tax Refunding Bonds Series 2006 in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account and the defeased bonds are not included in the financial statements. As of June 30, 2010, the unpaid principal balance for the defeased bonds was \$24,585,000.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 17 **Net Assets and Fund Balances**

GASB Statement No. 34 adds the concept of Net Assets, which is measured on the full accrual basis, to the concept of Fund Balance, which is measured on the modified accrual basis.

a. Net Assets

Net assets are divided into three captions under GASB Statement No. 34. These captions apply only to net assets as determined at the government-wide level, and are described below:

Invested in Capital Assets, net of related debt describes the portion of net assets which is represented by the current net book value of the City's capital assets, less the outstanding balance of any debt issued to finance these assets.

Restricted describes the portion of net assets which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the City cannot unilaterally alter. These principally include debt service requirements, and redevelopment funds restricted to low and moderate income housing purposes.

Unrestricted describes the portion of net assets which is not restricted as to use.

The government-wide statement of net assets reports \$13,946,912 of restricted net assets, of which \$9,744,260 is restricted by enabling legislation.

b. Fund Balances

Fund Balances consist of reserved and unreserved amounts. Reserved fund balances represent that portion of fund balance which is legally segregated.

Note 18 **Prior Period Adjustments/Restatements**

The following list is an explanation of prior period adjustments and restatements made to the fund financial statements.

Major Governmental Funds:

General Fund

A prior period adjustment of (\$62,743) due to overstatement of accounts receivable.

Storm Damage Special Revenue Fund

A prior period adjustment of 3,918 due to understatement of accounts receivable.

Government-wide Governmental Activities:

A prior period adjustment of (\$58,825) due to overstatement of accounts receivable.

Government-wide Business-type Activities:

A prior period adjustment of (\$2,975) was made to the Tennis and Swim Center Fund due to an overstatement of prepaid items in the previous year.

CITY OF CALABASAS
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2010

Note 19 **Proposition 1A Borrowing by the State of California**

Under the provisions of Proposition 1A and as part of the 2009-10 budget package passed by the California state legislature on July 28, 2009, the State of California borrowed 8% of the amount of property tax revenue, including those property taxes associated with the in-lieu motor vehicle license fee, the triple flip in lieu sales tax, and supplemental property tax, apportioned to cities, counties and special districts (excluding redevelopment agencies). The state is required to repay this borrowing plus interest by June 30, 2013. After repayment of this initial borrowing, the California legislature may consider only one additional borrowing within a ten-year period. The amount of this borrowing pertaining to the City of Calabasas was \$752,975.

Authorized with the 2009-10 State budget package, the Proposition 1A Securitization Program was instituted by the California Statewide Communities Development Authority (“California Communities”), a joint powers authority sponsored by the California State Association of Counties and the League of California Cities, to enable local governments to sell their Proposition 1A receivables to California Communities. Under the Securitization Program, California Communities simultaneously purchased the Proposition 1A receivables and issued bonds (“Prop 1A Bonds”) to provide local agencies with cash proceeds in two equal installments, on January 15, 2010 and May 3, 2010. The purchase price paid to the local agencies equaled 100% of the amount of the property tax reduction. All transaction costs of issuance and interest were paid by the State of California. Participating local agencies have no obligation on the bonds and no credit exposure to the State. The City participated in the securitization program and accordingly property taxes have been recorded in the same manner as if the State had not exercised its rights under Proposition 1A. The receivable sale proceeds were equal to the book value and, as a result, no gain or loss was recorded.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Proposition A Fund – used to account for the City’s share of an additional one-half percent sales tax which was approved in 1980 and is collected by the County of Los Angeles and is used to finance transportation projects.

Highway Users Tax Fund – used to account for the expenditures financed by money apportioned under the Streets and Highways Code of the State of California.

Proposition C Fund – used to account for the City’s share of an additional one-half percent sales tax which was approved in 1990 and is collected by the County of Los Angeles to finance transportation projects.

South Coast Air Quality Management Fund – used to account for the City’s share of additional motor vehicle registration fees imposed by the South Coast Air Quality Management District to finance the implementation of mobile source emission reduction programs under the provision of the California Clean Air Act.

Community Development Block Grant Fund – used to account for expenditures of funds made available from the U.S. Department of Housing and Urban Development for community development and housing assistance.

Park and Recreation Improvement Fund – used to account for grant revenue that is specifically restricted to park and recreation improvement projects.

AB 939 Fund – used to account for recycling program revenue as required by Assembly Bill 939.

B & T Lost Hills District Fund – used to account for receipts and expenditures relating to the bridges and thoroughfares of the Lost Hills District.

Used Oil Grant Fund – used to account for funds received from recycling of used oil.

TDA Fund – used to account for State Transportation Development Act, Article 3 funds for bike route and pedestrian facilities improvements.

Developer Impact Fees Special Revenue Fund – used to account for fees collected from developers for future projects necessitated by new development.

COPS AB 3229 Fund – used to account for monies received from the State of California to be used for policing activities in accordance with Assembly Bill 3229.

Library District Fund – used to account for expenditures and receipts, including secured property tax, of the City’s library.

Measure R Fund – used to account for a 30 year ½ cent surcharge on sales tax adopted by the Los Angeles County in July of 2009 and is used to finance transportation improvement projects.

Management Reserve Fund – used to account for expenditures and receipts for special projects at Management’s discretion.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS (Continued)

Oak Tree Mitigation Fund – used to account for the preservation and protection of Oak Trees within the City limits.

DEBT SERVICE FUND

Debt Service Fund – used to account for the accumulation of resources for and the payment of principal and interest on long-term debt.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

The Members of the City Council of the
City of Calabasas
Calabasas, California

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Calabasas (City), California, as of and for the fiscal year ended June 30, 2010, which collectively comprise the City's basic financial statements and have issued our report thereon dated December 21, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to the City's management, in a separate letter dated December 21, 2010.

This report is intended solely for the information and use of the City's management and City Council, and is not intended to be and should not be used by anyone other than these specified parties.

Notes:

(1) Total direct tax rate is the city's share of the 1% Proposition 13 tax only for TRA 010-900.

(2) Estimated Actual Value is derived from a series of calculations comparing median assessed values from 1940 to current median sales prices. Based on these calculations a multiplier value was extrapolated and applied to current assessed values.

Due to this calculation not being available for the periods presented prior to FY 2008-09, the calculation was done using Assessed Value as Actual.

Notes:

1. General Obligation Bonds: The City is not obligated in any manner for general obligation bonded indebtedness; therefore, ten year trend data of the ratio of net general bonded debt to assessed value, net general bonded debt per capita and ratio of annual debt service expenditures for general bonded debt to total general expenditures have been presented.

2. This chart has been reworked to better represent the GASB 44 Implementation Guide. It now includes all tax rates that are covered within the City's Direct & Overlapping area. The result of doing this is an inflated tax rate, meaning it's more than any single person pays. This occurs because the "Total Direct & Overlapping Tax Rates" include all possible tax rates within all of the City's tax rate areas. In the previous report the total included in the "Total Tax Rate" only included tax rates that applied to that one particular tax rate area.

³ 'Adjustments' and 'Collections in Subsequent Years' were immaterial and constituted less than 1% of the levy in all years, therefore they are stated as zero.

⁴ The amounts listed in this column for FY 2007, 2008 and 2009 were restated because they had included unsecured tax revenue. These three years, as well as all other years, are now showing the amount collected for secured property taxes only.

MuniServices, LLC

- Note:
- The calculations include all bonded debt obligations that are supported in whole or in part by a property tax or assessment or are supported by a pledge of the general fund or general taxing power of a governmental entity. Only long-term debt obligations are included.
 - For identifying those qualifying obligations that are included as direct debt obligations of the entity, only obligations that are secured within the entire jurisdiction are included. Assessment bonds and other obligations secured by an underlying portion of the jurisdiction are excluded from direct debt, but are included as overlapping debt.
 - Percentage of overlapping agency's assessed valuation located within boundaries of the city.
 - Excludes tax and revenue anticipation notes, revenue, mortgage revenue, and tax allocation bonds and non bonded capital lease obligations.

Source:
 City of Calabasas, Finance and Human Resources Departments

- Notes:
1. Community Services Department includes the Recreation Division (de Anza Park), the Tennis & Swim Center and the Creekside Park and Preschool.
 2. For the Community Services Department, the hourly staff number fluctuates depending on the season.
 3. Prior to 2008, the City of Calabasas Library was managed by an outside contractor, therefore the Library employees were not employees of the City until the middle of 2008.
 4. The Public Safety Department was created for the first time in FY08/09.
